RE: SF5s Resolving Various Tribal Objections in Basins 91 & 92

Dear Clerk:

Enclosed for filing are 31 SFs in subcases involving Tribal objections in Basins 91 and 92. As discussed at the January 25, 2017 hearings on these rights, minor corrections have been made to the recommendations included in the SF5s for subcases 91-7140 and 92-7226. The headers for these 2 water right descriptions originally identified the recommendations as preliminary. The word preliminary in each header has been stricken by hand. Also, a remark in the Point of Diversion element of the recommendations, added in settlement of both rights, was mistakenly not underlined to indicate its addition to the original recommendations. The remark has been underlined by hand in both SF5s.

The Place of Use (POU) element for water right 91-7228 was originally recommended with a notation describing stockwater use in both Benewah County and Kootenai County. The POU, while being close to Benewah County, is contained in Kootenai County, and the SF5 removed the reference to Benewah County from the POU element. After the SF5 was routed for the party's signatures, IDWR discovered that POU notation change was not shown in overstrike. The removal of the Benewah County reference was then made by hand, and the SF5 recommendation was emailed to the parties of the subcase to secure acceptance and their initials. That corrected recommendation is included in the SF5.

Please feel free to contact me should you have questions regarding any of these SF5s. Thank you.

Sincerely,

A handwritten signature in blue ink, appearing to read "Vicki Kelly". The signature is fluid and cursive, with the first name "Vicki" and last name "Kelly" clearly distinguishable.
