Mr. Haerr,

Thank you for the notification that you are no longer represented by an attorney. We have updated our records accordingly.

Water use permit No. 95-14515 is still active and allows for the storage of 111.8 AF annually, and the irrigation of 34.5 total acres. You can continue the use allowed under this permit as long as it is active and has not lapsed. Adjudication Claim No. 95-15391 has been recommended for the irrigation of 34.2 total acres with a maximum diversion rate of 0.51 CFS. The place of use for the irrigation allowed under the adjudication claim and the permit overlap and will likely include combined usage limits once the licensing process is completed. As these two water rights overlap, I want to be clear that the total allowable irrigated acreage is NOT combined. For your reference, I have attached a map of the irrigation layout for your adjudication claim recommendation. Please contact me if you have any further questions.

Regards,

Subject: Adjudication Claims

Evan,

Thanks for calling today. Please use this email to serve notice that there is not an attorney representing TP Post Falls, LLC for the following (or any IDWR) claims:

95-15391
95-14700
95-2092
95-14515

I am very interested in your looking at the evidence for the pond back to the 1950's, please let me know what you find. As I mentioned, I prepared a new claim 95-14515 for the pond as at the time I bought the property in 2006 the adjudication was in process and we didn't know the process well nor what might be approved with available evidence.

In reviewing the approved irrigation on 95-15391 for 46 acres, I'm not sure where that is shown, but it is only the acreage closest to the Spokane River, not upper (south) acreage, that is irrigated. The total acreage is 72 acres.

I don't have a map that shows where the irrigation claim is approved.

Should I be concerned with allowing for all 72 acres to be irrigated, possibly using the new -14515 claim for the additional 26 acres?

Feel free to call my cell at 801-634-8000 or email me with any issues, questions or a revised claim for my review.

Thanks,

Regards,

Gregory Haerr
