Change of Address

Records modified 2-1-02. -/b

Dear Water Right Holder:

IDWR has been notified the address presently in our records is incorrect. Although we have reached you at the address above, we need your written confirmation this is your correct mailing address before we can change our records. Future notices related to your water right can be sent only to the address on your water right or as otherwise changed by you.

Please sign your name at the bottom of this letter and return it to this office. Make corrections to your name and address if necessary and list any other water rights you may have before returning this letter by January 18, 2002. Thank you for your help.

If your mail delivery address changes in any form, please contact us in writing so we can update our records.

If there has been a change in ownership of the property connected with the water rights referenced above, please call this office toll-free at 1-800/451-4129 to obtain a form to make this required change to the water right record.

Sincerely,

Sally

SUBJECT: CHANGE OF OWNERSHIP FOR A37-10320, A37-12911 AND SPLIT OF A37-07419
phone () walk-in(X)

Dan Nelson referred her to me as she had a right in excess of the measurment district threshold of 0.24 cfs. I reviewed A37-12911 and discussed the uses with her. She indicated that this right was originally for a 2,000 head feed lot but that it probably had not been used for approximately 10 years. She stated that she probably would not use that right in that manner. She stated that the uses from that source is for approx 30 head of stock and two homes. She indicated that the two homes were built approximately at the same time and had always been on the same system. She thought that the current pump in the well is 1.5 hp. She ammended the claim to reflect that information. We discussed the partial forfeiture issues relating to this use as she started thinking about working with a dairy utilize an additional portion of the right.

I then assisted her with the paper work for changing ownership on A37-10320.

I reviewed the warranty deed for A37-07419 and determined that the portion that she purchased was the "pivot corner" located in the NESE quarter totaling approximately 9.8 acres. The right was split proportionately. She stated that some of her ground has been irrigated from McFarland's system but that the agreement at the time of sale was for her to eventually transfer her use to the well described in A37-12911. We discussed the possibility of her filing an extension of time to avoid forfeiture for a portion of the right as she plans on irrigating only 4 or 5 acres total. I informed her that she needs to file a transfer to use that well.

After she got home she called to discuss the possibility of McFarland wanting to keep a portion of the feedlot right. I suggested that she contact him.
