SUBJECT: NEW D&S CLAIMS/EXPANDED DAIRY USE

phone call (.) walk-in (X)

They wanted to amend their existing claim (A37-10693) to show the expanded dairy use and satisfy some new County Planning & Zoning requirements in Gooding County. Said when his dad filed the claim in 1988, he really didn't understand the process and only mentioned the 100 cow dairy (milkers) when actually there was also 100 beef cattle, 100 replacement cows and about 200 calves on the place too. They added another home and another 100 milkers in 1987, plus sold the 100 head of beef and converted their numbers to 100 more dairy cows at that time. They decided to file two additional claims to show the two separate expansions when I explained they couldn't have the priority date of 1910 because the uses today were not that way back in 1910 plus an "amended" claim would be larger than a single domestic use would qualify for and would therefore require a water right. I explained the problem with "stacking" domestic rights and gave them a copy of the code 42-111. One expansion occurred in 1958, which was before the mandatory permit statute for groundwater, so it may be okay. The later expansion may or may not be allowed. They decided this was the best way to show the history of their dairy's development. I did a theoretical based on the information they gave me on their system (3hp pump, 110 feet lift, and about 60 psi) to come up with a system pumping capacity of about 0.074 cfs for each new claim.
