1. segbert 10/4/2004 Priority Date

Comment: The priority date on the decree is 4-10-13 and the priority date on the claim is 5-12-13

2. segbert 11/30/2004 POD

Comment: The POD probably belongs in the SENW not the SWNW. Did not make a shape

3. csaxton 4/27/2006 PPU

Comment: This right recommended as PPU with 67-662, 67-673, 67-2063, and 67-14575 per claimant request during a meeting with him on 5-9-05. In addition, the field examiner determined that the water rights are used as a permissible place of use in the filed. All rights are diverted from the same POD and through the same irrigation system.

4. csaxton 4/27/2006 Priority Date

Comment: I solicited an amended claim to change claimed priority to 4-10-1913 which is consistent with other claims from this decree and is the day that Harris vs. Martin was signed. Recommend claimed priority for now, and if amended claim is received, simply update the recommendation.

5. csaxton 12/19/2006 NOE

Comment: POU amended per NOE.

Remarks:Comments:

1. segbert 10/4/2004 Priority Date

Comment: The priority date on the decree is 4-10-13 and the priority date on the claim is 5-12-13

2. segbert 11/30/2004 POD

Comment: The POD probably belongs in the SENW not the SWNW. Did not make a shape

3. csaxton 4/27/2006 PPU

Comment: This right recommended as PPU with 67-662, 67-673, 67-2063, and 67-14575 per claimant request during a meeting with him on 5-9-05. In addition, the field examiner determined that the water rights are used as a permissible place of use in the filed. All rights are diverted from the same POD and through the same irrigation system.

4. csaxton 4/27/2006 Priority Date

Comment: I solicited an amended claim to change claimed priority to 4-10-1913 which is consistent with other claims from this decree and is the day that Harris vs. Martin was signed. Recommend claimed priority for now, and if amended claim is received, simply update the recommendation.

RE: Amendment of Snake River Basin Adjudication (SRBA) claims 67-662 and 67-673

Dear Mr. and Ms. Grandi,

Let me start off by saying that I really think this is the last thing we are going to bother you about. But I think this is to your benefit.

Short Story:

Your claims on decreed rights 67-662 and 67-673 claim a priority date of **5-12-1913**. However, everyone else with a water right from that decree claimed **4-10-1913**. I know it is not a huge difference, but I think it would be to your benefit to amend your claims to claim the earlier priority date that is consistent with the other water users.

Long Story:

The decree *Harris vs. Martin et al*, did not define a priority date for the rights it described. It listed the order they were to be delivered by describing them as having "first" right to the water and "second" right to the water.

So when the SRBA asked everyone to file a claim, they had decide on a priority date. The court case *Harris vs. Martin et al* was settled on **4-10-1913** and that was the date most everyone who had a *Harris vs. Martin et al* claimed. However, the document of the decree itself was recorded on **5-12-1913**, which is the date Mr. Tallent claimed when he filed.

I am enclosing two amended claims that list the earlier priority date of 4-10-1913. The priority date is the only change I made and is highlighted in yellow. If you do want to claim the earlier priority date, please look over the amended claims and initial any changes you wish to make. When satisfied, sign the claims in front of a notary and return them to me **ASAP**.

Again, I am sorry for the inconvenience, but I really do think it would be to your benefit. Give me a call if you have any questions.

Respectfully submitted,

Craig L. Saxton

Re: Field exam for SRBA claims 67-673, 67-662, 67-2063, and 67-14575

I met with the claimant Jerome Grandi on 5-9-05. We discussed his SRBA claims and filed claim 67-14575. So the claimed POU for 67-14575 was data entered by me upon guidance from the claimant.

67-673, 67-662, 67-2063:

There really isn't much to do with these on the field exam other than verify the delivery system as described below.

67-14575 (b-use):

Field Exam:

- verify POD
- verify historical POU. In my office, Mr. Grandi claimed historical irrigation of property in the SESE of Section 3. The evidence of priority also mentions irrigation in that QQ. However, I can not see good historical evidence of irrigation of that ground. The following sources did not show solid signs of irrigation in that QQ:

1987 NAPP

1998 DOQQ

2004 SID

In order to recommend that as irrigated ground as being irrigated with a historical water right (before May 20, 1971) we will need evidence of historical use and evidence that the water can get to that ground currently.

- We need a system description. Confirm that this water is to be recommended as a PPU with the claimant. In order to recommend a PPU, it has to be a common system meaning any of the water can get to any of the POU. I am pretty sure it can from our conversation.
- We don't need a measurement unless you find there is significantly more acreage than I initially found (shown on the layouts enclosed). I found 245 acres and we

have delivery records of 242 inches. So the system has capacity to deliver one inch per acre at the acreage initially found.

If the claimant had any measurement records, we would take that. And if there is a weir get a picture of that with dimensions. If the claimant is running sprinklers, count sprinkler heads.

IF this is not a PPU, make sure we know what ground is irrigated with what water right.

Dear Wateruser(s):

This office has reviewed the Notice of Change of Water Right Ownership form submitted to our office. However, due to the items checked below, we cannot continue to process this ownership change. We are returning the Notice of Change of Ownership to you to COMPLETE OR RESEARCH ONLY THE FOLLOWING ITEM(S) SHOWING A CHECKMARK IN THE BLANK FOR THAT ITEM(S).

☒ There is no existing water right in our records either under the former owner's name or for the legal description given. If, after contacting the former owner, you find more information concerning a water right, please contact us.

☐ Legal description of property. Please complete showing the legal description by 1/41/4 (40-acre tract), section, township and range for the property changing ownership. If you only have a subdivision lot & block legal description, please send us a copy of your subdivision plat map.

☒ It appears you receive your water from an irrigation district, ditch company, municipality or community water company. If this is the case, then the water right remains in the name of this entity and you should contact them concerning the ownership change. SEE NEXT PAGE.

☐ Name and address of former owner (seller). This will clarify the original owner of the water right.

☐ Name, address and phone number of new owner (purchaser).

☐ This change in ownership appears to result in a splitting of the water right. A split of the water right occurs when the ownership change affects only a portion of the original right. In order to accurately split this right we must know what portion of the right was sold. The amount of water in CFS, the place of use by 1/4 1/4 with the number of acres in each 1/41/4 (if applicable) and the point of diversion by 1/41/4, Section, Township and Range is needed. If this right is not being split, please submit proof of ownership for the remaining portion. Enclosed is a computer copy of this right for your review.

☐ Proof of ownership is needed. This proof can be a copy of the warranty deed, sales contract or tax assessment in your name which includes a description of this property by 1/41/4, Section, Township and Range.
