STANDARD FORM 1

OBJECTION

INSTRUCTIONS

This form must be used to file an objection to any water right recommended in the Director's Report. You may object to one water right per objection form. To object to more than one water right, you must file a separate objection form for each. The water right number you are objecting to must be indicated above in the blank space following "Case No." Forms may be obtained from the Idaho Department of Water Resources (IDWR), or you may copy or reproduce this blank form, as long as it is identical to the court's form. You must file your objection by the deadline shown in the notice that IDWR mailed to you. The objection must be received by the court on or before the deadline specified. Instructions for mailing this objection are found at Page 6, and must be strictly followed.

Any party physically filing 25 (twenty-five) or more objections must make an appointment with the Clerk of the SRBA Court no later than 14 days before the filing deadline to file their pleadings.

By filing an objection form, you are certifying that the objection is well-grounded in fact; is warranted by existing law or a good-faith argument for the extension, modification or reversal of existing law; and that it is not filed for any improper purpose, such as to harass, cause unnecessary delay or needless increase in the cost of litigation.

I. GENERAL INFORMATION

Briefly describe your interest in this water right: Water Right No. 57-02055
Water License No. 9527, Priority 11-14-13 for 3.75 Sec Ft for 165 acres has been
seriously reduced to 174 acres to 3.48 cfs. This 160 acre tract and 40 acre tract
are fenced and have not been increased beyond the water right. There has been no
intent to forfeit or abandon any part of the water right. Any reduction in water
would seriously reduce the ability to grow a normal crop. The water right has not
been abused nor increased. It is used with regard to conservation practices.

If this objection is filed by an attorney:

Attorney Name: _____

If filed by an attorney, notice of pending court proceedings will be sent to the attorney only.

2. ***Owner of the water right. You must identify the owner exactly as it appears in the Director's Report:***

II. STATEMENT OF THE OBJECTION

Please check each "box" which states your objection to the recommendation in the Director's Report.

1. ☐ Name and Address: I object to the name and/or address of the owner of the water right.
2. ☐ Source: I object to the source of water.
3. Quantity: I object to:
 - ☒ a. the total quantity of water used in cubic feet per second; or
 - ☐ b. the total quantity of water stored in acre-feet per year; or
 - ☐ c. the total quantity of water reserved for each and every purpose, including all present and future uses.
4. ☐ Priority Date: I object to the priority date.
5. ☐ Points of Diversion: I object to the legal description of the point(s) of diversion.
6. ☐ Instream Flow: I object to the legal description of the beginning and ending points of the instream flow.
7. ☐ Purpose(s) of Use: I object to the purpose(s) of use.
8. ☐ Period of Year: I object to the period of year when water is used or is necessary for the purpose stated.
9. Place of Use: I object to:
 - ☐ a. the legal description of the place of use; or
 - ☒ b. the number of irrigated acres within each forty (40) acre subdivision.
10. ☒ Consumptive Use: I object to the annual volume of consumptive use.
11. Water Right Recommendation: I object to:
 - ☒ a. this water right being recommended at all; or
 - ☐ b. this water right not being recommended.
12. ☐ Description of Reservation: I object to the legal description of the reservation.

13. ~~XXX~~ Other: I object to: the changing of this 1913 water right of 185 acres at 3.7 cfs. This amount has been historically used. Cement ditches and improvements within its boundaries should not penalize the water right. These improvements greatly help the environment by better water control and less erosion of the soil.

REASONS SUPPORTING EACH BOX CHECKED

You must state the reason(s) by number for each box checked. You may use additional pages if necessary.

- 3 A This total water right is very necessary to grow a normal crop on this farm.
- 9 B There are 160 acres in one tract and 40 acres in the other, where are those lost acres
- 10 The original water right will give the correct annual consumptive use.
- 11 A The 57-02055 should not have been changed at all.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The Director's Report should not have changed the water right at all. It was stated in the beginning that adjudication was not to take rights away but to locate and record the waters usage, and I do agree. Changing this water right is neither just nor honorable.

Note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

O-3 - DISAGREEMENT:

Claimant disagrees with the disallowance of irrigated acreage within the boundaries of the farm, reducing the total acreage from 185 acres to 174 acres total.

Q-4 - PROPOSED CHANGES:

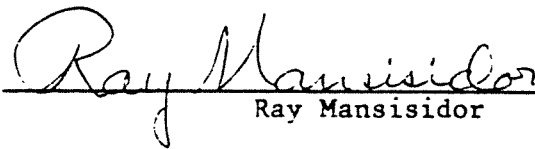

Claimant proposes the adjudication claim be recommended in accordance with the license issued by the Idaho Department of Water Resources for 185 acres of irrigated land with a total quantity of 3.70 cfs. Claimant would propose to meet with representatives of the Department to review this objection.

Q-5 - REASON FOR DISAGREEMENT:

Claimant believes that the acreage as described in the proposed recommendation is less than that that has historically been irrigated on this property. Claimant believes the original claim was filed in error and needs to be amended. There has been no intent of the applicant to forfeit or abandon any part of the water right as originally licensed.
