Struthers

37-21499, 2593 + enlargement 37-21974

37-21974: No evidence of priority supporting the claimed date of 1981...claim will be disallowed pending submittal of e of p.

PLAN OF ACTION

Disallow 37-21974

For **37-2593**: recommend 314.5 acres at licensed 6.34 diversion rate...even though Struthers doesn't own most of this POU. The acres should have been broken out along with the transfers related to 37-2705 portions, but they weren't. This will have to be dealt with by allocations should Struthers try to transfer water, etc from this right to what is now claimed under 37-21974. Note in file states that in 1997 the water under 2593 was "severed" but **SRBA recommendation is for 1987**, when the license was still appurtenant to licensed POU. Diversion rate should be reduced, as it was licensed at 0.018 cfs/acre... $314.5 \times 0.018 = 5.66$ cfs

For **37-21499** (portion of 37-2705): recommend **70 acres** (although 107 are claimed & 96 are left over after the splits) based on ownership (Blaine co tax lot information) and 1.4 cfs (based on the licensed rate of 0.02 cfs/acre). 37-2705 license also has a limiting volume of 3 afa per year "when combined with all other rights appurtenant to the same land".

2593 Season of Use: recommended standard season 4-15 to 10-31.

Recommendation Conditions

1. 2573 + 21499 nte 6.34 cfs
2. Volume: 37-21499 nte 210 afa when combined with all other appurtenant rights???

IF E OF P SUBMITTED FOR 37-21974

PPU... 3 polygons, 1 for each right... 21974+2573 nte 6.34 cfs as well as 2573+21499 nte 6.34 cfs...maybe just the 0.02 cfs & 3 afa limitation???

K06, combined acre limits, etc.

ATTACHMENT A

On December 22, 1997, water right 37-2593 was severed from the land to which it was appurtenant pursuant to the Quitclaim Deed executed by Margaret E. Struthers in favor of the Applicant, Robert J. Struthers, Jr., a copy of which is attached as Exhibit 1. The land underlying the former place of use for water right 37-2593 was subsequently subdivided and sold to other individuals with the Applicant retaining one parcel. Water right 37-2593 was last used for irrigation of the licensed place of use during the 1997 irrigation season. Because water right 37-2593 has been severed from the land coupled with the fact that the Applicant no longer owns all the land licensed as the place of use for 37-2593, the Applicant must apply for and receive transfer approval in order to move the water right to other lands owned by the Applicant. The Applicant will timely apply for a transfer of water right 37-2593 in conjunction with the recommendation by IDWR of an expansion right derived from right 37-2593 pursuant to Idaho Code § 42-1426. In an earlier meeting with IDWR staff, David R. Tuthill, Jr., and Jeff Peppersack, Applicant's counsel, Josephine P. Beeman, outlined the Applicant's proposal for the filing of a transfer application for right 37-2593 in conjunction with the recommendation of the Applicant's expansion claim. Applicant's counsel is in the process of finalizing the transfer application and expansion claim which will be filed with IDWR. Because water right claims in Basin 37 have not yet been investigated and recommended in the SRBA, it is difficult to determine when exactly the Applicant's expansion claim will be investigated and recommended. Given this uncertainty, the Applicant requests a five-year extension of time within which to avoid forfeiture of 37-2593 so the Applicant can

complete the transfer of this water right in conjunction with the recommendation and transfer of the expansion claim derived from this water right.

MEMORANDUM

Date: April 10, 2002

To: File

From: Jeff Peppersack

Re: Transfer Nos. 68500, 69287, and 69417
Water Right Nos. 37-2593 and 37-2705

Enlargement issues were identified with these transfers. This memo summarizes the issues, discussions, and potential resolutions.

License 37-2593

This license was issued to R.J. Struthers in 1962 with a priority date of 2/1/1957 for 6.34 cfs for irrigation of 340 acres from ground water. Irrigation use was supplemental to decreed surface water from Big Wood River.

License 37-2705

This license was issued to R.J. Struthers in 1969 with a priority date of 1/29/1965 for 6.7 cfs for irrigation of 335 acres from ground water. Irrigation use was supplemental to decreed surface water and license 37-2593 for same lands (generally) as 37-2593. The license included a condition limiting use to 1005 af/year (3.0 af/acre) when combined with all other rights appurtenant to the same land.

Transfer 68500 (old no. 5817)

This transfer was filed in June 2000 to change the point of diversion for part of license 37-2705 purchased by applicant – Robert Stilo. The warranty deed conveyed surface water rights and 0.78 cfs of license 37-2705 (no mention of 37-2593). The transfer was approved in April 2001 for irrigation of 39 acres with a diversion rate of 0.78 cfs. No enlargement issue was identified, possibly because the purpose of the transfer was simply to change the point of diversion.

Transfer 69287

This transfer was filed in July 2001 to change the point of diversion for part of license 37-2705 purchased by applicant – John Welsh. The quit claim deed provided surface water rights and 2.78 cfs of license 37-2705 (no mention of 37-2593). Enlargement was identified as an issue – see below for explanation. The transfer is pending at S.O.

Transfer 69417

This transfer was filed in Sept 2001 to change the point of diversion for part of license 37-2705 purchased by applicant – The Smet-Pleasant Family Trust. The warranty deed does not mention water rights but includes usual language regarding appurtenances to property. There is also a quit claim deed providing surface surface water rights and 1.10

cfs of license 37-2705 (no mention of 37-2593). Enlargement was identified as an issue – see below for explanation. The transfer application was amended twice; once in November 2001 to include license 37-2593 and again in January 2002 to exclude license 37-2593. The transfer is pending at S.O

Enlargement Issue

The review files for the two pending transfers include correspondence and memos identifying the enlargement issue. Southern Region met with Struthers (see e-mail in file from Allen Merritt) to determine the status and plans for license 37-2593 and to discuss the enlargement issue. Apparently, the farm converted to sprinkler irrigation in 1974 and since that time license 37-2593 has occasionally been used to supplement other lands (300 acres or so). It is evident from information in the file that Struthers intends to retain ownership of license 37-2593. Jo Beeman, representing Struthers, was part of the enlargement discussion; she indicated that she had discussed the matter with Dave Tuthill and believes there may be a way to resolve the enlargement issue. Jo indicated that they may file a transfer related to license 37-2593 and an extension to avoid forfeiture.

At this point in time, it does not appear that enlargement is occurring except, perhaps, during those occasions when the water is used to supplement other lands (expansion claim may resolve that). It is evident that enlargement would occur if license 37-2593 is transferred to other lands/uses without 37-2705. Mr. Welsh called me on March 20 and his attorney, Jim Speck, called me on the same day to discuss Mr. Welsh's pending transfer. I indicated that the potential enlargement issue needs to be resolved prior to processing the pending transfers. Matt Howard (working with Jo Beeman) called me the same day to discuss the issue and suggested we meet to discuss further.

Meeting of April 9

Jo Beeman and Matt Howard, representing Mr. Struthers, met with Dave Tuthill and myself to discuss the enlargement issue. Matt indicated that Mr. Struthers converted from gravity irrigation to sprinkler irrigation sometime between 1974 and 1976 and was able to utilize water under license 37-2593 on other lands (those other lands also had surface water rights). We discussed the possibility of an enlargement claim for those lands. Matt indicated that Mr. Struthers was interested in moving the enlargement water right, once established, to other lands. The question that arose was: how can Mr. Struthers move the enlargement right and disconnect it from the original system under 37-2593, since 37-2593 could not be moved out from under 37-2705? Since parcels of land have already been sold off (along with parts of right 37-2705), the preferred method of creating a permissible place of use under all three rights and splitting off proportional amounts of all three rights was no longer an option. The resolution appears to be relinquishment of 37-2593 as the enlargement right is transferred away. I had previously discussed this possibility with Glen and he indicated that it would be a reasonable solution. Matt indicated that they would need to file an enlargement claim and show ownership and evidence of the development, and pursue decree of the enlargement claim prior to its transfer. Once decreed, they could file the transfer to move the enlargement right and relinquish 37-2593. The enlargement right would, in effect, be a stand alone

MICROFILMED

1991 : 1 2002

right with a 1970's priority, but would include the standard enlargement conditions regarding the 1994 priority date relative to other rights.

Since the enlargement place of use includes surface water rights, the final discussion item was the transfer of the enlargement right to other lands. I indicated that a supplemental right could be transferred to other lands that include similar primary rights. A supplemental irrigation right cannot become a primary right unless it can be shown that there is no ultimate enlargement of the water rights.

Pending Transfers

Processing can proceed for the pending transfers related to license 37-2705, since they are simply for a change in point of diversion and the enlargement issue does not appear to be a problem at this point.
