1. SEGBERT 5/1/1998 COPIED FROM REMARKS

Comment: *THE WELL DESCRIBED UNDER ITEM 4 HAS BEEN REPLACED. THE NEW WELL IS ALSO LOCATED IN THE NESE OF SECTION 24. SEE WELL LOG ATTACHED

2. dnelson 9/21/2006 Claim Review

Comment: This claim is a beneficial use for stockwater and domestic uses. The claimant only paid a 25.00-dollar fee, so the entire right will be limited to 13,000 gallons per day when all the uses are combined. The diversion rate claimed is acceptable, because it is under the 2-hour use for the amount of stock listed on the claim. The claimant lists 1000 head of cattle as the number of stock, which it is doubtful that this claim could cover. There are other rights from other sources also used to supply water to these animals, so the stockwater may be doable. According to the map supplied, the owner transposed the legal descriptions on two of their stockwater tanks. The stock tank in the NENW S19 should actually be in the NWNE S19. The stock tank in the NWSE S24 should actually be in the SENW S24. This is a common mistake and can be corrected without a amendment. The owner supplied a letter stating that this use actually has gone back to 1920. This will be acceptable for this domestic and stockwater claim.

June 27, 2006

Daniel Nelson
Western Region IDWR
2735 Airport Way
Boise, ID 83705-5082

Dear Mr. Nelson:

RE A-63-21120—Harvey Well

This well is on a ranch we purchased in 1968. Before 1968, back to the 1920's we historically have had either sheep (5000 to 10000ewes) or cattle (1200 to 1600cows) in the surrounding range lands. Initially we hauled water and utilized ponds in the area with trucks from many locations. After we purchased this ranch we installed numerous water lines and piped the ground water from this diversion point to many sites on adjacent range and pasture lands.

Sincerely,

Brad Little

RE: EVIDENCE OF PRIORITY

Snake River Basin Adjudication Claim No(s): A63-21120, A63-21123,
A63-21127, A63-31090, and A63-31091

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Page 2

Little Land and Livestock

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, I will need some additional information on a couple of the rights to ensure they are recommended correctly. Could you please supply the following:

63-31090 – wildlife use from a manmade pond – We need evidence that the pond associated with this right was built with the intention to supply water for both livestock under water right 63-21123 and wildlife use under this right. We may not be able to allow this water right, if you cannot show that the intent at the time the pond was constructed was for both purposes.

63-31091 – wildlife use from a natural pond. We need evidence that the pond associated with this right was enhanced or improved in some way to provide additional water for wildlife purposes. Our office generally doesn't allow a wildlife use on a natural waterway unless it has been enhanced to provide better conditions for the wildlife using it.

The information requested above on water rights 63-31090 and 63-31091 and the required evidence supporting the priority date(s) requested on all of the water rights referred to in this letter needs to be returned to me by May 26, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

Daniel A. Nelson
Senior Agent
Western Region Office - IDWR

Enclosure: "Evidence of Priority" pamphlet
Notice of Claim A63-21120, A63-21123, A63-21127, A63-31090, and
A63-31091
