**BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE STATE OF IDAHO**

AFFIDAVIT OF MATT ISCH

MATT ISCH, being first duly sworn upon oath, deposes and says:

- SCANNED
APR 19 2017

3. In the Coeur d'Alene-Spokane River Basin Adjudication, the City filed a claim for the water right associated with the Riverbend system, which was licensed by the Idaho Department of Water Resources as water right no. 95-8572 ("Riverbend wells").

4. The purpose of this affidavit is to explain the Riverbend wells and when they were interconnected with the City's main production wells.

5. Generally east of McGuire Road, the City was originally served by its main production wells ("main production wells"), commonly referred to by the City by numbers (e.g. Well 0, Well 1, Well 2, Well 2A, Well 3, Well 4, Well 5, Well 6, Well 7, and Well 8). The main production wells are interconnected.

6. Generally west of McGuire Road, the main production wells described in Paragraph 5 supplied water to the West Standpipe and customers north of Interstate 90 ("I-90"). Separate municipal systems south of I-90 included Majestic View and Riverbend Water.

7. Prior to 2002, the Riverbend wells provided municipal water to customers in the area of the City west of Pleasant View Road and south of I-90. Majestic View wells provided municipal water to customers in the area of the City east of Pleasant View Road and south of I-90.

8. In 2002, the City interconnected the Riverbend system with the main production wells described in Paragraph 5. Municipal water was pumped from the main production wells described in Paragraph 5 and supplied water to the Riverbend area west of Pleasant View Road and south of I-90. Attached with my affidavit is a copy of the as-built water line project map, dated August 2002, showing the Riverbend wells were interconnected with the main production wells.

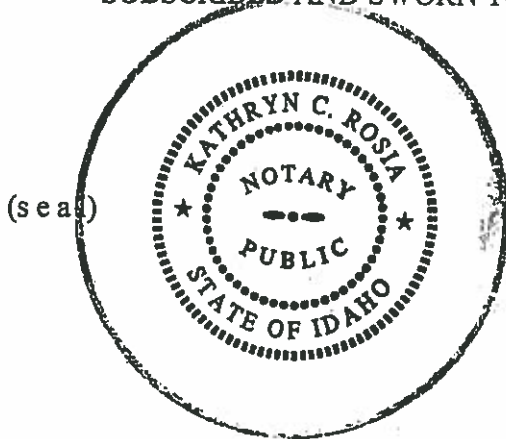

SCANNED
APR 19 2017

9. The Majestic View system remained as a separate system until after the construction of Well 9 and the completion of the Riverbend Phase 4 expansion in 2008. Once these were completed, the City classified the area west of McGuire Road as the West Zone and the Majestic View system was interconnected.

DATED this 18th day of April, 2017.

MATT ISCH

SUBSCRIBED AND SWORN TO BEFORE ME this 18 day of April, 2017.
