9-23-08 Status Conference – 63-2249A, B, C, 3080, 3088, 21520 & 21

Jan Shurte

Wilder and Riverside both objected to these claims. Settled the objections and now waiting for an NCAP to be filed after change of ownership submitted. Paul Arrington and Mr. Redmon will be discussing the settlement. Next Status Conference set for 10:30 am on 11-7-08.

11-5-08 – Status Conference

Change of ownership has been hard to do. Neary's land paid off, but others in the name of Mills or Coleman is under contract (carrying papers) so my question is do we wait to do the SF5s until after a change of ownership comes in or can we do them now and then change the ownership when it does come in. Special Master Booth decided to give them more time and sent the next status conference on 2-3-09 at 2P:30. Renea assigned to get in touch with the claimants and have them file a change of ownership.

*See 63-2249A for further

RE: Address and Ownership

Date: June 17, 2008

.....

While preparing for initial hearings on these recommendations it was noted that none of our correspondence had been received by the claimants. In review of Canyon County tax lot information in arc view we found the current owner to be: Hillview Farms Trust, P.O. Box 202, Greenleaf, ID 83626. I discussed this with our attorneys and asked if I should try to contact the owners and notify them of the initial hearings coming up this week and they agreed that I should try to contact if I could.

I searched "Dex" and could not find anything for Bryan Mills or Delynn Coleman or Joseph Neary in the area. I searched for John Redmon and found a John Redmon at 21988 Tucker Road in Greenleaf. It happened to have the same phone number as shown on Mr. Redmon's claims so I called 459-6067 and happened to catch him at home.

Mr. Redmon stated he was "Hillview Farms Trust" and we discussed the recommendations and objections and initial hearings for the above claim files. I scanned and e-mailed copies of these documents to Mr. Redmon at: jgrsr@msn.com He also gave me his cell number (573-1881) and his fax (454-8362) in case I could not reach him at his home phone number. Mr. Redmon stated he would attend the initial hearings to be held on Thursday, June 19th.

29 ACRES TOTAL

Right Nos. 63-3088 and 63-31521 are limited to the irrigation of a combined total of 110 acres in a single irrigation season.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Beneficial Use

Right No. 63-21520 is also diverted through points of diversion described above.

Use of this right is combined with water from Wilder Irrigation District.

"EVIDENCE OF PRIORITY"

We purchased the property of claim number 63-21520 and 63-21521 (Legal description T04N, R04W, S16) in May of 1968 .

The original owner, William Altig informed us that he had taken the place out of sage brush in 1904.

There is a natural drain from the City of Greenleaf that enters the property near the SW corner of the SWSE of section 16. There is also a natural spring about 200-300 feet to the north. This water was co-mingled with other sources and/or used for livestock water and irrigation by William Altig and another owner then by us.

For many years the spring was also used for domestic and livestock water until we stopped using it for domestic water about 1989.

The spring and run off water were also use for corral livestock water on the south side of SWNE. This is used from 1-20 days per year.

Please advise if any more information is needed.

Respectfully,

John Redmon

RE: EVIDENCE OF PRIORITY

Snake River Basin Claim No(s): A63-21520 & -21521

Dear Claimants,

In the past, the Redmons submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim(s) for your reference only, it is not necessary to return this print-out. The Redmons indicated, when this claim was filed, that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled, "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date."

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 16, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you may be receiving a call from us in order to set-up an appointment for a field exam.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right(s) if water availability problems arise in the future.

The required evidence supporting the priority date(s) requested needs to be submitted by March 1, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, field exams are now being conducted by Department water resource agents to verify claims in this area. In the near future, you will be receiving a call from us in order to set-up an appointment for a field exam.
