I. FINDINGS OF FACT

A notice of claim was filed for this water right pursuant to I.C. § 42-1409(1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 1 (Basin 34), which includes portions of Custer, Butte, Bonneville and Jefferson Counties, State of Idaho. The *Director's Report for Reporting Area 34 (Director's Report)* contained a recommendation or abstract for the elements of this water right.

An objection to the *Director's Report* for water right 34-00312B was filed on February 26, 1993 by the United States Bureau of Land Management. A response was filed on March 15, 1996 by the Estate of Chester Harper. A response was filed on July 9, 1993, by the State of Idaho Department of Water Resources. Subsequently, the United States filed a *Stipulation of Withdrawal of Objection* (Feb. 22, 1994) withdrawing its objection.

A *Standard Form 3 - Consent to Substitution of Party* was filed in this subcase, substituting Timothy S. and Karen I. Olson for the Estate of Chester Harper as claimants. Finally, a settlement was reached as to how the elements of this water right could be decreed. A *Standard Form 5 - Stipulated Elements of a Water Right* and an *Amended Standard Form 5* were filed

reflecting the settlement agreement of the parties. The signatories to the *Standard Form 5* and the *Amended Standard Form 5* are the new claimants, Timothy S. and Karen I. Olson; the objector, the United States Bureau of Land Management; and the Idaho Department of Water Resources. Thus it appears that all parties to this subcase, and IDWR are signatories to the *Standard Form 5*. The court gives prima facie weight to the *Standard Form 5* to which IDWR is a signatory.

All elements of the water right as stipulated to in the *Standard Form 5*, remain **unchanged** from the original *Director's Report* except for element one, the name of the claimants.

Element 1, the name of the claimant will be changed to reflect the purchase of the property by Timothy S. and Karen I. Olson as set forth in the *Standard Form 3*.

CONCLUSIONS OF LAW

Under *SRBA Administrative Order 1*, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be decreed for each subcase.

A *Preliminary Special Master's Report and Recommendation; Findings of Fact and Conclusions of Law*, was issued for subcase 34-00312B on August 29, 1996. No Motions to Reconsider or Motions to Correct Clerical Errors were filed, and the time for such motions has now expired.

Where a *Standard Form 5* is signed by every party to the subcase and the Idaho Department of Water Resources, it may be treated as an *Amended Director's Report* and given *prima facie* weight. The record on file for this subcase, including the *Amended Standard Form 5* and the *Standard Form 3* clearly establishes the intent of the parties that this water right be decreed with the elements as set forth in the Findings of Fact.

Therefore, based on the file and record herein, IT IS RECOMMENDED that water right 34-00312B be decreed with the elements as set forth in the attached *Special Master's Recommendation for Partial Decree*.

DATED September 24, 1996.
