SUBJECT: CHANGE OF OWNERSHIP FOR A37-10320, A37-12911 AND SPLIT OF A37-07419
phone () walk-in(X)

Dan Nelson referred her to me as she had a right in excess of the measurment district threshold of 0.24 cfs. I reviewed A37-12911 and discussed the uses with her. She indicated that this right was originally for a 2,000 head feed lot but that it probably had not been used for approximately 10 years. She stated that she probably would not use that right in that manner. She stated that the uses from that source is for approx 30 head of stock and two homes. She indicated that the two homes were built approximately at the same time and had always been on the same system. She thought that the current pump in the well is 1.5 hp. She ammended the claim to reflect that information. We discussed the partial forfeiture issues relating to this use as she started thinking about working with a dairy utilize an additional portion of the right.

I then assisted her with the paper work for changing ownership on A37-10320.

I reviewed the warranty deed for A37-07419 and determined that the portion that she purchased was the "pivot corner" located in the NESE quarter totaling approximately 9.8 acres. The right was split proportionately. She stated that some of her ground has been irrigated from McFarland's system but that the agreement at the time of sale was for her to eventually transfer her use to the well described in A37-12911. We discussed the possibility of her filing an extension of time to avoid forfeiture for a portion of the right as she plans on irrigating only 4 or 5 acres total. I informed her that she needs to file a transfer to use that well.

After she got home she called to discuss the possibility of McFarland wanting to keep a portion of the feedlot right. I suggested that she contact him.

MEMORANDUM

SUBJECT: SARA BATCHELDER

I contacted Sara Batchelder today to discuss whether or not she was going to amend her adjudication claim that was apart of the West ESPA Measurement District. During our discussion and through Cindy Hodges (from State Office of IDWR) notes, I found out the following information.

Sara Batchelder purchased a 9 acre piece of ground from Don Mcfarland approximately 5 years ago. This land sits on the corner of a pivot that was put in an unknown time ago. During this purchase Ms. Batchelder became the owner of adjudication claim A37-12911 and Mr. Mcfarland gave her the right to nine inches of water (probably from adjudication claim # A37-07419).

Cindy Hodges contacted Ms. Batchelder by a mailing her a letter describing the what she should do to get the water rights into her name. I discussed this information with Ms. Batchelder and have advised her to come into the office and speak with an adjudication agent.

Ms. Batchelder is considering using the same well for the irrigation portion of her property. I recommended that if she did use the same well for irrigation it may be in her best interest not to amend her domestic claim (A37-12911). Since she will be charged for the use anyway. If she decides to use a different well for the irrigation use, I recommended that she should amend her claim to .24 cfs or below.

I have included with this memo a copy of Cindy Hodges letter to Ms. Batchelder and a copy of an email I sent to Tim luke regarding these water rights. When Tim Luke replies to my email I include that letter and a copy of the letter I send to Ms. Batchelder at that Time.

Sincerely,

Daniel A. Nelson

RE: Change in Ownership, Claim Nos. A37-07419, A37-10320 and
A37-12911

Dear Sara:

Enclosed are proof copies of the above rights and a Notice of Change of Water Right Ownership form. You may list all affected rights on the single change of ownership form. Please note that positive verification of ownership plus a plat or aerial photo are required to be submitted with the change request.

Claim no. A37-12911, for your home well, shows a rate of flow of 0.5 cfs, or about 225 gallons per minute. This rate has caused your well to be assessed for measurement by the West ESPA Water Measurement District. Based on our conversation, it appears that the rate claimed by the McFarlands is more than the well can produce. Also, not all of the uses claimed are still in existence. As we discussed, you might consider amending the claim to a more realistic rate of flow, perhaps around 0.2 cfs (90 gpm). This would exempt you from the Water District assessment and still protect the ongoing uses under the claim.

A 10-acre portion of irrigation claim no. A37-07419 also appears appurtenant to the property you purchased in NESE S34. That claim may be split so that a corresponding portion is placed in your name. However, to add your domestic well as an authorized point of diversion for irrigation under this right, you must file an Application for Transfer to modify the original right.

Staff located at our Twin Falls office, 1341 Fillmore St Ste 200, phone 736-3033, are available to assist you in filing both your change in ownership and Application for Transfer.

Please contact me in Boise at 208-327-5406 if I can be of additional assistance.

Sincerely,

Cindy Hodges

Tim,

I contacted Sara Batchelder today concerning her change of ownership from Don Mcfarland for a domestic water right claim that she was intending to amend and waive. During our conversation she told me that she was given water for irrigation for her 9 acre piece of ground from Don Mcfarland. The water right confirms that Don Mcfarland has the right to irrigate all of the 40 acres in that tract (water right number A37-07419). She wanted to use her domestic well to irrigate her pasture (approximately 7 acres). The problem I am seeing is that she has not changed her water right yet and has owned the property for about 5 years. She said she would be willing to file an extension of time to prevent forfeiture. The irrigation right is located in the North Snake Groundwater District. My questions are:

- 1.) If she changes the irrigation right to the domestic well will her well be in the North Snake Groundwater District or will she be in the West Measurement District?
- 2.) Don Mcfarland has paid the assessment for the irrigation and the domestic water rights. She has agreed to pay the assessment for the domestic use if she does not decide to amend the domestic claim, but what will the process be for the North Snake Groundwater District?
- 3.) This file is one of the claims that Cindy Hodges had in the state office. Cindy did not have time to follow up on this assessment and so Ms. Batchelder was not sure what to do. I told her I would give her a little more time to finish this since she has not heard from us since August. I think that 30 days is plenty of time. I would like to know what you think we should do, should we give her another 30 days or what?

If you could answer some of these questions I would appreciate it.

Thanks

Dan Nelson
