IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 67-593B V1

1. 167 This right shall receive 100% of its decreed amount until the natural flow of the waters of Mann Creek shall decrease so that all rights cannot receive 100%, at which time this right and other various decreed rights, as established by the district court in Jefferson et al. v. Higgenbotham et al. (Washington County, June 3, 1921), shall be cut to 70% of the said amounts, beginning with the latest right and proceeding to the earliest right in the order of priority.
2. 168 This right is a Secondary Right, as established by the district court in Jefferson et al. v. Higgenbotham et al. (Washington County, June 3, 1921), and, as such, is subordinate to all Primary Rights on Mann Creek.
3. C03 Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.
4. C05 Right includes accomplished change in place of use pursuant to Section 42-1425, Idaho Code.
5. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
6. K06 This right is limited to the irrigation of 3.5 acres within the place of use described above in a single irrigation season.

Remarks:Comments:

Comment: The PLS for the claim and decree do not match

2. segbert 6/8/2004 Quantity

Comment: Cannot determine the quantity

3. dnarsavage 12/20/2005 POD & POU

Comment: 67-593 is the only right decreed out of Landson Ditch; and despite my best efforts, I cannot determine where Landson Ditch is or was. Neither the Queens nor Gilbert Ball, the man who seems to know everything about irrigation along Mann Creek, have heard of this ditch. Perhaps the court clerk transcribed the name "Manns Creek Ditch" incorrectly, and wound up with "Landson Ditch." Beyond that, this right was decreed to exactly the same land as 67-524 (45 irrigated acres), and both rights cannot fit in the described tracts without overlapping. Because of this, I have concluded that 67-593 (50 irrigated acres) was meant to represent only an additional 5 acres beyond 67-524, and a permissible place of use for these two rights, rather than an entirely separate right of 50 acres.

Re: SRBA claims **67-10406 & 67-593**

October 5, 2005

Dear Mr. and Mrs. Queen:

My name is Dan Narsavage and it is my task to review the claims to water rights along Mann Creek in the Snake River Basin Adjudication (SRBA). In reviewing your SRBA claims 67-10406 and -593, I have encountered some issues that I cannot resolve without your assistance. Please refer to the map and claim report that I have enclosed with this letter when addressing the following questions:

The Places of Use (POUs) outlined in blue and green can be covered at a full inch to the acre by these two claims. However the yellow POU appears not to have been included in the findings of the 1921 Jefferson vs. Higgenbotham decree (the Mann Creek Decree). In fact the southern portion is on a hill and is not serviceable by Mann Creek Ditch with technology available in the 1880s (your claimed priority date). As such, I cannot include these portions in my recommendation of 67-10406 or 67-593 as these claims are based on that decree. If the hill is indeed irrigated, then either a separate SRBA claim or an application for permit will most likely be necessary to cover the water usage for the POU outlined in yellow.

Please contact me at the addresses and phone number listed below my signature. I understand that it has been several years since you filed these claims and that the goals of this letter may not be completely clear to you. If this is the case, I will gladly discuss your options with you.

In addition, I hope that you can take a few moments to answer some more questions that may assist me in reviewing your claims as well as several others along Mann Creek. In your claim, you labeled a pipe crossing Mann Creek at the north end of your property that services the POU outlined in blue. To your knowledge, when was this pipe installed? Are there others like it along Mann Creek? Do you know if the water flowing through your pipe ends up on any property in addition to your own? Also, 67-593 is the only right that was decreed to flow through Landson Ditch. I have no record of a Landson Ditch at all. Do you know where this ditch is/was?

I look forward to hearing from you in the near future. Please call, write, or email me on or before October 28, 2005 so that I may recommend your SRBA claims in a timely and accurate manner. Thank you very much for your time.

Sincerely,

Daniel L. Narsavage
