)
) FOR WATER RIGHTS 63-20901,
) 63-20902, and 63-20909

I. FINDINGS OF FACT

Notices of claim were filed for the above-captioned water rights pursuant to I.C. § 42-1409. The Director of the State of Idaho Department of Water Resources (IDWR) examined the water system for this reporting area. The *Director's Report* recommended that these water rights be disallowed.

On June 4, 2007, the claimant of the water rights, Wayne Eugene Stevens and/or Lakeview Water Company, through their attorney David L. Whitney, filed objections to the *Director's Report*, asserting that the water right claims should be allowed. On August 1, 2008 the parties filed a *Standard Form 5 - Stipulated Elements of a Water Right* in each of the subcases, which resolved the objections. The Idaho Department of Water Resources concurred with the stipulations.

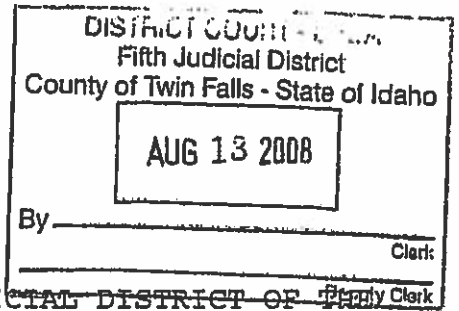

II. CONCLUSIONS OF LAW

Therefore based on the file and record herein and pursuant to the *Standard Forms 5*, IT IS RECOMMENDED that water rights 63-20901, 63-20902, and 63-20909 be decreed with the elements as set forth in the attached *Recommendations for Partial Decrees Pursuant to I.R.C.P. 54(b)*.

Hey – the attached sf5 is for Wayne Stephens. We already forwarded 3 sf5s to his attorney David Whitney but this one was disallowed. We are settling by reducing quantity to .23 cfs and put the 13,000 gpd limiter on it for this 12-unit apartment building with really no irrigation. It is not in strikeout format because it was disallowed, so everything would be underlined!

Hi Ray -

I am sending over the SF5s for 63-20900, 20901, 20902 in statehouse mail tomorrow. We got a new printer but no one knows how to operate the scanner yet. These SF5s are not in strikeout/underline format because they were recommended disallowed so all of the elements are new.

The 4th recommendation, 63-20909, remains disallowed because it was developed after 1963 and the claimant was advised by agent Dan Nelson to file an application for permit.

Re: Evidence of Priority for Claims to Water Rights 63-20900,
63-20901, 63-20902, and 63-20909

Gentlemen:

My name is Wayne Stephens, my mailing address is 24604 Emmett Road, Caldwell, ID 83607, and I am more than 18 years of age. The following information about the water use associated with the above numbered claims to water rights is from my own personal knowledge.

The triplex associated with claim to water right 63-20900 is on the location of a residence and brick/block factory that were in place in the mid 1950s. The attached "Agreement to Terminate Water Well Agreement" was put in place to terminate a water well sharing agreement dated February 8, 1956. The location of the shared well as described in Exhibit "A" of the attached Agreement is the same property as the currently located triplex and claim to water right 63-20900 should be amended to claim a priority date of at least February 8, 1956.

I moved into and lived in the 8 plex associated with claim to water right 63-20901 in 1962. The units were new when I moved in during 1962.

The triplex and 4 plex associated with claim to water right 63-20902 were in place on the property when I moved there in 1962. Neither of the buildings was new in 1962 when I moved there.

The 12 unit apartment associated with claim to water 63-20909 was, to the best of my recollection, completed in about 1965. I request that the priority date of this claim be amended to 1965. I grew up in Middleton and from about the mid 1950s to the late 1960s I hunted geese in the general area where the 12 unit apartment and the Valley View Apartments are now located. As noted above my wife and I rented one of the Valley View apartments in 1962 and we lived there into sometime in 1963 when we purchased a residence. It is my recollection that shortly after we moved the 12 plex apartment was constructed. Our interest in the properties continued. In 1977 my wife and I purchased the Valley View Apartment complex which was located next to the then existing 12 unit apartment complex. At this time it was apparent that both units had existed for a significant period of time and both were in need of significant maintenance and repair. Later I purchased the 12 unit

Idaho Department of Water Resources
Page 2
May 31, 2007

complex. As noted, it is my best recollection that the 12 unit complex has existed since about 1965. Canyon County has advised me that they do not keep copies of building permits issued that far back and therefore I cannot pinpoint the precise date of the issuance of the building permit.

All of these water rights are interconnected to 5 wells, some of which provide water for additional water rights as well. Normally, these water rights are supplied from 3 wells but the interconnections can be turned on when needed to provide a continuous, reliable water supply. The other water rights diverted from these wells include 63-11234, 63-12000, 63-20897, 63-20898, and 63-20899.

Please contact me, David L. Whitney at 459-3659, or David Shaw at 363-7983 if you have questions or need any additional information regarding these claims to water rights.

Yours truly,

Wayne Stephens

In the late 1950's I hunted geese near the refuge at Lake Lowell. I hunted at 10th Ave and Karcher quite often. (now the site of a Valley View School.) Just across the Karcher Road was brick factory with a residence. This was prior to 1959, the year I graduated from high school at Middleton. The house and factory were located on the south west side of the intersection of 10th and Karcher.

Comment: I wrote a letter requesting evidence of priority to the claimant on 5/4/2006 and the letter was not returned. I checked the Canyon County tax records available to our office, and found this person as the current owner and the address was correct. Since there was no response to the letter, I assume they are no longer interested in pursuing this claim. I have recommended this claim as disallowed due to no beneficial use found.

FIELD EXAMINERS NOTES:

These 4 wells ARE NOW CONNECTED
TOGETHER AS A SINGLE SYSTEM.
EVEN THOUGH ONLY THREE OF THESE
WELLS ARE ASSOCIATED WITH WATER
RIGHTS 63-20900, 63-20901, 63-20902, AND
63-20909. ORIGINALLY, THESE WELLS
ONLY SERVED THE SPECIFIC STRUCTURES
DESCRIBED IN THE INDIVIDUAL CLAIMS. HOWEVER
IN THE LATE TO MID. 1970'S THE ~~WELLS~~ 3 OF THE WELLS
WERE CONNECTED TOGETHER TO PROVIDE
BACK UP SOURCES. THE BIGVIEW
WATER CORPORATION WELL WAS ADDED
TO THE SYSTEM IN 1995. TAKING THIS
INTO ACCOUNT ALL 3 WELLS SHOULD
BE PLACED ON THESE RIGHTS AS AN
ACCOMPLISHED TRANSFER.

NO EVIDENCE COULD BE PROVIDED TO SHOW THAT THE 12-plex under water right 63-20909 WAS CONSTRUCTED PRIOR TO 1965. THEREFORE I HAVE RECOMMENDED TO THE CHAIRMAN THAT HE FILE A TRANSFER TO ADD THE BIGVIEW WATER CORP WELL TO THESE WATER RIGHTS, AND FILE AN APPLICATION FOR PERMIT FOR THE 12-plex. THE ATTACHED AERIAL PHOTO SHOWS THE CURRENT DISTRIBUTION SYSTEM, AND IS PRETTY SELF EXPLANATORY. THERE WAS A 5TH WELL, BUT WAS ABANDONED WHEN THE BIGVIEW WATER CORP WELL WAS ADDED IN 1995. THE THEORETICAL CALCULATION SHEETS SHOW A TOTAL OF 0.46 CFS CAPACITY WHEN THE BIGVIEW WATER CORP WELL IS EXCLUDED. SINCE WATER RIGHT 63-20909 WAS DEVELOPED IN 1965, AND CANNOT BE RECOMMENDED, THE CAPACITY OF THE 3 - ORIGINAL WELLS SHOULD BE ADEQUATE TO COVER THE 3 CLAIMS THAT CAN BE RECOMMENDED. $(63-20900 = 0.08 \text{ CFS}) + (63-20901 = 0.18 \text{ CFS}) + (63-20902 = 0.16 \text{ CFS}) =$ A TOTAL OF 0.42 CFS FOR ALL THREE RIGHTS.

20902 →
VOLUME

THERE IS AN OFFICE AND 2-LAUNDRY ROOMS COVERED UNDER 63-20902. PLUS 7 APARTMENTS @ 0.6 AFY FOR EACH APARTMENT AND OFFICE/LAUNDRY. THE TOTAL VOLUME WOULD BE $0.6 \times 8 = 4.8 \text{ AFY}$. THE OFFICE/LAUNDRY CALCULATION COULD ALSO BE CALCULATED AS FOLLOWS $(15 \text{ gal} \times 2 \text{ people FOR OFFICE}) + (50 \text{ gal/day} \times 10 \text{ loads FOR LAUNDRY}) / 32.5850 \times 365 \text{ days/yr} = 0.59 \text{ AFY}$. EITHER WAY IT EQUALS OUT TO 8 UNITS @ 0.6 AFY. OR 4.8 AFY

63-20900 →
VOLUME

3 UNITS $\times$ 0.6 AFY = 1.8 AFY

63-20901 →
VOLUME

8 UNITS $\times$ 0.6 AFY = 4.8 AFY

E. NARRATIVE/REMARKS/COMMENTS

OVERLAPS - P/D - SAME Q/Q, DIFFERENT WELLS

P/U - SAME Q/Q, DIFFERENT AREAS OF USE.

Two wells serve 19 apartments and 22 homes. The main well serves 7 apartments and 22 homes.

The second wells primary function is to serve 12 apartments. The system is Tied Together, so if extra water is needed, pressure can be maintained throughout the residences. Gage pressure during pumping reached 60 psi.

The permit was allocating water for 20 homes, not the 22 homes plus 19 apartments in existence, so only 20 homes can be considered. Assuming $\frac{1}{4}$ acre of lawn per home, there exists more than 5 acres of lawn area for irrigation.

Since the systems capacity is less than the requested allocation, can only allocate the systems capacity.

Recommend Licensing for 0.20 CFS domestic and 0.04 CFS irrigation.

$$Q(\text{Theoretical}) = \frac{(8.8)(0.7)(11.5)}{(2.31 \times 60) + 155} = 0.24 \text{ CFS}$$

$$V_{DR} = [\text{Diverion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.2335 = 0.04 \times 246 \times 1.2335 = 19.5 \text{ AFA}$$

$$V = \text{Smaller of } V_{IR} \text{ and } V_{DR} = 19.5 \text{ AFA}$$

CHANGE IN NATURE OF USE

The permit authorized the development of 22 domestic uses. The examiner found 23 domestics, apparently due to the addition of lot 16A. The increase can be authorized, if the permit is amended, because the irrigated area is 1.5 acres less than was permitted.

E. NARRATIVE/REMARKS/COMMENTS

1. This permit is for domestic and irrigation water for the Vandal Heights Subdivision. The Subdivision has developed lots 1-4, 11-17 in Block 1, and lots 1-12 in Block 3. Lot 6 in Block 3 was cut in half by a change in the street alignment and is now a small park. There will be no house on this lot. There ~~are~~^{were} 5 homes completed, and one under construction at the time of the exam.
2. The well has two identical pump units in it, and the well house has a 2000 Gal. Air tank, flow meter, press. gage, controls, valves, piping, etc. The well pumps water to 6" mainlines which serve each lot through a meter at the lot line. The second pump acts as a back-up.
3. The well is located on the East side of lot 17, Block 1. This was a change in location from the proposed site in lot 6, Block 3 (Cond. 10). It was also proposed to have 2 wells, but only one was developed with 2 pumps in it.
4. The land where the subdivision was developed was once a gravel pit. It was dry land, and did not receive any surface irrigation water. There is no surface water delivery to this land (Cond. 8). Domestic use is for 23 lots. (Cond. 12 - 22 Homes).
Have conditions of permit approval been met? ☐ yes ☐ no
5. Other wells adjacent to this subdivision serve different tracts of land, and other purposes.

1. dnelson 9/21/2006 Claim Review

Comment: I wrote a letter requesting evidence of priority to the claimant on 5/4/2006 and the letter was not returned. I checked the Canyon County tax records available to our office, and found this person as the current owner and the address was correct. Since there was no response to the letter, I assume they are no longer interested in pursuing this claim. I have recommended this claim as disallowed due to no beneficial use found.

RE: EVIDENCE OF PRIORITY

Snake River Basin Adjudication Claim No(s): A63-20900, A63-20902, A63-20901, A63-20909,

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

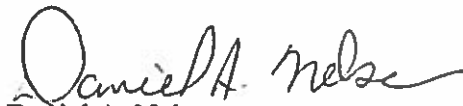

Page 2
Stephens

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, I will need an accurate location of the well used for each water right; the location of each complex; and any irrigation associated with each right outlined. Please carefully mark on the enclosed aerial photo the exact location of the well and places the water is being used for these rights. I have supplied 4 separate maps, please mark one map for each right.

The required evidence supporting the priority date(s) requested and the aerial photo needs to be returned to me by May 12, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

Daniel A. Nelson
