CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, *Idaho Code*, any person claiming a water right established by diversion and application of water to beneficial use must file a claim with the Department of Water Resources. The filing of this claim does not confirm the water right claimed. Water rights represented by a valid permit, license, decree, or previous claim are exempt from this requirement, as are uses of water for domestic purposes as defined in Section 42-111, *Idaho Code*. A filing fee must be submitted with this claim. See the instruction sheet to determine the appropriate fee.

Notice is hereby given that Heidi Ann Rickert
(Name of Claimant)Mailing Address: 315 S. Boyer, Sandpoint, ID 83864Telephone No: 208-610-0826 Email: heidiannrickert@gmail

claims a right to the diversion and beneficial use of surface or ground water. The extent and nature of said claim is as follows:

1. Date of Priority: (When the water was first applied to beneficial use) 1939
A claim is not acceptable for the use of surface water with a priority later than May 20, 1971. A claim is not acceptable for the use of ground water with a priority date later than March 25, 1963, unless the water is used for domestic purposes as defined in Section 42-111, *Idaho Code*.

2. Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Spring tributary to Bever Creek

3. Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch etc.). Give sizes and capacities. Be specific. Describe any changes in the system and give the date of the change.
Uncle Kenny said the original spring (about 900 ft. from the house), was there when they moved in 1939. He remembers a horse/cattle trough that was rusty. The original spring was 3'dia. x 3' deep and gravity fed the houses. We enlarged it to 25'dia. x 3' deep about 1993. Water is pumped by a 3/4 hp Flotech Jet Pump coupled to 1" Poly pipe which is pressurized at a pump house near the houses. There are two frost-free spigots in the field.

6. A) Describe the place of use within each 40-acre tract in the appropriate box using the symbols listed below. If the use is for irrigation, describe the location by listing the number of irrigated acres within each 40-acre tract.

D - domestic, S - stockwater, M - municipal, C - Commercial, I - Industrial, X - other

TOTAL ACRES 35.08

B) If water is used for purposes other than irrigation, fully describe the use. Be specific.

Water has traditionally been used for just a few poultry/stock to support a family or two.

NOTE: Include here the type and number of stock watered: I don't think there's been more than 20
