10-19-09

Good Afternoon,

Attached are the SF5s we spoke of this morning. These reflect the wastewater condition agreed upon. Please look them over and let me know if any other changes need to be made.

Paul, I know you would like to send the Loveless SF5 out to explain it and if you could then send it on to Renea for the coverpage and signatures after speaking with Ms. Loveless that would work.

The SF5 for Severn just needs approvals sent back to Renea and she can send it out with the cover page and keep tracking on it.

If anyone has any questions concerning these SF5s, please let me know. Renea, these were done a little differently because Ms. Loveless needed someone to explain the situation to her as she has no representation.

Thanks,
Jan

remark.

Crossing agreement - Need to
meet with claimants still. Will
be settled before the trial schedule
goes through.

Up to Bruce & Paul Amington
to get language & submit!

STATUS CONFERENCE NOTES:

RIGHT NO. 63-4053

DATE: 5-5-09

✓ 63-27399

Bruce Smith, Paul Arington,
Mrs. Goveless.

Wilder Aring. Dist. will withdraw
their opinion & objection concerning
the crossing agreement. He would like
to go with the generic language.

Bruce will have to talk with his
client, the Texens. Probably need
a follow-up on this one to see how
it's going. Next status conf. for
20th at 3:30. Bruce will also
talk to Mrs. Goveless & get back
to us.

Hi Jan,

I received the e-mail below this morning from Paul. Maybe we want to wait until after today's status conference to make sure we have everything right. We can let you know if you're not interested in sitting in on this conference. This would be a good one to get settled as it is set for trial.

Thanks1

STATUS CONFERENCE NOTES:

RIGHT NO. 63-27399

DATE: 3/31/09

Scheduling conf.

Bruce Smith - Agreement on
WW remark. Crossing agreement is
unacceptable to his client. BOR is a
respondent. This is not a BOR
crossing agreement. However, Paul
Arlington feels he and Bruce could
~~make~~ make an agreement. However,
may go to trial on the crossing agreement.
Will settle on wastewater language.
Trial for crossing agreement. Spec.
Master not sure he should be trying
to go to trial or not. May be a
trial for another Court.

C. CLAIMANT OF WATER RIGHT AS LISTED IN DIRECTOR'S REPORT

Name: David and Janice Severn

Address: N. 12411 Vistawood Ct.

Spokane, WA 99218

D. I object to the following elements as recommended in the Director's Report. (Please check the appropriate box(es)).

1. ☐ **Name and Address**

Should be: _____

2. ☒ **Source**

Should be: The source should be described as waste waters, and waste waters belong to the Wilder Irrigation District. Wilder Irrigation District Delivery.

3. ☐ **Quantity**

Should be: _____

4. ☐ **Priority Date**

Should be: _____

5. ☐ **Point of Diversion**

Should be: _____

6. ☐ **Instream Flow Beginning and Ending Point**

Should be: _____

7. ☐ **Purpose(s) of Use**

Should be: _____

8. ☐ **Period of Year**

Should be: _____

9. ☐ **Place of Use**

Should be: _____

10 ☐ **I object because:**

☒ This water right Should not exist.

☐ This water right was not recommended, but Should be recommended with the elements described above.

E. REASONS SUPPORTING OBJECTIONS(S): There has been no lawful appropriation of this right. The description of the source should have been waste water. The waste waters belong to the Wilder Irrigation District and are not available for private development and appropriation. Further, any attempted development of this right constitutes a trespass against the drains of the Wilder Irrigation District. Proposed wastewater remark does not sufficiently protect original appropriator. Claimant diverts from drain as delivery point for Wilder Irrigation District deliveries.

Boise, ID 83705-5082

Gentlemen:

This correspondence is written to you as a documented fulfillment of the requirement to substantiate the "Priority Date" of my filed water right claim no. A63-27399 originally filed with you on October 21, 1992.

The date of priority for my claim is June 24, 1932.

The land was originally homesteaded for farming and cattle raising purposes in the 1870's. This is evidenced in the abstract of title (State of Idaho) no. 68971 and no. 71770 filed in Caldwell, Idaho in Canyon County. This document is attached as Exhibit "A" and shows the original right of way of 2.31 acres where the Isham drain ditch now exists.

Attached Exhibit "B" is a four part multiple photograph of the Snake River bottomlands through which the Isham drain was dug after the turn of the century. This property is located at the landsite of the old Froman's Ferry crossing downstream from the present day townsite of Marsing, Idaho. This Exhibit "B" is a four part panoramic view of the area through which the horses and teams were used to dig the Isham drain ditch using "dragline drag buckets" and horse pulled "Frezno" drag buckets. These photos were taken in the year 1916.

Attached Exhibit "C" is a photo postcard of the men and horse teams digging the sunny slope "lowline irrigation ditch" in May 1910. The same method was used in digging the Isham drain ditch through my property after the "lowline ditch" was completed.

Attached Exhibit "D" is a notarized affidavit from Mrs. Ruby Horrace who is current owner of the property adjacent to my property. The Isham drain ditch was dug through her property and through my property. Mrs. Horrace is 85 years old and recalls watching the ditch being dug for agricultural and stockwater purposes.

Attached Exhibit "E" is a notarized affidavit from Mr. Charles W. Ford, former property owner of the land that I now own. I purchased my land from Mr. Ford in July 1990. Mr. Ford is in his "eighties" and recalls watching the men dig the Isham drain ditch. He has always used the water from the Isham drain ditch for irrigation purposes and for stockwater as he operated his farm from the early 1920's up to 1990 when he sold the farm to me.

Attached Exhibit "F" is a copy of my 1994 real property tax notice from Canyon County, State of Idaho. This notice shows that I own and operate 163.5 acres of land on which I am herewith filing for water rights out of the Isham drain ditch.

I have filed a change of mailing address form with you, but for information purposes only I will herewith state my new mailing address as follows:

David R. & Janice K. Severn
N. 12411 Vistawood Court
Spokane, WA 99218

Thank you for your kind attention to this very important matter.

Sincerely yours,

A handwritten signature in dark ink, appearing to read "David R. Severn". The signature is fluid and cursive, with a long horizontal stroke extending to the right.

David R. Severn

 Dear Children we are well but
 having a hard time with the
 water. The ditch keeps breaking
 all the time we get it to hold
 for a while but there was
 so much water we could not
 handle it. we was trying
 to eragate freds crop but
 we had ditches every where
 it washed so it ran too
 fast. we are are having a
 time with it. but we have not
 any thing in shape to eragate
 yet our land is not high
 enough to get here to all
 around

OTHER (DESCRIBE IN NOTES BELOW)

no pld overlap per review 7/6/06 - kw

NOTES:

- Chain incorrectly indicated the P/D as where the chain came onto the property.

- FX statements from original p/d info was that 2-points were used 1 AT the road and DRAIN Location AND 1 NE the bend (90). Apparently a dirt dam was (ALLEGED)

used here and kept washing out. Then when the owner - Susan Knight property, he made the pond directly below in some tract(s) in 1994. SEE PHOTO'S

- Now-More Handlines are used. Sprinklers and other flow gravity is used. Depending on crop needs.

Reaction Drive Rocker Gun

APPLICATION AND DESCRIPTION

The reaction drive rocker gun/sprinkler is constructed of heavy duty bronze. The unit is designed with a minimal number of moving parts for operating simplicity. The rocker gun is excellent for agricultural, dust control and waste disposal systems.

FEATURES AND BENEFITS

- Adjustable, sun resistant, rubber bumper for speed adjustments at various water pressures.
- Low 22 degree trajectory angle minimizing wind effects.
- Spring loaded, sealed bearing reducing wear in sandy or dirty water.
- Constructed of cast bronze and stainless steel.
- Reaction spoon, adjustable for changes in nozzle size, water pressure and rotation speed.
- Built in friction brake for a safety factor against free wheeling.
- Arc stops adjustable from 40 to 340 degrees or full circle.
- Reaction spoon designed to run at the same rotation speed both in forward and reverse.
- Spring and lever bearing are water lubricated. No grease required.

MODEL IDENTIFICATION MATRIX

WA 99203

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water. Any other claims you may have filed, that are not listed above, do not require evidence of priority be submitted at this time.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary along with examples of types of evidence that can be submitted to fulfill this requirement. If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify claims in this area are now being conducted by Department personnel. Please contact this office as soon as possible to schedule a field exam appointment convenient for you.

The required evidence supporting the priority date(s) must be submitted by September 1 1995, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter, or the enclosed pamphlet, please call the Western Region office shown above.
