DATA ENTRY BY KELLY K CHRISTENSEN

Idaho Dept of Water Resources
Claims review notes and narrative

Date: 9-12-2005 **File: 37-208B 21478 Dehlmar** **Prepared by Kelly K Christensen**

Three claims were filed for irrigation on the claimed place of use. 37-2495 was renumbered to 37-21478 and claimed for 27 acres. 37-7912 was claimed for the licensed 18 acres and 37-208B for 8 acres was transferred to the same parcel in 1986.

37-2495 was licensed for irrigation of 29 acres with a 1948 priority date but claimed for 27 acres. The licensing field exam noted that ground outside of the permitted place of use was also being irrigated. Based upon the topography of the area and the ground found irrigated, the current place of use was likely being irrigated since the first day of irrigation. The licensed point of diversion and delivery ditch runs past the ground not covered by the license. After discussing this with Dehlmar, I accept that the current place of use represents the historical place of use, therefore 37-2495 was renumbered and amended to recognize a beneficial use that was developed in 1911 when the land patent was granted.

37-208B ,for 8 acres, was transferred to the property through T-3231 and has a 6-1-1880 priority date.

37-7912 was licensed for 18 acres part of which overlaps with some of 37-2495. 37-7912 has a 5-26-1981 priority date.

BASIS FOR RECOMMENDATION

I am recognizing 37-208B for the transferred 8 acres and 0.20 cfs within the found place of use.

Next I am recognizing 37-21478 for the balance of the place of use (27 ac) and one inch per acre or 0.54 cfs).

I am recommending 37-7912 for disallowal as the entire found place of use is being recognized through the two previous rights and they have earlier priority dates.

Hailey,

After stopping at the Hailey Assessor and inquiring about location of these two people's property on 636 Croy Creek Road I went out to see if I could possibly find someone home to talk to about these three Water rights I proceed West and sure enough there was a man in the road in front of the barn Kevin [renter] and he said that he could help. While reviewing the files I suggested that he advise Denzel to Go into the IDWR and visit with Kelly about B/U which should include storage and he said Denzel was planning to come up next week and he would recommend that he see Kelly and update these three rights Then he looked at the acreage photo and he said the area marked in yellow is a good representation of Their land with as he thinks the upper portion is Denzel property and the southern George. Dear Steve
Received your letter dated Nov. 10 in regards to metering water in Dist 37, Choy Creek and Tributaries.

Unfortunately I have not kept myself up to speed on the situation with the water use along Choy Creek.

We (Mary Rowland - George and Ruth Dehlman) use Elk Creek water and are at the top of the water chain.

George Dehlman & myself (Denzel Rowland) attended one meeting about 2 years ago in Hailey regarding water use being restricted. This is the last contact that was had.

If water use needs to be regulated that is understandable alot of the water after it flows through our place (Red Elephant Ranch) goes under ground when it intersects with

Croy Creek.

Nonetheless we are planning to install and comply with your request using a flowmeter to regulate to the water right amount.

Being as though I received this letter 3 weeks ago it will be a struggle to have a plan in front of you by Jan 31st., but will do / my best.

Please clarify if sufficient water is available, is the / water still regulated to the earliest right, as you can see I have a very early right and then some not so recent. How is this regulated???

Any information that you can provide would be appreciated.

Thank you
