MEMORANDUM

TO: Files 34-00398 & 34-00399

FROM: Pam Skaggs^{CS}/State Office

SUBJECT: Transfer 5131

NY

DATE: July 13, 1998

Transfer 5131 changes the point of diversion[✓] and source[✓] under Rights 34-00398 and 34-00399. The point of diversion is proposed to be moved from Hamilton Springs to the tributary Warm Springs Creek to consolidate pumping locations and increase efficiency in delivery to the adjacent place of use. These rights are used in conjunction with Right 34-07010 (See Transfer 5130) to irrigate the 168.9 acres identified under this transfer.

Diversion volume was adjusted to current standards to represent the uses as recommended[✓] in the SRBA. Recommended conditions include watermaster control, measuring device & lockable controlling works, permissible place of use, combined right limits, diversion limited to availability from original source, stockwater limits, irrigation overlap and standard transfer conditions.

I am familiar with the ranch property now called the Broken River Ranch which is located northwest of Mackay Reservoir in Custer County, Idaho. I managed this ranch property for my employers, San Felipe Ranch, who owned this parcel from 1982 to 1989.

I am familiar with the proceedings in the District Court in Twin Falls, Idaho relating to the general adjudication of rights to the use of water from the Snake River Basin water system, and have examined the four notices of Claim to a Water Right acquired under State Law listed below which were amended and signed by Robert C. Hadley on September 18, 1990.

A 34-00868, A 34-00398, A 34-00399, A 34-07010

The photo map attached to the Notices of Claim show the lands within the 400 acre ranch that were under irrigation when an aerial photograph was taken. However, other areas in the ranch have historically been irrigated as well. Specifically:

1. The land immediately south of Warm Springs Creek in the northern half of the southwest quarter of Section 27 has long been irrigated. This is the land near the corrals and the house.

2. Some of the area now under the 360 degree center pivot in the southernly 160 acres of the ranch was irrigated. There were a number of irrigation ditches on this land, and during the period of time San Felipe Ranch owned this property (1982-1989) water was delivered down ditches to this parcel. Due to a very inefficient water delivery system, annual irrigation practices varied greatly. This land is in the northern half of the northwest quarter of Section 34, and is the southern half of the southwest quarter of Section 27.

Subscribed and sworn to this 16th day of April, 1992,
at Mackay, Idaho.
