RE: EVIDENCE OF PRIORITY
Snake River Basin Claim No: A63-27742

Dear Claimants:

In the past, you submitted the above referenced claim during the Snake River Basin Adjudication (SRBA) claims taking. Enclosed is a computer generated print-out of the claim for your reference only, it is not necessary to return this print-out. It appears that you no longer own the property, however, because the department has not received a change in ownership for the claim, you are still listed as the current owner of record, which is why you are receiving this notice.

You indicated, when this claim was filed, that the water right was based on either a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by historical use of the water for a beneficial use purpose, dating back to the time the water was first used; this date being the "Priority Date" as shown on the enclosed print-out. Your claim has not been confirmed by a previous filing with the Department of Water Resources since there is no decree, license, or permit on file to verify the use of this water. For this reason, the Department is required to gather evidence from claimants supporting the date of priority for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes why evidence of the priority date is necessary, along with examples of types of evidence that can be submitted to fulfill this requirement. While I encourage you to read the entire pamphlet, I direct your attention to the two sections entitled "What Kind of Evidence is Required" and "Some Examples of Documents Which May Be Evidence of the Priority Date."

It is important that each element of the Notice of Claim be substantiated. For instance, regarding claims for irrigation, the evidence should tend to show that diversion works were in place, that they were capable of diverting the claimed diversion rate, and that the diverted water was beneficially used on the entire claimed place of use on or before the claimed priority date.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, may not be recommended to the SRBA court for decree. This could jeopardize your water use under this right if water availability problems arise in the future. Please note that the department has an affidavit on file for historical irrigation of lands that include your property that supports a 1938 priority date. Upon your notification, we can use this affidavit for your claim, which would then advance your priority date to 1938.

Page 2

In addition, since it is our goal to decree the historical water right within the Snake River Basin as accurately as possible, an accurate location of your diversion and acres irrigated needs to be identified on the attached aerial photo. Please include as much detail regarding your diversion system as possible. If more information is needed, you will be receiving a call from us in order to set-up an appointment for a field exam.

The required evidence supporting the priority date requested and clearly marked aerial photo needs to be submitted by **June 2, 2006**. Please let me know if you may not be able to submit proof of priority or have any questions not covered by this letter and the enclosed pamphlet, by the date indicated above.

Respectfully,

Lori Graves

RE: NOTICE OF CLAIM NO: A63-22193

Dear Land Owner:

We are currently preparing the Notice of Claim referenced above for the Director's Report in the Snake River Basin Adjudication. Enclosed is a computer printout of the claim for your reference. Our research indicates there may have been a change in the ownership for the above claim. Idaho Department of Water Resources (IDWR) records currently show the following name and address as the owner of the claim listed above:

NANCY CUTLER & NAOMI CAMPBELL
28077 SAND RD
PARMA ID 83660

The Idaho statutes require that (IDWR) be informed of a change in water right ownership within 120 days of the property transaction. If you purchased the property referenced in this letter, please fill out the change in ownership form and send it with the required documentation to my attention at 2735 Airport Way, Boise ID 83705. If no response is received from you, all further legal notices concerning the claim will be sent to the name and address of the original claimant shown above. Please call me at (208) 334-2190 if you have questions.

Sincerely,

Lori Graves

RE: A63-22193, A63-27742, A63-32068, A63-32069

Statutory claim 63-4025 was originally filed by George Walker on a waste way for irrigation of 63 acres that the claims listed above are appurtenant to. George submitted an affidavit in 1968 supporting a 1938 priority date. That right was claimed in the SRBA by Fred Hines, then split into A63-32068 & A63-32069 due to a change in ownership filed by the Fords. The Ford's purchased 39.5 acres of the claim A63-4025 represented by A63-32069. Current owner for that property is 4D Arena LLC. The remaining 10.5 acres was left in Fred Hines name as A63-32068.

Claims A63-22193 and A63-27742 were filed on property within the 10.5 remaining acres. The claimants were probably unaware of the statutory claim at the time of filing and just filed beneficial use claims.

A63-22193 lists wastewater for irrigation of 6 acres filed by the Hofeldts listing a 1900 priority date. Current owner for that property is Karl Morris.

A63-27742 lists a drain ditch for irrigation of 2 acres filed by Cutler and Campbell listing a 1935 priority date. Current owner for that property is Abel Martinez.

The only portion of the remaining 10.5 acres listed on claim A63-32068 not claimed on a separate beneficial use claim is 3 acres located in the very bottom SESESW corner currently owned by Justin Coranado.

Proof of priority letters will be sent to A63-22193 & A63-27742, stating that the department has a affidavit on file supporting a 1938 priority date. They could either try to establish their claimed priorities or go with the 1938 date.
