MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-21949, 63-21952 AND 63-31036
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: CLAIM REVIEW – WELL, FLOW AND VOLUME
DATE: 5/17/2006
CC:

I received a call back from Tom Siegrist today re well information. Swift's subcontractor confirmed the presence of an artesian well labeled 63-31036 on my map but no well at location 63-21952. I believe that the one well was claimed for both claims which makes sense because the claim for 21952 did not include any well or pump information. There was no evidence that the well was piped to buildings and used for industrial purposes.

I will recommend 63-31036 as industrial use with a .04 cfs 2500 gpd volume and delete the stockwater and domestic uses. I will recommend 63-21952 from the same pod for stockwater and will use the computed theoretical flow based on an 11 hp pump.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-21949, 63-21952 AND 63-31036
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN
REGION
SUBJECT: CLAIM REVIEW – EVIDENCE OF PRIORITY, VOLUME, ETC
DATE: 5/17/2006
CC:

These 3 claims are for stockwater for a 1500 head feedlot. Con Agra is the claimant and is a subsidiary of Swift Foods. The property is being sold and the new owner will take possession May 27, 2006. I have had 2 conversations and numerous email exchanges with Tom Siegrist, Mgr of Env Eng for Swift. He is familiar with the general history of meatpacking/slaughterhouse uses of the site.

The claimant [Swift] provided some historical information in a statement in the claim file but the information is sketchy. Evidently, the site has operated as a slaughterhouse and meatpacking facility since about 1916 [King Packing Co]. The 1939 aerial shows considerable activity on the site consistent with the information provided by Swift. I conducted an internet search on meat packing in Nampa and though got no specific hits regarding King Packing Co, there was some information about meat packing in Nampa. The various business entities have been registered with the IDSOS since the 1940s. I think that if all information is considered, the Swift statement, the 1939 aerial and the internet information, it is sufficient to establish a historical use of stockwater on the site.

Mr Siegrist indicated that the plant has not been operational since about 2001. Consultants and contract employees have been on site circa 2001 to manage the wastewater and monitoring well issues. Mr Siegrist called them and they thought that only 3 wells were on site, the 2 licensed wells [63-3277 and 63-3570] and the 63-21049 well. He said that today the contractor is on site and he will have him attempt to verify whether the wells I have labeled on my maps as 63-31036, 63-21952 and 31951 – corrected are present.

The claimed priority dates of these 3 claims are in the early 1950s. IDWR does not have well logs on file. There is no reason to do field exams because the plant is not in service and there is no stock on site now. If the contractor cannot find wells casings for some of the wells, I will disallow those claims. I think that 62-31036 and 63-21952 may be the same well.

VLM

Subject: RE: Snake River Basin Adjudication claims

Yes, thank you. The well production information was what I needed for the 2 licenses but I am now inquiring about the stockwater claims for wells historically used for the feedlots, not for the 2 wells drilled in the 1960s and licensed under 63-3277 and 63-3570 for industrial uses. As you see, the claim numbers are entirely different, as are the uses. The claimed priority dates for the 3 stockwater claims I referenced is in the early 1950s. We have no well information about these older wells and historical uses because IDWR did not require it when the uses were developed. Bases on some of the discrepancies in the claims and maps, I am not how many of these older wells were used by Con Agra.

Subject: RE: Snake River Basin Adjudication claims

Vicky: I'm not certain if this is helpful, but the water use indicated in the information I submitted is consistent with daily water flow information that was submitted in the plant's monthly discharge monitoring reports (submitted to the state and EPA) when the plant was operating. The flows reported for the plant's wastewater treatment plant outfall would be representative of the volumes pumped from water right number 63-3570, minus some relatively minor water losses across the manufacturing process (water that remained in the product, steam losses, evaporative losses, etc.). The flows reported for the plant's non-contact cooling water would be representative of the volumes pumped from water right number 63-3277. That information describes historical water use, before the plant was mothballed last year.

Mr. Siegrist - I received the information you sent. I see that a couple of the beneficial use claims [63-31036, 63-21952, 63-21949] are claimed for a quantity that require a field exam. Is there anyone on site that could show a subcontractor where the wells are and provide information about the wells? Thanks.

Subject: RE: Snake River Basin Adjudication claims

Vicky: Looking at the map you e-mailed me, it appears to me that the location of 21949 shown is consistent with the location shown on the map that you had included with the April 11 letter to the plant. The location of 21951 on the e-mailed map, east of 21949, looks like the same location that's labeled on the mailed map for 21952. The mailed map shows 21952 in two different locations - one at the north side of Swift's plant, in NENW, and another location for the same well in NWNE. I'm guessing that the NWNE location, marked as 21952, should actually be labeled as 21951.

I'm putting together what information we have concerning water use for 3570, 3277, and 21949, and I will get that to you next week.

Thanks for your help.

MEMORANDUM TO CLAIM FILE

TO: CLAIM FILE NOS. 63-21949, 63-21952, 63-3277 AND 63-63-3570
FROM: VICKY L MUSIC, SR WATER RESOURCE AGENT, IDWR / WESTERN REGION
SUBJECT: PHONE CALLS FROM SWIFT FOODS/CON AGRA CLAIMS
DATE: 5/4/2006
CC:

I received a phone call last month, a few days prior to the due date of April 11 that was in the letter I sent to Swift re the above claims. The call was from Tom ^{ie} Siegrist of Swift Foods. My letter requested evidence of priority for 63-21949, 63-21952 and information needed to calculate afa for the licenses 63-3277 AND 63-63-3570.

The first call from Mr. ^{ie} Siegrist was to request additional time until 5/12/06 to gather information and be able to respond to the letter requests. The plant was temporarily shut down last summer and he needed time to contact someone for the info. On 5/3/06, he called back to clarify what I needed.

I told him that I would scan and email him the claim for 63-21949 which I did today.

His email address is Thomas.siegrist@swiftbrands.com. Phone # is 970.506.7812.

RE: EVIDENCE OF PRIORITY AND ANNUAL VOLUME DATA
Snake River Basin Claim No(s): A63-3277, A63-3570, A 63-21949 and A63-21952

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a printout of the claim(s) for your reference only.

A 63-21949 and A63-21952

You indicated, when these claims were filed for water rights associated with the feedlot, that the water right(s) was based a "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. This claim(s) has not been confirmed by a previous filing with the Idaho Department of Water Resources (IDWR) since there is no decree, license, or permit on file to verify the use of this water. For this reason, IDWR is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "**Evidence of Priority**" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "**What Kind of Evidence is Required**" and "**Some Examples of Documents Which May Be Evidence of the Priority Date.**"

A63-3277 and A63-3570

These claims are licenses for industrial uses. At the time the rights were licensed, no annual volume component was required. However, to recommend these in the SRBA, IDWR must have additional information regarding how the water is used and the volume used. The annual volume is an important component of a right because it is a limitation on the use of ground water sources.

Please call me as soon as possible with a contact name and phone number of a plant engineer or another employee knowledgeable about the water use at this facility, or submit annual volume data.

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

ConAgra, Inc.
Page 2 of 2

If no evidence of this priority date or volume is submitted, or we do not hear from you within the time limit below, your priority date and water use as claimed may not be recommended to the SRBA court for decree. Please submit the volume data and the required evidence supporting the priority date(s) by April 28, 2006.

Sincerely,

Vicky L. Music
Senior Water Resource Agent

Enclosures: Notice of claim reports, 2004 aerial photo and "Evidence of Priority" brochure

NOTE: If you no longer own the property upon which this claim was filed, please contact this office immediately. Idaho State law requires that the Department be notified of a change of owner or address on a water right.

No Changes Necessary - per Agent review.

Re: ConAgra Inc., dba Armour Fresh Meats, Inc.
TAB File No. 0091-01

Dear Ms. Givens:

This letter is in response to your June 24, 1998 letter sent by you to my client, ConAgra Inc. dba Armour Fresh Meats, Inc. In that letter you asked that my client complete Form 42-248/42-1409(6) entitled "Notice Of Change Of Water Right Ownership."

ConAgra wishes to take whatever steps necessary to resolve any confusion regarding its claimed water rights. However, ConAgra is not a new owner of the Armour Fresh Meats, Inc. facility in Nampa, Idaho, the business for which notices of claims to water rights numbers A63-03570, A63-03277, A63-21949, & A63-21952 were filed. The facility was operated as CAG Subsidiary until a name change to Armour Food Company on January 12, 1984. Armour Food Company and ConAgra Inc. merged on August 12, 1985. The facility has done business under the dba of Armour Fresh Meats Inc. since that time. All of the notice of claims identified in your June 24, 1998 letter were filed for ConAgra Inc., dba Armour Fresh Meats in 1992.

Recently, ConAgra responded to a letter from the Idaho Department of Water Resources dated June 22, 1998, a copy of which is enclosed. Along with that letter was enclosed a Confirmatory Deed and Assessor's Tax Number Lists Canyon County concerning ConAgra's Nampa, Idaho facility. The deed is between the Greyhound corporation and

Judy Givens
December 9, 1998
Page 2

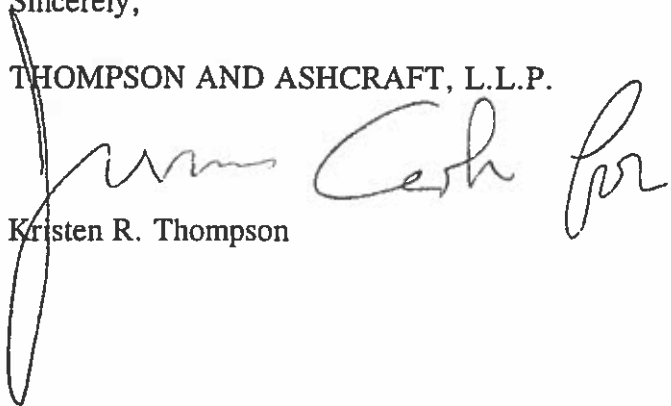

Armour and Company. ConAgra is not specifically identified on the deed, as it bought Armour and Company and all of its assets, including the Nampa facility as explained above.

If you have any questions or concerns, feel free to contact me.

Sincerely,

THOMPSON AND ASHCRAFT, L.L.P.

Kristen R. Thompson

Re: Snake River Basin Adjudication (SRBA) Notice of Claim #63-21949

Dear Applicants:

In reviewing the above-referenced water right claim, it appears there is a discrepancy in the legal description in our records.

I have enclosed a profile listing to show you what our records indicate. If you could compare our record profile listing with the legal description on your Warranty Deed or tax notice and then, please send to me a copy of the document, I will change the records accordingly.

I would appreciate it if you could return this to my attention by July 6, 1998. If you have any questions, please call toll-free at 1/800-451-4129.

Sincerely,

A handwritten signature in black ink, appearing to read 'Judy Givens'.

Judy Givens
