Subject: Savory Water Right Claim No. 95-8238
Attachments: 95-8238.northwestmgmt.savory.pdf

Dear Ryan,

In regard to our phone conversation of today where we discussed fees and location of the well for the Savory Mobile Home Park; enclosed is the following:

- a. A copy of the claim and b. it's corresponding map

Please amend the claim under item 5 by listing the number of homes served by this water usage and if you would also label on the map where the well is located and outline where the usage is occurring; this would insure accuracy in completing the water right recommendation. Be sure to initial and date each change that you make.

In regard to the fee – fees are based on a flat rate of \$50.00 per claim with a variable fee for acreage at \$1.00 per irrigated acre and water quantity at \$100.00 per cubic feet per second (cfs) for water uses over 13,000 gallons per day. Consequently, we need an additional fee of \$25.00 to cover the water quantity for the domestic usage.

The check may be made out to the Idaho Department of Water Resources and mailed to my attention, along with supporting documents, to IDWR at the following address: 7600 N Mineral Drive, Suite 100, Coeur d'Alene, ID 83815

Feel free to contact me if you have any questions.
