RE: Snake River Basin Adjudication

Dear Mr. and Mrs. Eldredge:

this letter will supersede my February 3, 1989, of which you received
~~We are returning all the Notices of Claim to a Water Right filed for your properties in Blaine County and your check #974 in the amount of \$155.00. There is at least one major problem with every claim you have filed. I will try to outline in this letter what the errors are on these forms and try to explain to you what additional information we need from you to make these filings acceptable under the guidelines of the adjudication. However, I truly feel that you will have less difficulty in complying with the adjudication statutes if you will make an appointment with our office in Twin Falls, at IDWR Southern Region Office, 2148 Fourth Avenue East, Twin Falls, ID 83301, 734-3578, and have one of our claims takers help you with these claims. The office in Idaho Falls is closer to you, but the appropriate maps, without prior arrangements, are not there. The address and phone number are: Eastern Region Office, 150 Shoup Avenue, Suite 15, Idaho Falls, ID 83401, 525-7161. There is no charge for this service.~~

On both of the green forms for domestic use, you have basically the same problem areas: #2 is blank, #4 (blank) and #10 do not match, #5 is blank, #6 is incomplete, and #7 is blank. I will address these problem areas in the order they appear on the form. Please refer to your instruction booklet that relates to these forms and if you will review them as you work through the form, I think it will be helpful to you.

At Item #2, the Date of Priority, we need you to give us the month, day and year, as close as possible to the actual date that water was first placed to a beneficial use. In most domestic uses, this is the date that the first home was built on the property.

At Item #4, you have only noted the section designation as Section 31, leaving the rest of the legal description blank. However at Item #10, you have listed a full legal description down to the 40-acre tract as we require, listing Section 23. I would like to explain to you our meanings for "point of diversion" and "place of use".

Point of diversion is the location of the diversion well or diversion works in the case of diversions from the river. Place of use is the location (s) where the water is actually put to beneficial use. These locations must be described

over back cont new FD
in Items #4 and #10 to the 40 acre subdivision of the section.

MICROFILMED
FEB 22 1989

For Item 3, I believe the house(s) are on a well for the water supply rather than the Little Wood River. If this is the case, please strike the river sources and insert GROUNDWATER in 3A with 3B blank.

At Item 4, I think your well(s) are in ~~the~~ Township 1 South Range 21 East, Section 23, SW $\frac{1}{4}$, SW $\frac{1}{4}$, NW $\frac{1}{4}$. Item 10 ^{as you have it} would then agree with Item 4.

In Item 5 in one of the green forms you should put the diversion means.)

(The amount of water is missing from Items 6 and 7.

Given that the domestic claims are complete, I would be remiss if I did not explore the domestic well(s) situation a little more. From a 1974 aerial photograph for this location, I can see only one dwelling. Where a second well supplies the same domestic unit that once the first well did the job, & you could claim ~~the~~ ^(Step 2) both wells on one form. The priority date of the earliest well prevails. In Item 5 you describe the two well diversion system. Now if more than one dwelling is served by the well the case may be that two claims, each with different priority dates are necessary. In addition you also have the option to defer a determination of any small domestic and/or stockwater claim. A packet of this information is enclosed ⁽²⁾ to help with the filing.

NW SW SE S 30 T14 N1E

(3)

On to the irrigation rights, your good work shows through, Mrs. Eldredge. The 1883 water right claim apparently stems from an earlier Claim to a Water Right rather a decree. A copy of claim 37-04430 is enclosed. I cannot find an existing decreed water right with an 1883 priority date for your land.

For both water rights from the Little Wood River, the point of diversion (Item 4a) appears to be ~~from the east canal in~~ Township 1 South, Range 21 East, Section 30, NW $\frac{1}{4}$, SW $\frac{1}{4}$, SE $\frac{1}{4}$.

(Item 2)
The priority date set out on the earlier Claim to Water Right is April 1, 1883. On the decreed 1893, I find a ^{part of} water right 37-00200 with a May 12, 1893, priority date in our records.

At Item 6 of the ^{both claims} ~~1883 right claim~~, please put an amount of water for stock. From your decree on the same claim, at Item 10, 5 (acres) would go in the seventh (7th) small square from the left in the SW $\frac{1}{4}$ NW $\frac{1}{4}$.

At Item 6 and 7 on the 1893 claim please make the amount of water consistent; i.e., 14 cfs (7 inches) is in the deed.

By the way your map was exceptional. Thank you.

WATER IS DELIVERED THROUGH EAST CANAL.

USE OF THIS RIGHT IS COMBINED WITH WATER FROM LITTLE WOOD RIVER
IRRIGATION DIST.

4/9/04
SCC

STOCK WATER USE

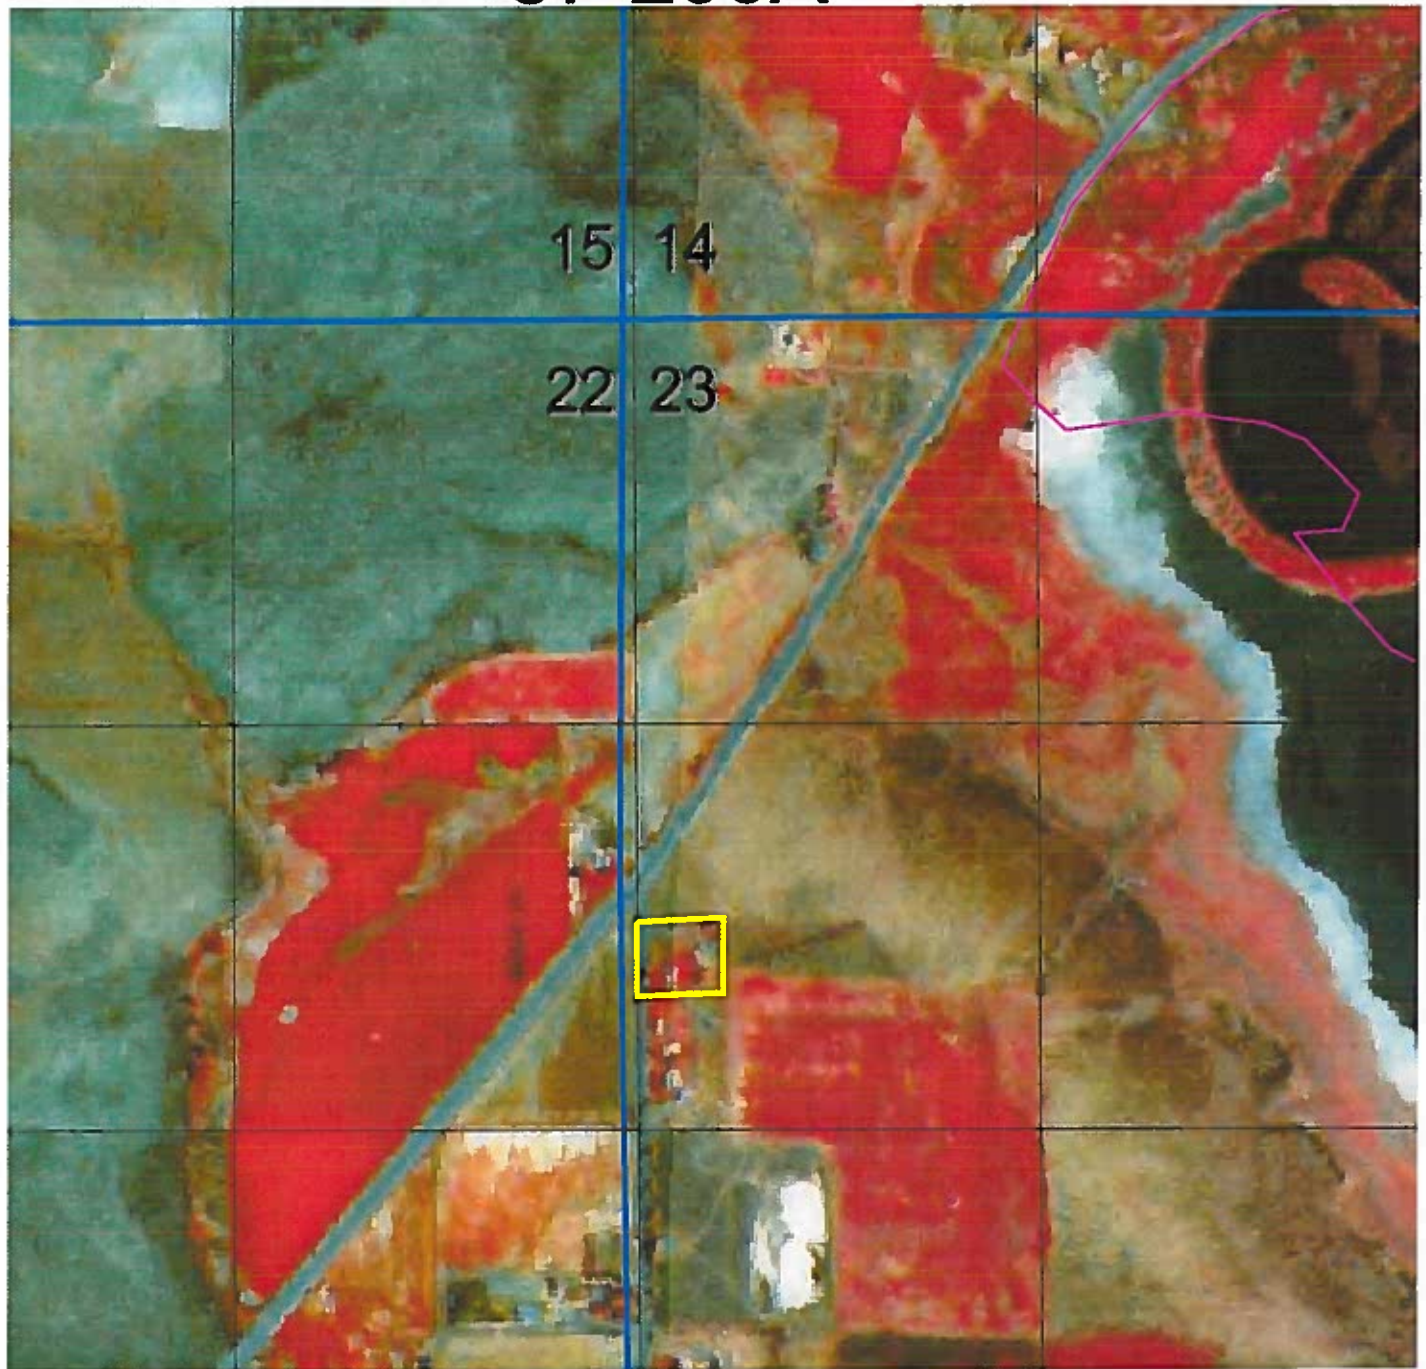

LITTLE WOOD RIVER SYSTEM

In a phone call with Bob Simpson, watermaster, we discussed the use of water for Stockwater in this system. He said there is no winter use in the canals or river. The water loss would be prohibitive and there is a problem with ice.

Any SW use would be limited to the irrigation season only.

RE: Snake River Basin Adjudication

Dear Mr. and Mrs. Eldredge:

This letter will supersede my February 3, 1989 letter, of which you received only pages 1 and 3. Please disregard the earlier letter - save the enclosures mailed with it.

There is at least one major problem with every claim you have filed. I will try to outline in this letter what the errors are on these forms and try to explain to you what additional information we need from you to make these filings acceptable under the guidelines of the adjudication. However, I truly feel that you will have less difficulty in complying with the adjudication statutes if you will make an appointment with our office in Twin Falls, at IDWR Southern Region Office, 2148 Fourth Avenue East, Twin Falls, ID 83301, 734-3578, and have one of our claims takers help you with these claims. The office in Idaho Falls is closer to you, but the appropriate maps, without prior arrangements are not there. The address and phone number are: Eastern Region Office, 150 Shoup Avenue, Suite 15, Idaho Falls, ID 83401, 525-7161. There is no charge for this service.

On both of the green forms for domestic use, you have basically the same problem areas: #2 is blank, #3 may be inappropriate, #4 (blank) and #10 do not match, #5 is blank, #6 is incomplete, and #7 is blank. I will address these problem areas in the order they appear on the form. Please refer to your instruction booklet that relates to these forms and if you will review them as you work through the form, I think it will be helpful to you.

At Item #2, the Date of Priority, we need you to give us the month, day and year, as close as possible to the actual date that water was first placed to a beneficial use. In most domestic uses, this is the date that the first home was built on the property.

For Item #3, I believe the house(s) are on a well for the water supply rather than the Little Wood River. If this is the case, please strike the river sources and Insert "groundwater" in 3A with 3B blank.

RECEIVED
FEB 23 1993

Mr. and Mrs. Robert Eldredge
February 16, 1989
Page 2

At Item #4, you have only noted the section designation as Section 31, leaving the rest of the legal description blank. However at Item #10, you have listed a full legal description down to the 40-acre tract as we require, listing Section 23, I would like to explain to you our meanings for "point of diversion" and "place of use". Point of diversion is the location of the well or diversion works in the case of diversions from the river. Place of use is the location(s) where the water is actually put to beneficial use. These locations must be described in Items #4 and #10 to the 40-acre subdivision of the section.

At Item #4 then, I think your well(s) are in Township 1 South, Range 21 East, Section 23, SW $\frac{1}{4}$ SW $\frac{1}{4}$ NW $\frac{1}{4}$. Item #10, as you have it would then agree with Item #4.

In Item #5 in one of the green forms you should put the diversion means. The amount of water is missing from Items #6 and #7.

Given that the domestic claims are complete, I would be remiss if I did not explore the domestic well(s) situation a little more. Where a second well supplies the same domestic unit that once the first well did the job, you could claim both wells on one form. The priority date (Item #2) of the earliest well prevails. In Item #5 you describe the two-well diversion system. Now, if more that one dwelling is served by the well, the case may be that two claims, each with different priority dates are necessary. In addition, you also have the option to defer a determination of any small domestic and/or stockwater claims. A packet of this deferral procedure is enclosed to help with this decision.

Onto the irrigation rights; your good work shows through, Mrs. Eldredge. The 1883 water right claim apparently stems from an earlier claim to a water right rather than a decree. A copy of claim 37-04430 is enclosed. I cannot find an existing decreed water right with an 1883 priority date for your land.

The priority date (Item #2) set out on the earlier claim to a water right is April 1, 1883. On the decreed 1893, I find a part of water right 37-00200 with a May 12, 1893 priority date in our records.

For both water rights from the Little Wood River, the point of diversion, (Item #4A) appears to be the East Canal in Township 1 South, Range 21 East, Section 30, NW $\frac{1}{4}$ SW $\frac{1}{4}$ SE $\frac{1}{4}$.

At Item #6 of both claims, please put an amount of water for stock. From your deed on the same claim at Item #10, 5 (acres) would go in the seventh (7th) small square from the left in the SW $\frac{1}{4}$ NW $\frac{1}{4}$.

Mr. and Mrs. Robert Eldredge
February 16, 1989
Page 3

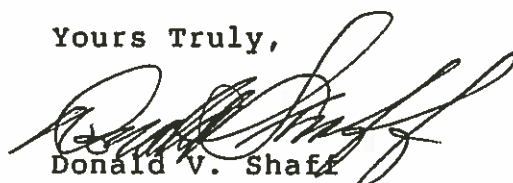

At Item #6 and #7 on the 1893 claim, please make the amount of water consistent; i.e., .14 cfs (7 inches) as in the deed.

By the way, your map was exceptional; thank you.

The filing fees in your last check were correct if your claim the two domestic water rights. For a single domestic claim plus the two irrigation water rights, the filing fees would be \$130.00

Please return the documents to this office at my attention. If you will make these corrections with the proper filing fees before March 17, 1989, you will not be assessed a late filing fee. Please do not hesitate to contact this office if you have any questions or concerns.

Yours Truly,

Donald V. Shaff

If the two decrees' rights
are for the same irrigated
acres, then the fee is
correct.
