A 16x16 grid of squares, each containing a crosshair pattern of dashed lines. The grid is composed of 16 columns and 16 rows, totaling 256 squares. Each square has a dashed horizontal line and a dashed vertical line intersecting at the center, forming a crosshair. The grid is used for handwriting practice, with the dashed lines indicating the correct stroke order and placement for letters. The grid is divided into four quadrants by a solid horizontal line and a solid vertical line, each quadrant being 8x8 squares. The dashed lines in each square are positioned to form the basic structure of a letter, such as the 't' in the first square of the first row.

FIELD EXAM MEMO

DATE: 5/30/2006

TO: Sandy Hemenway

FR: Lori Graves

RE: A63-23399

Ann Watts is the contact for the field exam at 541-889-8941. The source lists ground water on the claim but was data entered wrong. The source is actually a spring or unnamed stream. The range for the p/u was also data entered wrong listing R4W rather than R5W.

Please confirm the following:

1. Source
2. Capacity
3. Acres irrigated
4. System diagram

Ann stated that water from Farmers Co-op is also used on the property. The domestic well used for the home has been decreed under water right no. 63-23398.

Attached is an affidavit and map that Ann submitted for the claim. Also attached is a copy of the claim proof report and 2004 aerial photo. Thanks Sandy.

CONVERSATION MEMO

Date: 5/23/2006

Agent: Lori Graves

With: Ann Watts

Subject: Ownership/Priority/Source

Claim No.(s): A63-23399

Ann called to say that her and Roger are the current owners of the property. Muadreal Evans was her mother, who has passed away. Ann and Roger's address is 2424 Andrew Ave, Ontario OR 97914. Ann stated that the source should actually be listed as a spring, not ground water. It appears that there were a couple of mistakes when the claim was data entered. The original handwritten claim lists an unnamed stream for irrigation in T5N R5W S14 SESW. The data entered claim lists ground water for irrigation in T5N R4W S14 SESW. Regardless, Ann is sending an affidavit for the spring, which she says naturally originates on the property, and a detailed map. Ann also stated that the spring water supplements water from Farmers Co-op.

Note: The only well on the property used for the house and stock is covered by decree 63-23398.

Ann's phone number is 541-889-8941.

A63-23399

Canyon County

I Ann Watts deposes and says that the claim listed as well or ground water needs to be changed to spring water. There is a natural spring that begins above our farm with some springs on our property. When we moved to the farm with my parents I believe I was about 3. I was born in 1939. The water that came thru the spring was used to water the pasture in front and at the side of our farm house. My father had milk cows for many years that used this pasture. My dad used to farm with horses and I can remember when He let me hold the reins and we would stop on the way in from the field and he would stop for a swim to be clean for the house because when we moved, the well we used did not bring water inside the house. For a couple of years we had to pump the water with a handle on the pump outside. My dad at one time dug two ponds and stocked them with trout. The last forty years or so these have filled in because of the Dirty runoff from the irrigation water draining into this spring.

The land on this part of the farm has always been in pasture since my dad bought the place and I assume it was there before we moved because he had to have a farm that could feed his cows.

Thank you

*History of property
before my father Howard Evans
bought it*

The property owned by Ann Watt at the corner of Goodson & Highway 20-26 was probated in 1903 by the widow of Benjamin F. Munkers. It was sold in 1904 to John & Mary Rasmussen for \$862 and it contained 120 acres.

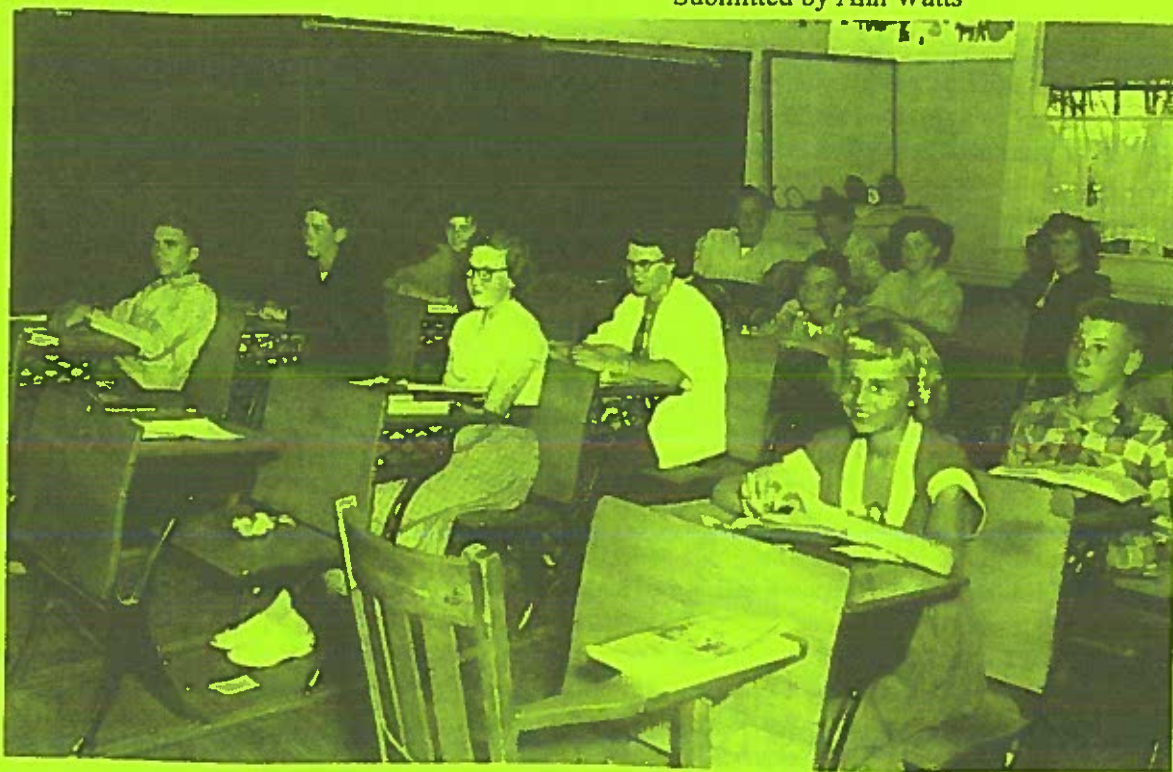

Thereafter several people owned the land for short periods of time. In 1930 it was deeded from Gertrude Bell Stone Elam and her husband Roy Elam to Owen Haskins and his wife Josie.

Howard Evans was born in 1906 and grew up in Twin Falls Idaho. His wife Maudrean grew in the Bellvue Area. They were farmers all of their lives. Howard farmed, was on the Ten Davis School board, and spent many years on the ditch committee. Maudrean was known in the community for her love of flowers and always enjoyed providing flowers for events in the community. She often was called on to provide corsages for special events at the social circle.

I am the daughter of Howard & Maudrean and still own the farm. I have many fond memories of grade school at Ten Davis. Also I must give credit to my 4-H background. I became a home ec. teacher and I credit the long time Ten Davis instructor Ruby Hartman for giving me such a strong background.

RE: NOTICE OF CLAIM NO: A63-23399

Dear Land Owner:

We are currently preparing the Notice of Claim referenced above for the Director's Report in the Snake River Basin Adjudication. Enclosed is a computer printout of the claim for your reference. Our research indicates there may have been a change in the ownership for the above claim. Idaho Department of Water Resources (IDWR) records currently show the following name and address as the owner of the claim listed above:

**ROGER & ANN WATTS
289 NW 19TH ST
ONTARIO OR 97914**

The Idaho statutes require that (IDWR) be informed of a change in water right ownership within 120 days of the property transaction. If you purchased the property referenced in this letter, please fill out the change in ownership form and send it with the required documentation to my attention at 2735 Airport Way, Boise ID 83705. If no response is received from you, all further legal notices concerning the claim will be sent to the name and address of the original claimant shown above. Please call me at (208) 334-2190 if you have questions.

Sincerely,

RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No: A63-23399

Dear Claimants:

In the past, you submitted the above referenced claim during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim for your reference only, it is not necessary to return this print-out. It appears that you no longer own the property, however, because the department has not received a change in ownership for the claim, you are still listed as the current owner of record, which is why you are receiving this notice.

You indicated, when this claim was filed, that the water right was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date."

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right if water availability problems arise in the future.

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, an accurate location of your diversion and acres irrigated needs to be identified on the attached aerial photo. Please include as much detail regarding your diversion system as possible such as well depth, static water level, pumping level, hp, operating pressure,

Page 2

etc. If more information is needed, you will be receiving a call from us in order to set-up an appointment for a field exam.

The required evidence supporting the priority date requested and clearly marked aerial photo needs to be submitted by June 2, 2006. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully,

Lori Graves
Sr. Water Resource Agent

Domestic well for house WR #63-23398 (decreased)

The property is no longer owner occupied but is rented out.

The unnamed drain is made up of multiple springs on both sides of the ditch + embankment that feed into this drain (nothing could be isolated), Also waste-water. This drain flows year-round, but runs higher during the spring.

The Livestock are moved around to different pasture areas.

The weir was constructed at the POD in 1961, also the control boxes in the lower pasture to enable diverting the flow to different ditches

Ann Watts is the contact for the field exam at 541-889-8941. The source lists ground water on the claim but was data entered wrong. The source is actually a spring or unnamed stream. The range for the p/u was also data entered wrong listing R4W rather than R5W. yes

Please confirm the following:

- ✓ 1. Source
- ✓ 2. Capacity
- ✓ 3. Acres irrigated
- ✓ 4. System diagram

✓ Ann stated that water from Farmers Co-op is also used on the property. The domestic well used for the home has been decreed under water right no. 63-23398.

✓ Attached is an affidavit and map that Ann submitted for the claim. Also attached is a copy of the claim proof report and 2004 aerial photo. Thanks Sandy.

I Ann Watts deposes and says that the claim listed as well or ground water needs to be changed to spring water. There is a natural spring that begins above our farm with some springs on our property. When we moved to the farm with my parents I believe I was about 3. I was born in 1939. The water that came thru the spring was used to water the pasture in front and at the side of our farm house. My father had milk cows for many years that used this pasture. My dad used to farm with horses and I can remember when He let me hold the reins and we would stop on the way in from the field and he would stop for a swim to be clean for the house because when we moved, the well we used did not bring water inside the house. For a couple of years we had to pump the water with a handle on the pump outside. My dad at one time dug two ponds and stocked them with trout. The last forty years or so these have filled in because of the Dirty runoff from the irrigation water draining into this spring.

The land on this part of the farm has always been in pasture since my dad bought the place and I assume it was there before we moved because he had to have a farm that could feed his cows.

Thank you
