RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) claims:
95-7192 and 95-14838

Dear Mr. Nicholas,

The Idaho Department of Water Resources is currently in the process of reviewing claims filed in the CSRBA. After conducting a preliminary review of the above mentioned claims, I have a couple of questions. Primarily, I was hoping you could identify the locations of the springs, well, and homes described in each of the claims.

95-7192 claims use of 3 springs for domestic and stock water use. I have attached a map. Please draw on the map the following items:

- Each spring that is used for **domestic** use.
- Each home/domestic structures that gets water from the springs.
- Springs diverted for **stockwater** use (if the same as domestic, just indicate on the map).
- Stockwater troughs or tanks that are supplied with spring water (please indicate which spring goes to which trough).

95-14838 claims use of a well for **domestic** use for 2 homes and **stockwater** use. On the same or a new map, please draw the location of:

- The well.
- The homes that receive **domestic** water from the well.
- Stockwater troughs or tanks that are supplied with water from the well.

When completed, please mail the updated map(s) to me at your earliest convenience to ensure that your recommendations describe your water use as accurately as possible.

I know this letter is coming to you out of the blue so please don't hesitate to contact me with questions.

Respectfully,

Craig L. Saxton
