Steve – I have finished making the recommendations for the Forest Service claims in Basin 95. Please review them and notify me of any errors or any claims I overlooked.

There two claims that are a problem (95-11487 & 95-11512). They are for two households taking water out of Hayden Lake. There was adjudication of the water in Hayden Lake and all users in the drainage needed to file claims starting on April 10, 1969. Attached is a copy of the map showing the area and page from the decree. The lot in Rockway Beach tracts was owned by Arthur Crawford at that time. He was decreed the use of water for one house. The map show two houses on the lot and I have no idea why the decree was for one house. Mr. Crawford may have only claimed one or we made a mistake.

This is a possible solution to the situation. The Forest Service can file an amended claim for 95-11487 and base the right on a decree with IDWR water right number of 95-459. File an amended claim for 95-11512 and list the date of priority of April 11, 1969.
