
Meeting Memorandum

Date: April 13, 2017

To: File 91-7924, 91-7925

From: Craig L. Saxton

RE: Preliminary recommendations for City of St. Maries late claims

Attendees: Craig L. Saxton
 Carter Fritschle
 Andrea Courtney
 Mariah Dunham – telephone

Spoke with Mariah Dunham over the phone on April 13, 2017, to discuss the preliminary recommendations for the City of St. Maries late claims. I sent her copies of the preliminary recommendations by e-mail on March 31, 2017.

Ms. Dunham primarily wanted to understand the basis of the recommendations. I think her primary concern was the recommended location of the POD for claim 91-7924. She wanted to know what sort of information we needed to justify recommending the claim as a “separate” water right that was developed at the claimed POD in section 13. A “separate” water right being in contrast to the how it was recommended in the preliminary were 91-7924 was essentially described as an increment of beneficial use at the same location that 91-7925 was developed.

Ms. Dunham asked that we hold 91-7924 and 91-7925 out of the Spring 2017 late claim Director’s Report. We agreed. However, regardless, we will need to include recommendations for both of these claims in the Spring 2018 late DR.
