RE: Evidence of beneficial use and change in water source for Claim 95-2004

Dear Claimant,

The Department of Water Resources has received your Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim. We are unable to recommend your Adjudication Claim at this time for the following reason.

The Notice of Claim to a Water Right identified with the number shown above has been filed for the use of spring water for domestic purposes and the irrigation of 3 acres with a claimed priority date of January 12, 1905 based on a previously issued license. Tax lot records for the claimed parcel (50N05W158295) indicate that a home was first built on the property in 1973 and the claimed irrigation use cannot be confirmed through aerial photos. The originally licensed water source was also not claimed. Although the location of a licensed point of diversion can be changed through an accomplished transfer, the water source cannot be.

We will move forward with the recommendation of your CSRBA Water Right claim once provided sufficient evidence to verify the continued use of the licensed water source for domestic purposes and the irrigation of 3 acres within the claimed place of use beginning at or before the priority date claimed. If your water source has been changed, you will need to provide evidence of when that change occurred. Please submit the required evidence within 30 days, referencing all documents with the corresponding claim number.

PLEASE NOTE: IDWR will recommend the Court decree this claim as disallowed if no further evidence is submitted. It will be to your advantage to provide clear and convincing evidence.

If you have any questions or concerns, do not hesitate to contact our office and we will be happy to help. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

Evan W. Roda
Senior Water Resource Agent
