MEMORANDUM

TO: ADJUDICATION CLAIM FILE 63-20596

FROM: DANIEL A. NELSON

DATE: 5/30/06

SUBJECT: CLAIM REVIEW

This claim was filed on 7 acres for wastewater. The priority date claimed on the statutory claim was 5/20/1900. A proof of priority letter was sent, and the claimant returned an affidavit from Ken Nelson of Nelson Farms stating he observed the wastewater being used in 1937. There was no other evidence supplied to support the 1900 priority date, so the priority date will be advanced to the beginning of the irrigation season in 1937 or 3/1/1937.

The claimant also supplied a map that shows where the wastewater is collected from neighboring farms. There is a ditch that flows parallel to the north border of the NWNW of S17 that collects the wastewater at two locations. The first location is at the northeast corner of this tract and the second is in the middle of the tract. The points where the water enters the delivery ditch will be the points recommended under his claim.

The season of use, rate of diversion, and annual volume will be determined by the department standards. This claim is below the 0.20 cfs standard for requiring a field examination. Therefore, the maximum allowable will be used. Judging from the size of the fields, it is very likely that the maximum amount of water if not more has been used on this property in the past.

RECEIVED
MAY 16 2006
WATER RESOURCES
WESTERN REGION

To Whom It May Concern

Having the dubious distinction of having lived in this neighborhood longer than anyone else, my neighbor, Carl McKinley, asked me to write this note concerning wastewater he uses on his pastures.

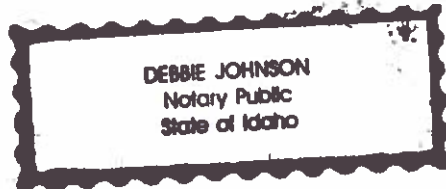

When my folks and I moved here in 1937 the farm above Carl's was being watered. Hap Norman lived in the draw that Carl now owns and he used the wastewater for his pastures and garden. This would indicate wastewater was being put to beneficial use almost as soon as the farms above were put under cultivation and as soon as irrigation water became available.

Sincerely,

Ken Nelson

RE: EVIDENCE OF PRIORITY

Snake River Basin Adjudication Claim No(s): A63-20596

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Page 2
McKinley

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, I will need an accurate location of the well used for irrigation under this water right. Please carefully mark on the enclosed aerial photo the exact location of the well for this right.

The required evidence supporting the priority date(s) requested and the aerial photo needs to be returned to me by May 19, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

A handwritten signature in black ink, appearing to read "Daniel A. Nelson", with a long, sweeping horizontal line extending to the right.

Daniel A. Nelson
Senior Agent
Western Region Office - IDWR

Enclosure: "Evidence of Priority" pamphlet
Notice of Claim A63-20596
2004 aerial photo

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.
