Subject: Claims Filed on Well Owned by Raymond Milks

Mr. Milks called me on April 7, 2014, with concerns regarding individuals filing claims in the CSRBA on a well owned by him, located on his property, parcel number 52N03W-30-8000, Kootenai County. A check of our records shows that:

There are four claims filed on the well shown to be on property owned by Raymond Milks. They're the claims numbered above, for domestic usage on property owned by the claimants. There is no information in the files regarding an agreement between land owner and water users for easement to the well.

On April 9, 2014, I contacted Mr. Milks and let him know that claim numbers 95-16749, 95-16750, 95-16751 and 95-16752 have been filed in the CSRBA, claiming the well located on his property as point of diversion.

Mr. Milks informs me at this time that he is disputing these claims as the claimants have no legal access (easement) to his property.
