RED CAT RANCH SUBDIVISION

LOCATED WITHIN
SECTIONS 35 & 36, TOWNSHIP 2 NORTH, RANGE 18 EAST, BOISE MERIDIAN
BLAINE COUNTY, IDAHO

WHEREIN TAX LOT 7242 IS SUBDIVIDED CREATING LOTS 1 & 2, RED CAT RANCH SUBDIVISION.

Notes

NOVEMBER 2006

1. Utilities, Sewer and Fire Protection

- All new utilities shall be underground.
- A 10' wide public utility easement is granted adjacent to all public rights-of-way. Extension of utility services within each lot shall, to the extent possible, follow existing driveway alignments.
- A sand mound or equivalent septic system will be required and shall be approved by South Central Health Department prior to issuance of a building permit.
- Fire protection requirements are those of the latest adopted Blaine County Fire Protection Ordinance and all adopted Fire Codes by the Wood River Fire Protection District, including, but not limited to, water supply, access roads (including turnarounds) and defensible space, and shall be complied with prior to final building approval.

2. Water Rights & Irrigation

- All new domestic wells shall be metered. Landscape irrigated by a domestic well is limited to a $\frac{1}{2}$ acre maximum per state regulations. New wells must comply with the drilling permit requirements of Idaho Code 42-3803.
- A 20' wide maintenance easement to benefit the Water Master for the Broadford Slough is hereby established landward from the edge of bank on both sides of slough.
- The 5/1/1910 1.0 cfs of Ground Water Right J7-4238 and the 6/1/1885 0.3 cfs Surface Water Right J7-315A are assigned equally to Lots 1 and 2 for the irrigation of 14 acres (total). The 6/4/1944 0.04 cfs Ground Water Right J7-10623 for the existing home is assigned to Lot 1.

3. Wildlife and Fencing

- To allow wildlife migration, no perimeter fences within the subdivision shall exceed 42 inches in height. The bottom rail shall exceed 18 inches in height. Corral fences may exceed 42 inch maximum. All new exterior fencing shall meet the wildlife-friendly standards of the Idaho Fish and Game.
- Hay or other livestock feed shall be stored and fed so that it is not available to big game. This will minimize the chances of attracting wildlife away from native winter range and reduce depredation potential.
- Wildlife damage to ornamental trees and shrubs will occur from deer, elk, antelope, etc. The costs of resolving problems caused by wildlife damage to private property shall be the responsibility of the property owner(s). Actions taken to alleviate wildlife depredation shall be those prescribed or approved by Idaho Fish and Game.
- All household pets should be kept indoors, in kennels, or leashed at all times.
- All pet food should be stored and fed in a manner that does not attract wildlife (such as skunks, raccoons, magpies, red fox, etc.). All responsibility for controlling wildlife will belong with the property owner. Any actions taken to alleviate nuisance wildlife problems will be those prescribed by Idaho Fish and Game.

- Feeding of game species or predatory wildlife is prohibited. Artificial feeding of wildlife tends to attract and concentrate animals from native habitat, can facilitate the spread of disease, and has the potential to create conflict between neighboring homeowners due to the likelihood wildlife will use adjacent properties where they may be considered a nuisance.

4. Floodplain, Riparian, Wetland and Drainage Areas

- Portions of this property contain high groundwater levels and may not be suitable for basements.
- The lots contained in this plat are governed by the Floodplain Management District, Chapter 17, Title 9 (Zoning Regulations) Blaine County Code, to the extent they are affected by the floodplain as defined therein. Further, Lots 1 and 2 are subject to the Riparian Setback District regulations contained in the Blaine County Code. Those regulations prohibit or restrict certain uses within the 25' Setback from the Ordinary High Water Mark. Potential buyers are advised to review the Riparian District regulations as well as all other regulations in that Zoning Ordinance.
- Portions of this property are subject to flood hazard. The floodplain area designated on this plat is considered by the Owner, Blaine County and Benchmark Associates as reasonable for regulatory purposes. However, neither the Owner, Blaine County nor Benchmark Associates represents, guarantees, warrants or implies that areas outside the designated floodplain area are safe and free from floods or flood danger.
- Portions of this property have applied for and received a Letter of Map Amendment (LOMA) from the Federal Emergency Management Agency (FEMA) under case number 05-10-0373A. This LOMA removed the flood hazard designation from specific areas within the current 1997 FEMA Community Panel #165167-0859B special flood hazard area (Floodplain).
- Construction on Lots 1 and 2 should occur outside of the external boundary of the LOMA floodplain shown hereon. The county will still recognize the LOMA for future building purposes (no Conditional Use Permit required). Consistent with Title 9, Chapter 17, of the Blaine County Code, habitable and non-habitable construction may occur within the boundary of the LOMA floodplain shown hereon if a Conditional Use Permit is received. Any construction within Area A of Lot 2 is subject to a Conditional Use Permit pursuant to Title 9, Chapter 7 of the Blaine County Code.
- Native riparian vegetation shall be maintained within the 25' riparian setback.
- Wetland areas shown hereon per site specific study by Lincoln Environmental Services, September, 2005. Wetlands shall be subject to Chapter 19 of Title 9 in the Blaine County Code. A county and/or federal permit may be required before any disturbance of wetlands. A 25' setback is required for any construction adjacent to the wetlands denoted hereon.
- Work below the ordinary high water mark requires a stream channel alteration permit pursuant to Idaho Code 42-235.
- Temporary construction fencing shall be used during all new construction.

5. Agriculture, Woods and Livestock

- Pursuant to State regulations, maintenance and weed control for all lots are the responsibility of the developer until the lot is sold and thereafter the responsibility of the owners of the individual lots. The control program to be implemented by the responsible party will target those species designated on the Idaho Noxious Weed List. Mowing and manual removal are recommended, although biological control has been shown to be effective in eradicating knapweed.
- This property includes, and is adjacent to, active agricultural uses. Residents and purchasers should be aware that agricultural practices and livestock grazing and operations, occurring day and night, are allowed and may result in dust, odors, use and applications of agricultural chemicals, spraying, ground preparation and harvesting, etc. Such practices and uses are normal functions of agricultural lands and are not considered nuisances.

6. Surveyor Notes

- Basis of Bearings is per that Record of Survey for Tax Lot 7242, recorded as Instrument #469366, records of Blaine County, Idaho.
- Parenthetical bearings and distances shown are NAD 83 Idaho State Plane Central Zone based on Blaine County GIS control.

7. Additional Notes/Restrictions

- This property is located in an area subject to aircraft overflights, creating aircraft noise levels high enough to annoy users of this property and potentially interfere with its unrestricted use. Contact the Manager of the Friedman Memorial Airport for information regarding current and forecast noise levels on the property.

RED CAT RANCH SUBDIVISION

LOCATED WITHIN
SECTIONS 35 & 36, TOWNSHIP 2 NORTH, RANGE 18 EAST, BOISE MERIDIAN
BLAINE COUNTY, IDAHO

WHEREIN TAX LOT 7242 IS SUBDIVIDED CREATING LOTS 1 & 2, RED CAT RANCH SUBDIVISION.

Notes

NOVEMBER 2006

1. Utilities, Sewer and Fire Protection

- All new utilities shall be underground.
- A 10' wide public utility easement is granted adjacent to all public rights-of-way. Extension of utility services within each lot shall, to the extent possible, follow existing driveway alignments.
- A sand mound or equivalent septic system will be required and shall be approved by South Central Health Department prior to issuance of a building permit.
- Fire protection requirements are those of the latest adopted Blaine County Fire Protection Ordinance and all adopted Fire Codes by the Wood River Fire Protection District, including, but not limited to, water supply, access roads (including turnarounds) and defensible space, and shall be complied with prior to final building approval.

2. Water Rights & Irrigation

- All new domestic wells shall be metered. Landscape irrigated by a domestic well is limited to a 1/4 acre maximum per state regulations. New wells must comply with the drilling permit requirements of Idaho Code 42-3803.
- A 20' wide maintenance easement to benefit the Water Master for the Broadford Slough is hereby established landward from the edge of bank on both sides of slough.
- The 5/1/1910 1.0 cfs of Ground Water Right 37-4238 and the 6/1/1885 0.3 cfs Surface Water Right 37-315A are assigned equally to Lots 1 and 2 for the irrigation of 14 acres (total). The 6/4/1944 0.04 cfs Ground Water Right 37-10623 for the existing home is assigned to Lot 1.

3. Wildlife and Fencing

- To allow wildlife migration, no perimeter fences within the subdivision shall exceed 42 inches in height. The bottom rail shall exceed 18 inches in height. Corral fences may exceed 42 inch maximum. All new exterior fencing shall meet the wildlife-friendly standards of the Idaho Fish and Game.
- Hay or other livestock feed shall be stored and fed so that it is not available to big game. This will minimize the chances of attracting wildlife away from native winter range and reduce depredation potential.
- Wildlife damage to ornamental trees and shrubs will occur from deer, elk, antelope, etc. The costs of resolving problems caused by wildlife damage to private property shall be the responsibility of the property owner(s). Actions taken to alleviate wildlife depredation shall be those prescribed or approved by Idaho Fish and Game.
- All household pets should be kept indoors, in kennels, or leashed at all times.
- All pet food should be stored and fed in a manner that does not attract wildlife (such as skunks, raccoons, magpies, red fox, etc.). All responsibility for controlling wildlife will belong with the property owner. Any actions taken to alleviate nuisance wildlife problems will be those prescribed by Idaho Fish and Game.

- Feeding of game species or predatory wildlife is prohibited. Artificial feeding of wildlife tends to attract and concentrate animals from native habitat, can facilitate the spread of disease, and has the potential to create conflict between neighboring homeowners due to the likelihood wildlife will use adjacent properties where they may be considered a nuisance.

4. Floodplain, Riparian, Wetland and Drainage Areas

- Portions of this property contain high groundwater levels and may not be suitable for basements.
- The lots contained in this plat are governed by the Floodplain Management District, Chapter 17, Title 9 (Zoning Regulations) Blaine County Code, to the extent they are affected by the floodplain as defined therein. Further, Lots 1 and 2 are subject to the Riparian Setback District regulations contained in the Blaine County Code. Those regulations prohibit or restrict certain uses within the 25' Setback from the Ordinary High Water Mark. Potential buyers are advised to review the Riparian District regulations as well as all other regulations in that Zoning Ordinance.
- Portions of this property are subject to flood hazard. The floodplain area designated on this plat is considered by the Owner, Blaine County and Benchmark Associates as reasonable for regulatory purposes. However, neither the Owner, Blaine County nor Benchmark Associates represents, guarantees, warrants or implies that areas outside the designated floodplain area are safe and free from floods or flood danger.
- Portions of this property have applied for and received a Letter of Map Amendment (LOMA) from the Federal Emergency Management Agency (FEMA) under case number 05-10-0373A. This LOMA removed the flood hazard designation from specific areas within the current 1997 FEMA Community Panel #165167-0859B special flood hazard area (Floodplain).
- Construction on Lots 1 and 2 should occur outside of the external boundary of the LOMA floodplain shown hereon. The county will still recognize the LOMA for future building purposes (no Conditional Use Permit required). Consistent with Title 9, Chapter 17, of the Blaine County Code, habitable and non-habitable construction may occur within the boundary of the LOMA floodplain shown hereon if a Conditional Use Permit is received. Any construction within Area A of Lot 2 is subject to a Conditional Use Permit pursuant to Title 9, Chapter 7 of the Blaine County Code.
- Native riparian vegetation shall be maintained within the 25' riparian setback.
- Wetland areas shown hereon per site specific study by Lincoln Environmental Services, September, 2005. Wetlands shall be subject to Chapter 19 of Title 9 in the Blaine County Code. A county and/or federal permit may be required before any disturbance of wetlands. A 25' setback is required for any construction adjacent to the wetlands denoted hereon.
- Work below the ordinary high water mark requires a stream channel alteration permit pursuant to Idaho Code 42-235.
- Temporary construction fencing shall be used during all new construction.

5. Agriculture, Weeds, and Livestock

- Pursuant to State regulations, maintenance and weed control for all lots are the responsibility of the developer until the lot is sold and thereafter the responsibility of the owners of the individual lots. The control program to be implemented by the responsible party will target those species designated on the Idaho Noxious Weed List. Mowing and manual removal are recommended, although biological control has been shown to be effective in eradicating knapweed.
- This property includes, and is adjacent to, active agricultural uses. Residents and purchasers should be aware that agricultural practices and livestock grazing and operations, occurring day and night, are allowed and may result in dust, odors, use and applications of agricultural chemicals, spraying, ground preparation and harvesting, etc. Such practices and uses are normal functions of agricultural lands and are not considered nuisances.

6. Surveyor Notes

- Basis of Bearings is per that Record of Survey for Tax Lot 7242, recorded as Instrument #469366, records of Blaine County, Idaho.
- Parenthetical bearings and distances shown are NAD 83 Idaho State Plane Central Zone based on Blaine County GIS control.

7. Additional Notes/Restrictions

- This property is located in an area subject to aircraft overflights, creating aircraft noise levels high enough to annoy users of this property and potentially interfere with its unrestricted use. Contact the Manager of the Friedman Memorial Airport for information regarding current and forecast noise levels on the property.

STATE OF IDAHO DEPARTMENT OF WATER RESOURCES NOTICE OF CHANGE IN WATER RIGHT OWNERSHIP

Please print or type. Attach pages with additional information. Instructions are included at the end of this form.
Incomplete forms will be returned.

1. Please list the water right number(s) and/or adjudication claim number(s) (if any) for each water right to be changed. List just the adjudication claim number if there is no corresponding water right record on file with the department. Indicate, by checking in the space provided (under the "split" heading), if the change in ownership is limited to a portion of a water right in which case division of the existing water right or adjudication claim record will be required.

2. The following **REQUIRED** information must be submitted with this form:

- A. The appropriate **FILING FEE**. See instructions for fee amounts.
- B. A copy of the most recent **DEED, TITLE POLICY, CONTRACT OF SALE** or other legal document indicating your ownership of the property and water right(s) or claim(s) in question, **WITH ATTACHED LEGAL DESCRIPTION**.
- C. Either of the following (if necessary to clarify division of water rights or other complex property descriptions):
PLAT OF PROPERTY or **SURVEY MAP** clearly showing the location of the point(s) of diversion and place of use of your water right(s) and/or adjudication claim(s) (these are usually attached to your deed or on file with the county).

OR

If your water right(s) and/or adjudication claim(s) is for ten or more acres of irrigation, you must submit a USDA Farm Service Agency **AERIAL PHOTO** with the irrigated acres outlined and point(s) of diversion clearly marked. The **AERIAL PHOTO** should be submitted in place of the **PLAT OF PROPERTY** or **SURVEY MAP**.

Dear Claimant:

Please find the enclosed copy of the Notice of Completed Administrative Proceeding, which the department has filed with the SRBA Court regarding the above referenced claims. You have received this notice pursuant to SRBA Court Administrative Order 11 requiring IDWR to report to the court and interested parties any pending changes to adjudication claims in basins for which a Director's Report has been filed with the court.

Please contact this office if you have any questions about the notice or the administrative process.

Sincerely,

Review of Claim 37-315A

Validity

- ① Shows on water district list. 0.30 cfs for Carrie Show 6/1/1985 Headgate 42
- ② Some of the claimed POU was irrigated in 1987
- ③ Reece 37-315 100" = 2.0 cfs WR

37-315A	Show	0.30 cfs	AJ
37-315C	Girton	0.50 cfs	
37-20936	Eccles WRR	0.60 cfs	
37-21229	Rhythm Ranch	0.53 cfs	
37-21230	Townsend	0.07 cfs	
		<u>2.00 cfs</u>	NOT OVERCLAIMED

AJ claim 37-315A = WR 37-315C
 37-315C = 37-315D

POD - Claim map shows only 1 POD near the line between the SENE + the SWNE. The GPS point collected by Lee Peterson appears in the NWSENE, so that's what I'll recommend. Will have to call it an accomplished T'fr, although no real change has occurred.

POU - Entire parcel is 13.7 acres.

- 14 acres claimed
- Claimant's map shows NE corner of property not irrigated.
- 1987 photo shows irregular patches of flood irrigation. I've been very liberal in my depiction of the acreage and mapped 10 ~~acres~~ acres. The GCDB, photography, and taxlot layers are not registered very well in this area. The entire parcel is in the NESE 35, although some of it appears in the NWSW 36 because of GCDB mis-registration.

Overlap - Claim 37-4238 overlaps this POU, but no priority evidence has been submitted and there doesn't appear to be an irrigation pattern except for this right. 37-4238 will be disallowed.
