

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF THE STATE OF IDAHO,
IN AND FOR THE COUNTY OF TWIN FALLS

IN RE THE GENERAL ADJUDICATION
OF RIGHTS TO THE USE OF WATER FROM
THE SNAKE RIVER BASIN WATER SYSTEM.

CIVIL CASE NUMBER: 39576

Ident. Number: A63-21127
Date Received: 2/21/1990
Receipt No: W009217
Received By: 

NOTICE OF CLAIM TO A WATER RIGHT
ACQUIRED UNDER STATE LAW

1. Name: LITTLE LAND & LIVESTOCK CO. 208-365-4611
Address: P.O. BOX 205
EMMETT, ID 83617

2. Date of Priority: JAN 01, 1961

3. Source: GROUNDWATER Trib. to:

4. Point of Diversion:

Township	Range	Section	1/4 of	1/4 of	1/4	Lot	County
05N	02W	3	NW	SE	SE		CANYON

5. Description of diverting works:
6" CASED 400' DEEP WELL W/5 HP PUMP W/PIPELINES TO TROUGHS.

6. Water is used for the following purposes:

Purpose	From	To	C.F.S	(or)	A.F.A.
STOCKWATER	01/01	12/31	0.230		
DOMESTIC	01/01	12/31	0.040		

7. Total Quantity Appropriated is:
0.230 C.F.S. (and/or) A.F.A.

8. Total consumptive use is Acre Feet Per Annum.

9. Non-irrigation uses:
DOMESTIC USE FOR 1 HOME, STOCKWATER FOR 1,000 HEAD.

10. Place of Use:

Township	Range	Section	1/4 of	1/4	Lot	Use	Acres
05N	02W	2	SE	SW		STOCK	
		3	NW	NE		STOCK	

A63-21127

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right for domestic use and stockwater use is not a determination of historical beneficial use.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

PARCEL NO. 8R05N02W240100 PROPERTY ALSO KNOWN AS MUD LAKE COW CAMP.

Stockwater use is for 1000 range cattle.

2. N14 The quantity of water under this right for domestic and stockwater uses shall not exceed 13,000 gallons per day.
3. PARCEL NO. 8R05N02W240100 PROPERTY ALSO KNOWN AS MUD LAKE COW CAMP.
4. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
5. N09 The quantity of water decreed for this water right for domestic use and stockwater use is not a determination of historical beneficial use.
6. X02 Stockwater use is for 1000 range cattle.

Remarks:Comments:

1. dnelson 9/21/2006 Claim Review

Comment: This claim is a beneficial use for stockwater and domestic uses. The claimant only paid a 25.00-dollar fee, so the entire right will be limited to 13,000 gallons per day when all the uses are combined. The diversion rate claimed is acceptable, because it is under the 2-hour use for the amount of stock listed on the claim. The claimant lists 1000 head of cattle as the number of stock, which it is doubtful that this claim could cover. There are other rights from other sources also used to supply water to these animals, so the stockwater may be doable. The domestic use is for one home. According to the map supplied, the owner transposed the legal descriptions on one of their stockwater tanks. The stock tank in the NESE S34 should actually be in the NWSE S34. This is a common mistake and can be corrected without an amendment. The owner supplied a letter stating that this use actually has gone back to 1920. This will be acceptable for this domestic and stockwater claim.

Dear Mr. Nelson:

RE A-63-21127 (Mud Lake Well)

This ground water diversion was to replace historical water hauling and to help distribute livestock more evenly. It was by my father David Little. We have always (since 1930's had livestock in the area). I can attest the fact that this well was installed in 1961 and pipe lines added to distribute the cattle more broadly. Generally the same number of livestock existed in the area(5000 sheep or 1500 cattle more or less).

Sincerely,

Brad Little

RE: EVIDENCE OF PRIORITY

Snake River Basin Adjudication Claim No(s): A63-21120, A63-21123,
A63-21127, A63-31090, and A63-31091

Dear Claimants,

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated printout of the claim(s) for your reference only, it is not necessary to return this printout. You indicated, when this claim was filed, that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water.

Water rights of this type are established by historical beneficial use of the water, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources, since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled. **"What Kind of Evidence is Required"** and **"Some Examples of Documents Which May Be Evidence of the Priority Date."**

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

Page 2

Little Land and Livestock

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, I will need some additional information on a couple of the rights to ensure they are recommended correctly. Could you please supply the following:

63-31090 – wildlife use from a manmade pond – We need evidence that the pond associated with this right was built with the intention to supply water for both livestock under water right 63-21123 and wildlife use under this right. We may not be able to allow this water right, if you cannot show that the intent at the time the pond was constructed was for both purposes.

63-31091 – wildlife use from a natural pond. We need evidence that the pond associated with this right was enhanced or improved in some way to provide additional water for wildlife purposes. Our office generally doesn't allow a wildlife use on a natural waterway unless it has been enhanced to provide better conditions for the wildlife using it.

The information requested above on water rights 63-31090 and 63-31091 and the required evidence supporting the priority date(s) requested on all of the water rights referred to in this letter needs to be returned to me by May 26, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

If you have any questions or concerns, please contact me at the above address.

Respectfully,

Daniel A. Nelson
Senior Agent
Western Region Office - IDWR

Dear Mr. Nelson:

RE A-63-21123 (Ponds @ Harvey)

These ponds were built by my father David Little to provide water for livestock and wildlife water. We have always had livestock in the area and even had some culverts buried in the creek channel (Willow Creek). But as the neighbors up stream diverted more and more water it was necessary to build these ponds for:

1. water for our livestock and
2. to have water for the indigenous wildlife.

Since I was not born yet, Elmer Bowman our (foreman at the time) managed the cattle in the area and can attest to the above facts.

Sincerely,

Brad Little

Dear Mr. Nelson:

RE A-63-21120—Harvey Well

This well is on a ranch we purchased in 1968. Before 1968, back to the 1920's we historically have had either sheep (5000 to 10000ewes) or cattle (1200 to 1600cows) in the surrounding range lands. Initially we hauled water and utilized ponds in the area with trucks from many locations. After we purchased this ranch we installed numerous water lines and piped the ground water from this diversion point to many sites on adjacent range and pasture lands.

Sincerely,

Brad Little

 Boise, ID 83705-5082

Dear Mr. Nelson:

RE A-63-31091 (Pond @ Mud Lake)

If one looks on a map this area is called Mud Lake. Historically wild horse watered here. Our operation watered our sheep and then cattle and we fenced out stray livestock to be certain there was a longer season of water for wildlife. We have had livestock in the area (since the 1920's). This was the only source of water for miles.

There has not been water in this pond for several years, but we leave water in our troughs licensed under right 63-21127 to replace the water historically in the pond.

Sincerely,

Brad Little

Daniel Nelson
Western Region IDWR
2735 Airport Way
Boise, ID 83705-5082

Dear Mr. Nelson:

RE A-63-31090 (Ponds @ Harvey)

First let me correct the Diversion point. The diversion and point of use are the same as 63-21123. SE4SE4NW4.

These ponds were built by my father David Little to provide water for livestock and wildlife water. We have always had livestock in the area (since the 1920's) and even had some culverts buried in the creek channel (Willow Creek) we pumped water out of the culverts. Prior to 1968 when we purchased the adjacent ranch, this was the only source of water for 2 miles. But as the neighbors up stream diverted more and more water it was necessary to build these ponds to store the water from spring for late spring and through the summer, fall, and winter: until spring runoff recharged the ponds.

1. For water for our livestock and
2. To have water for the indigenous wildlife; without water during the summer months the wildlife would perish, we hunted in the fall in this area.

Since I was not born yet, our foreman Elmer Bowman was in the area and can attest to the above facts.

Sincerely,

Brad Little

Attest to the above

Elmer Bowman (foreman for Dave Little during the time of original diversion)

Dear Mr. Nelson:

RE A-63-21127 (Mud Lake Well)

This ground water diversion was to replace historical water hauling and to help distribute livestock more evenly. It was by my father David Little. We have always (since 1930's had livestock in the area). I can attest the fact that this well was installed in 1961 and pipe lines added to distribute the cattle more broadly. Generally the same number of livestock existed in the area(5000 sheep or 1500 cattle more or less).

Sincerely,

Brad Little

Dave,

That is great. If Mr. Bowman sends in a letter, then there will be no need for Mr. Little's letter.

They have changed my schedule and job duties again, due to a loss of a contractor and a couple of other issues. With everything that has been happening, it looks as though we might be getting our deadline pushed back to August/September instead of the end of July, so I am willing to give Mr. Little until July 7th if he needs the extra time. I am afraid of giving him more time than that, without an official announcement that the deadline has been moved.

I feel it would have a much stronger case if he had Mr. Bowman's letter. We will also need the dates the systems were developed. I would also expand a little on the wildlife use to include the reason for the wildlife use was to supply suitable habitat for hunting when the livestock were not in the pastures.

I will go ahead and extend the date to the submit the proof of priority information until 7/7/2006. I hope this helps.

Dan,

His is getting a letter from Mr. Bowman. Mr. Little is just having some difficulty getting his schedule to match Mr. Bowman's.

Hello Dave,

The basics of the letter are good, but there is no date of when the ponds were built in the letter. The actual date or year when the ponds were built and filled is the main reason for the request for proof of priority letter that I sent.

Mr. Little has spoken to me a few times, and he explained to me that part of the reason for building the ponds were to supply duck habitat for fall hunting when the livestock were not in these pastures. I would include this information as well, because it supports the wildlife use a little bit better and gives a reason for the development of the wildlife uses.

Finally, I can accept this letter from Mr. Little and recommend the claim, but this evidence is pretty weak, since he was not born at the time the ponds were built. The letter would have more standing if it came from Jim Little or Elmer Bowman. In my discussions with Mr. Little, I was under the impression that he was going to get the statement from Mr. Bowman.

Thank you.

Dan,

Attached is a sample letter that Mr. Little has prepared to support the priority of his claims. He will get additional statements from Mr. Jim Little &/or Mr. Elmer Bowman and submit with his letter for 63-21123. He should have the additional signed statements by the first of next week.

Is there anything additional that you will need for this right?

Thanks Dan.
