phone call (x) walk-in (.)

Initially, he called to find out the property description of Dixon's well because an agreement is being written between Weaver (neighbor who has shared the well for 20 years w/ Dixon) and Dixon. When researching I found all of the above claims (A37-04022 irrigation from surface yet if Cook will be power of attorney for Dixon he'll need all claims). Since A37-11897 exists I wonder if the agreement is necessary? Anyway, I am sending all of the above with a note to: LG Cook, 11 Austin Rd., Carey, ID. 83320

RE: A37-04022, -11696, -11897

Dear Mr. Cook,

After researching our data base, I have found and enclosed the three claims.

Mr. George Weaver has a claim, A37-11897, which calls to the same well used by Lawrence Dixon, A37-11696. Both of these claims record the applicants using the same well for their domestic and stockwater uses.

In response to the subject of possibly becoming Mr. Dixon's Power of Attorney, I wanted you to be aware of all the claims in Mr. Dixon's name, A37-04022 and A37-11696.

Please call the office if I can be of assistance.

Cordially,

Georgia Satterlee
Sr. Water Resource Agent

He indicated that his brother-in-law would not sign an easement agreement when they asked. He wanted to know where he stood. I explained that water rights do not create an easement and that he may have to proceed with civil action. I located his claim on the system and after discussing his claim with him he decided to amend the priority date to the date that his home was built and hooked up to the system. I also generated a profile report of his brother-in-law's claim.

ACTION OF THE DEPARTMENT OF WATER RESOURCES

This Permit is Approved.

Date 4/26/91.

If approved, this permit authorizes the construction or modification of a well subject to the following conditions. READ CAREFULLY

GENERAL CONDITIONS:

1. The well must be constructed in compliance with the applicable statutes, specific conditions of approval shown on the water right permit, injection well permit, transfer or amendment and the rules and regulations of the Department for water appropriation, injection wells and well construction standards.
2. This drilling permit is valid for two (2) months from the above approval date for the start of construction and is valid for one (1) year from the approval date for completion of the well unless an extension has been granted.
3. This permit does not constitute an approval of the District Health Department or the Idaho Department of Health and Welfare which may be required before construction of this well.
4. The well shall be constructed by a driller currently licensed in the State of Idaho who must maintain a copy of the drilling permit at the drilling site.
5. Approval of this drilling permit does not authorize trespass on the land of another party.
6. This permit does not constitute other local, county, state or federal approvals which may be required for construction of a well.
7. This drilling permit does not represent a right to divert and use the water of the State of Idaho.
8. If a bottom hole temperature of 85° or greater is encountered, well construction shall cease and the well driller and the well owner shall contact the Department immediately.
9. If this permit is for a replacement well, the well being replaced must be abandoned in accordance with Department Rules and Regulations.
