IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 63-21477

NAME AND ADDRESS: BILL VANDENBURG
13503 GOODSON RD
CALDWELL ID 83605

SOURCE: GROUND WATER

TRIBUTARY:

QUANTITY: 0.240 CFS

The quantity of water under this right shall not exceed 13,000 gallons per day.

PRIORITY DATE: 03/14/1981

POINT OF DIVERSION:

T05N R03W S23 SENW Within CANYON County

T05N R03W S23 SENW Within CANYON County

Two points of diversion located in T5N, R3W, S23, SENW.

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
DOMESTIC	01/01 12/31	0.040 CFS
STOCKWATER	01/01 12/31	0.240 CFS
Domestic use is for 1 home.		

PLACE OF USE: STOCKWATER Within CANYON County

T05N R03W S23	NWNE	T05N R03W S23	SWNE
T05N R03W S23	NENW	T05N R03W S23	SENW

DOMESTIC Within CANYON County

T05N R03W S23	NENW
---------------	------

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The quantity of water decreed for this water right is not a determination of historical beneficial use.

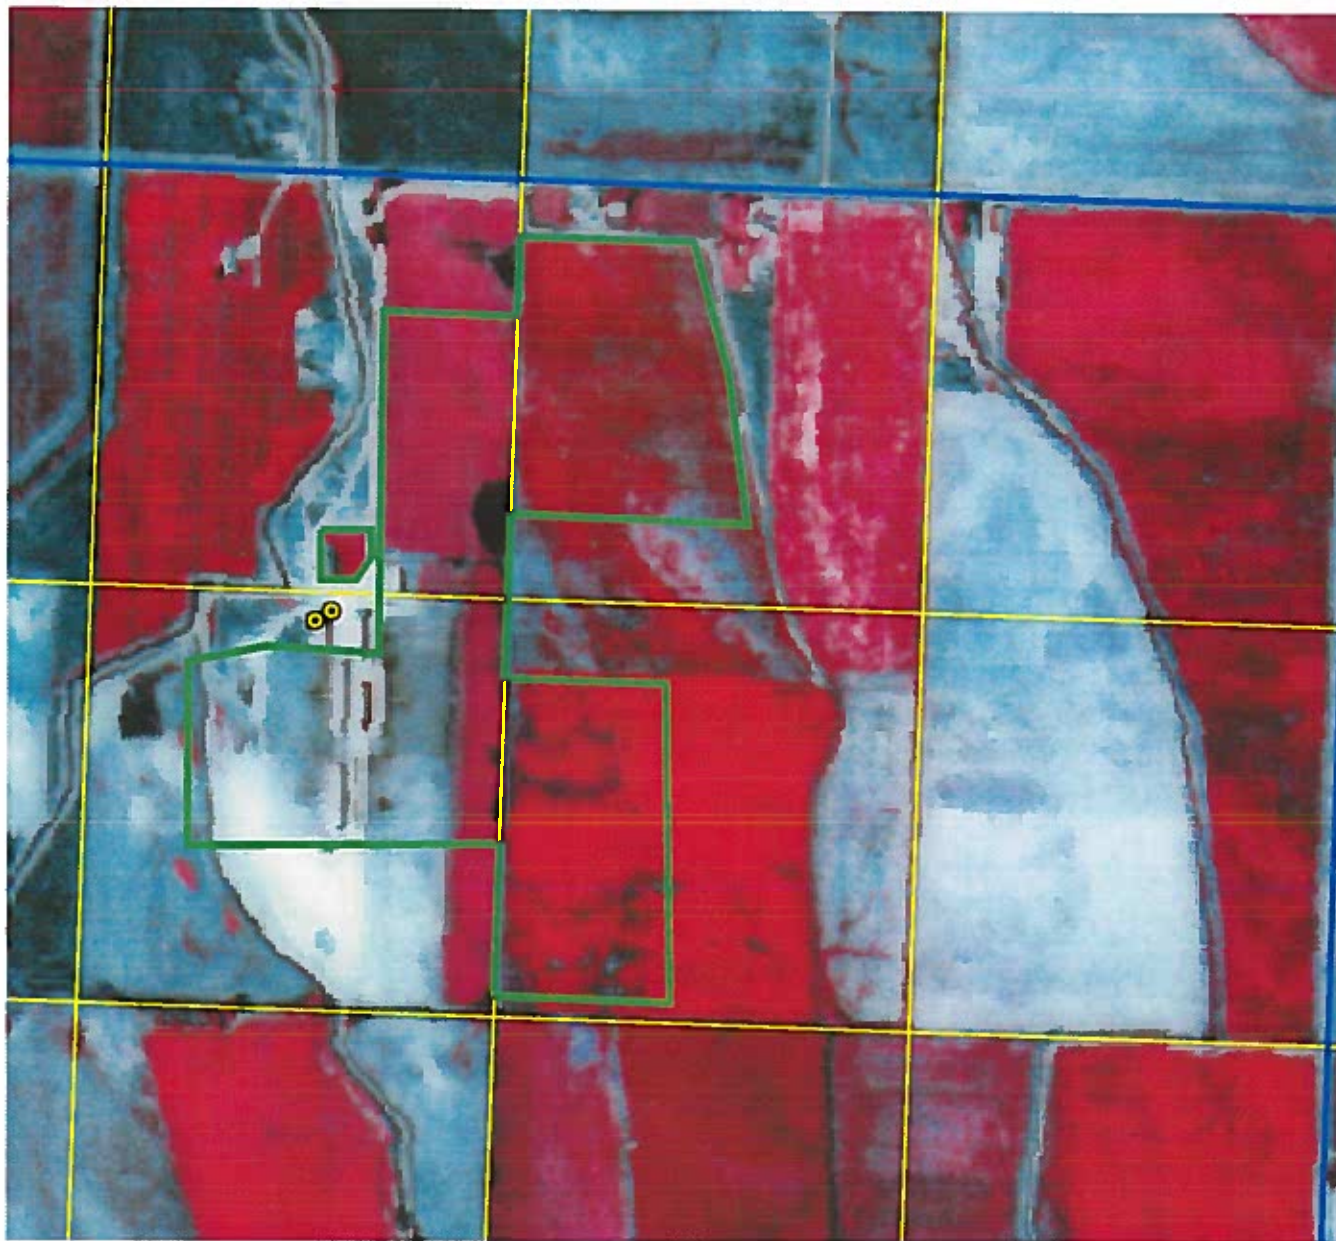

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use
Stockwater use is for 1000 dairy cattle.
Parcel No. R3796200000.

IDAHO DEPARTMENT OF WATER RESOURCES

Adjudication Recommendation Report 63-21477 V1

1. X01 Domestic use is for 1 home.
2. C18 This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.
3. N11 The quantity of water decreed for this water right is not a determination of historical beneficial use.
4. F02 Two points of diversion located in T5N, R3W, S23, SENW.
5. X02 Stockwater use is for 1000 dairy cattle.
6. N13 The quantity of water under this right shall not exceed 13,000 gallons per day.
7. Parcel No. R3796200000.

Remarks:Comments:

1. Igraves 7/10/2006 Priority Date

Comment: The original priority date claimed was 1955, which the owner was unable to establish because the facility was not built until 1981 as evidenced by an associated well log dated 3/14/1981. See file memo dated 4/26/2006 for further detail.

2. Igraves 7/10/2006 Flow Rate

Comment: Because the wells were drilled post 1963, uses are limited to 42-111, .24 cfs, not to exceed 13000 gpd.

3. Igraves 7/10/2006 Stockwater P/U

Comment: The stockwater p/u shape was based on the 2004 photo submitted by the owner indicating areas where the stock are currently located. The corrals have obviously expanded since 1987, however, since the claim is limited to 42-111 domestic/stockwater exemption statute, the current stockwater p/u was recommended per Jan Shurte.

CONVERSATION MEMO

Date: 4/26/2006

Agent: Lori Graves

With: Bill Vandenburg

Subject: Dairy Cattle, P/U, P/D, Priority

Claim No.: A63-21477

Bill called in reference to the info request letter I sent 4/5/06. Bill stated that he was not able to establish a 1955 priority date as listed on the claim because the dairy facility was built in the early 1980's. The closest he could validate was 3/14/1981 per a well log. County records also indicate that dairy outbuildings were taxed in 1981. Bill said he would return the aerial photo sent with the letter indicating the location of both wells used and the stockwater P/U.

I explained to Bill that the claim could only cover non-consumptive domestic/stockwater uses because the dairy was built post 1963. I told Bill that he would need to purchase primary ground water to cover the consumptive uses of the dairy. Bill stated that he was going to probably sell the site to developers in the near future.

I received the photo 4/21/06 and notified Bill that the claim would need amended to include additional tracts for stockwater and also correct the P/D legal description for both wells as indicated on the returned photo. Per telephone call 4/26/06, Bill said to send him an amended claim with the priority date advanced to 1981 for 1 home and 1000 dairy stock (800 wet, 200 dry), which he would sign, have notarized and return. I mailed the amended claim that day.

WELL DRILLER'S REPORT

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No: A63-21477

Dear Claimant,

In the past, you submitted the above referenced claim during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim for your reference only, it is not necessary to return this print-out. You indicated, when this claim was filed, that the water right was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date."

It is important that each element of the Notice of Claim be substantiated. For instance, regarding a claim for domestic and stockwater uses such as yours, the evidence should tend to show that diversion works were in place, that the pump was capable of diverting the claimed diversion rate, and that the diverted water was beneficially used for the home and number of cattle claimed on or before the priority date claimed. In your case, you claimed one home and drinking water for up to 1000 head of stock listing a 1955 priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right if water availability problems arise in the future.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, an accurate location of your well, stock yard and home needs to be identified on the attached aerial photo. Please also provide as much detail about your diversion works as possible including pump make, horsepower, operating pressure, well depth, water lift (in feet), etc. If more information is needed, you will be receiving a call from us in order to set-up an appointment for a field exam.

Page 2

The above requested information needs to be submitted by April 26, 2006. Please let me know if you may not be able to submit the information or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully,

A handwritten signature in black ink, appearing to read "Lori Graves".

Lori Graves
Sr. Water Resource Agent
