RE: POU locations for Water Right Claim 95-8627

Dear Claimant,

The Department of Water Resources has received your Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) Claim. We are unable to recommend your Adjudication Claim at this time for the following reason.

The Notice of Claim to a Water Right identified with the number shown above has been filed for the use of groundwater for domestic and fire protection purposes based on a previously issued license. The licensed water right that your current claim is based upon was issued for 17 homes, but the map you provided with your claim is unclear which homes are served under this water right. Also, only one of the two licensed points of diversion (wells) can be seen on your submitted map.

We will move forward with the recommendation of your CSRBA Water Right claim once provided sufficient evidence to verify the location of each home served and the two wells that serve them. I have enclosed a copy of Water Right License No. 95-8627 for your review. **Please submit the required map within 30 days, referencing all documents with the corresponding claim number.**

PLEASE NOTE: Any additional homes served by your water supply system in excess of the 17 authorized under Water Right 95-8627 will be deemed unlawful and an additional water use permit will be required. The permit system for establishing a water right became mandatory for uses developed from groundwater after March 25, 1963 (except for domestic purposes as defined by Section 42-111, Idaho Code).

If you have any questions or concerns, do not hesitate to contact our office and we will be happy to help. I can be reached by phone during business hours at 208-762-2800 or by email at evan.roda@idwr.idaho.gov.

Best Regards,

A handwritten signature in black ink, appearing to read 'Evan W. Roda', is written over a horizontal line.
