

10/25/2005

IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 1-8

NAME AND ADDRESS: MINIDOKA IRRIGATION DIST
98 W 50 S
RUPERT ID 83350

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 266.600 CFS

PRIORITY DATE: 04/01/1939

POINT OF DIVERSION:

T09S R25E S1 NENESW Lot 3 Within MINIDOKA County

T09S R25E S1 SWSESW Within CASSIA County

PURPOSE AND
PERIOD OF USE:

PURPOSE OF USE

PERIOD OF USE

QUANTITY

IRRIGATION

03/15 11/15

266.600 CFS

PLACE OF USE:

75093 ACRES TOTAL

Use of the rights listed below is limited to the irrigation of a combined total of 75,093 acres in a single irrigation season. Combined Right Nos.: 1-8, 1-211A, and 1-214A.

Place of use is within the boundary of Minidoka Irrigation District pursuant to Section 43-323, Idaho Code.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

Water is delivered through Minidoka North Side Canal and Minidoka South Side Canal.

Right includes accomplished change in point of diversion pursuant to Section 42-1425, Idaho Code.

Water Right No.: 1-8

Minidoka Irrigation District
98 West 50 South
Rupert, Idaho 83350
(208) 436-3188

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Points of Diversion

Number of Acres

No mention of Foster Decree rights

The amount authorized to be diverted should mirror recommendation made for Burley Irrigation District

2. Describe the changes you wish to make in the proposed recommendation:

Points of Diversion: Need to add as a point of diversion: SW SE SW - Section 01 - T09S - Range 25 E - Cassia County (South Side Canal).

Number of Acres: Need to change number of acres to 77,410.8.

Foster Decree: IDWR has made no recommendations concerning the claims filed by BOR. The rights of the Minidoka Irrigation District to return flow credits needs to be set forth in the recommendation. Adjustments in natural flow for gains and losses should be computed for the Neeley - Minidoka and Minidoka - Milner reach as though the Minidoka Project does not exist, and all net return flow credits should be applied to the Minidoka Irrigation District and Burley Irrigation District as required by the Foster Decree.

Usage of Water: The language concerning the use of the total water rights should mirror the language used in the water rights for the Burley Irrigation District. If the Burley Irrigation District is not using its share of the total Minidoka Project water right, Minidoka Irrigation District should be entitled to divert and use the water right up to the maximum of Minidoka Irrigation District's capacity.

3. Give a brief explanation as to why you disagree with these portions:

Points of Diversion: Preliminary recommendation failed to described South Side Canal diversion.

Number of Acres: Preliminary recommendation did not list all irrigated acres located within the Minidoka Irrigation District.

Foster Decree: There is no mention of the Foster Decree water rights in the recommendation.

Usage of Water: The right to divert the total Minidoka Project water right should be identically worded in the recommendations made for the Burley Irrigation District and the Minidoka Irrigation District.

RE: Minidoka Irrigation District - Railroad Right of Way and Interstate Acres

Dear Mike:

Enclosed is an Affidavit signed by Mike Knight pertaining to the railroad right of way and the interstate acres that are at issue. I hope that this clarifies the position of the Minidoka Irrigation District. If you need further information, please contact me.

Sincerely,

Department of Water Resources
Eastern Region

AFFIDAVIT OF MICHAEL L. KNIGHT
IN SUPPORT OF MINIDOKA IRRIGATION DISTRICT'S
WATER RIGHT CLAIMS

Michael L. Knight, being first duly sworn, deposes and states:

1. I make the statements contained in this Affidavit based upon my own knowledge, and I believe the statements contained herein to be true.

2. I am fifty-three (53) years old and reside in Rupert, Minidoka County, Idaho.

3. I have been employed by the Minidoka Irrigation District approximately twenty-seven (27) years.

4. When I began working at the irrigation district, I assisted the plat engineer in addition to performing other duties. Starting in 1988, I became the primary plat engineer for Minidoka Irrigation District.

5. As part of my duties as plat engineer, I keep track of water rights, transfer of real property, and review the accuracy of assessed acres. In addition, when required, I research the records of the Minidoka Irrigation District to determine water rights appurtenant to acres located within the District.

6. When reviewing the District's water rights claims to be made in the Snake River Basin Adjudication, I reviewed water rights that are appurtenant to railroad rights of way located within the District. Most of the railroad rights of way were granted before creation of the District, and therefore no water rights were appurtenant to those rights of way.

7. However, the Northside branch and Oakley branch of the Oregon Short Line Railway was constructed after the project was created, and the rights of way were purchased from the original settlers. Historical documents provided to the Idaho Department of Water Resources evidence the fact that construction charges were paid on these rights of way and the rights of way were considered irrigable acres for the purposes of assessing construction charges and establishing water rights.

8. I have reviewed the books and records of the Minidoka Irrigation District, and there is no evidence that the water rights appurtenant to the described railroad rights of way were ever transferred to any other wateruser located within the Minidoka Irrigation District. As a result, it is my opinion that for the purposes of the Snake River Basin Adjudication, water rights should be assigned to these railroad rights of way.

9. An additional issue was created when Interstate 84 was constructed through the Minidoka Irrigation District during the 1960s. As a result of the construction, acres that formerly were irrigated became roadway and roadway rights of way.

10. For several years after construction of the interstate, the District would allow landowners located within the District to rent the "interstate water rights". These water rights were called "supplementary water".

11. In 1979, the District filed an action in the Minidoka County District Court requesting permission to enter into sale and transfer agreements authorizing the transfer of these water rights to landowners located within the District. This transfer was authorized by a Judgment dated

February 20, 1980, and provided a ten (10) year payment plan for the purchase of the water rights.

12. The transfer process for these water rights was occurring at the time the adjudication was commenced. Some of the acres had been transferred and applied to beneficial use before November of 1987.

13. I have reviewed the records of the Minidoka Irrigation District, and discovered that 299.13 acres either had not been transferred by November, 1987, but were transferred after that date, or had been transferred but not applied to beneficial use by November, 1987. Attached to this Affidavit is an itemization of the acres showing Minidoka Irrigation District's serial number, an abbreviated legal description, and the number of acres of supplementary water rights that were either transferred or applied to a beneficial use after November, 1987.

14. The acres described on Exhibit A should be included in the District's water rights as acres previously irrigated where Interstate I-84 now exists.

DATED this 6 day of October, 2005.

Michael L. Knight
Michael L. Knight

Thereupon, it further appeared to the Court that the special election held by and in the Minidoka Irrigation District in the Counties of Minidoka and Cassia, in the State of Idaho, on December 11, 1979, was in all ways lawfully, regularly, and legally called, held and conducted, and that the votes cast thereat were lawfully, regularly and legally counted and canvassed and that the results of the election and canvass was regularly and legally declared and entered, revealing that the Board of Directors of the Minidoka Irrigation District was authorized by said election to enter into sales and transfers of a pro-rata per acre share of the primary rights belonging to the members of the district to the members of the district using supplementary water of the district at a cost of \$50.89 per acre for those acres using supplementary water, such sale to be for cash or payable in installments of \$5.09 per year on or before March 1, of the next 10 years, beginning March 1, 1980, with interest on the principal amount deferred at 10% payable in like manner, copies of which proposal, Sale and Transfer Agreements were on file in the office of the District, and that by such sale and transfer agreements the Board of Directors, on behalf of the land owners in the district, will receive such payments from the purchasers of such primary rights, and it appearing that the Minidoka Irrigation District has no outstanding bonds, warrants or other indebtedness, except as to its obligation to the United States for the balance of the construction costs related to the purchase of 35,000 acre feet of storage rights in the Palasades Reservoir, and the United States has filed no objections to these proceedings; that the lands involved in such sale and transfer are the lands particularly described as being within the boundaries of the Minidoka Irrigation District, according to the official plat thereof now on file in the office of the County Recorder of Minidoka County, State of Idaho, which legal description is hereby incorporated herein.

The Court, being fully advised in the premises, ordered that the motion of the petitioner to strike paragraphs 1 and 2 of the prayer of said petition be granted and ordered that petitioner have judgment herein as otherwise prayed for in said petition.

NOW, THEREFORE, by virtue of the law and by reason of the premises aforesaid, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that the Board of Directors of the Minidoka Irrigation District may sell and transfer primary water rights belonging to the members of the District to the users of supplementary water in the District in accordance with this decree as authorized under the proceedings hereby confirmed in this cause.

DATED this 20th day of February, 1980.

RE: Minidoka Irrigation District

Dear Mike:

I received a call from Susan Hamlin. She advised me the Department would like a statement signed by a representative of MID pertaining to the water rights located along the railroad right of way and the interstate. MID's regular meeting is September 13th, and I will discuss this with the Board at that time. Following that meeting, I anticipate we will be able to prepare a statement with the required information.

Sincerely,

RE Minidoka Irrigation District Right of Way

Dear Mr. Fletcher:

I am writing in response to your letter dated July 15, 2005, to Michael Holliday. By review of the information that you have provided, the Idaho Department of Water Resources ("IDWR") remains unable to recommend the acres below the interstate highway as claimed by Minidoka Irrigation District. The documents do not show why the irrigation district has been unable to move the water to other lands.

Please provide additional documentation that you believe supports your contention that the acreage below the interstate highway should be included as irrigated acreage; please provide it to Michael Holliday at IDWR's Eastern Region Office at 900 N Skyline Dr. Ste. A, Idaho Falls, ID 83402-1718 by August 26, 2005.

If you should have any questions or comments, please feel free to contact me at (208) 287-4810.

Very Truly Yours,

A handwritten signature in black ink, appearing to read "Candice McHugh".

RE: Minidoka Irrigation District - Railroad Right of Way

Dear Mike:

Enclosed are documents furnished to us by the Bureau of Reclamation dating back to the early 1900s dealing with the railroad right of way claims. As the documents indicate, some of the railroads located within the Minidoka Irrigation District were built before the project was established and therefore no water rights were appurtenant. However, other railroads - including the railway line in question running west toward the City of Paul - were acquired from project settlers and construction charges were paid on this right of way. The water right that resulted has never been transferred from this right of way, as we discussed in your office.

The Bureau of Reclamation has maps dated within the same time frames showing the acreage in each farm unit that is at issue. We can obtain copies of those maps for you if you think that would be helpful. However, I believe that paragraph 3 of the August 10, 1915 letter and the fourth paragraph of the February 21, 1918 letter clearly indicate that these lands were part of the original project and construction charges were paid for these lands.

If we can supply you with any addition information, please let me know.

Sincerely,

FLETCHER LAW OFFICE

Kent Fletcher

PROFILED

Rupert, Idaho, August 10, 1915.

From Project Manager,

To Director & Chief Engineer (Through Chief of Construction)

Subject: Irrigable areas - Deductions for R.R. right-of-way,
Minidoka Project, Idaho.

1. I am in receipt of your wire of August 9 reading
as follows:

"Department considering regulation for survey irrigable
land and desires explanation of paragraph fourteen regarding
reasons for different arrangements concerning two railroads."

2. The Minidoka & Southwestern Railroad (Twin Falls
branch of the Oregon Short Line) was built about 1905 and had
acquired their right-of-way before the Minidoka Project was
constructed. The farm unit plats all showed, therefore, that
this right-of-way had been deducted and no construction or
operation and maintenance charges ever accrued against this
right-of-way.

3. All the other railroads, viz: North Side Branch
and Oakley Branch of the O. S. L.; also the Salt Lake & Idaho
R.R., have been constructed since the project was settled, and
the rights-of-way were purchased from the settlers. The set-
tlers were informed, whenever they made inquiry, that the con-
struction and operation and maintenance charges on the land they
sold for railroad right-of-way would have to be paid. In
practically all cases the railroad company paid them a fair
price; sufficient to cover the construction charge. The

2

of Directors of the Minidoka Irrigation District, the Board of Directors of the South Side Minidoka Water Users' Association, and the settlers affected do not object to the payment of the construction charge, as they understand that the Government must recover ~~part of~~ the cost of the project based on the irrigable acreage, and the irrigable acreage included these rights-of-way. What the officers of the organizations and settlers do object to is to be assessed for the operation and maintenance charges after they sold this land to the railroad and therefore have no use for the water on it, or can secure no production from it. As the operation and maintenance is an annual charge they would be obliged to pay this charge year after year. As stated above, they will pay the construction charge, for in time (20 years under the Extension Act) this charge will be paid up and stop, but the operation and maintenance charge would continue indefinitely. Therefore they wish to have two areas shown; one, including rights-of-way, for the construction charge and, another, excluding the railroad rights-of-way, for the operation and maintenance charge.

4. A more equitable way would be to make the railroads pay the charges, but I suppose their lawyers were clever enough in securing the deeds to throw the charges on the settler. I am of course, not able to pass on the legal aspect of the deeds, etc. The land, while irrigable before use as railroad right-of-way, becomes non-irrigable after the construction of the railroad.

C O P Y

DEPARTMENT OF THE INTERIOR

WASHINGTON

September 15, 1915.

D-59199

The Director of the
Reclamation Service.

Dear Mr. Director:

I am in receipt of your acting chief counsel's letter of July 15, 1915, submitting for consideration two forms of stipulation to be submitted to the Salt Lake and Idaho Railway Company whose application for a right of way embracing in part lands within the Minidoka Irrigation Project under act of March 3, 1875 (18 Stat., 482), is now pending before the Commissioner of the General Land Office, Bailey - 08274.

From the record in the General Land Office it appears that the railway company has constructed its right of way, the grading being completed so that it is now ready to lay the ties and rails. All of the lands within the irrigation project crossed by the right of way have been entered under the homestead laws and the railway company has purchased from each entryman the right of way as far as it affects each particular tract. The entrymen, it would appear, have conveyed to the railway company under Section 2288, Revised Statutes.

From the above it would appear that the railway company has already secured a right of way under the decision of the Supreme Court in Minidoka R.R.Co. v. United States (235 U.S., 211). However, there would appear to be no objection to approving the railway company's application in further assurance of its title.

One form of stipulation submitted is the general form approved by the Department January 31, 1913, and the other is a special form prepared by your district counsel. The special form differs principally from the general form in that it does not require the railway company to pay for the irrigable area embraced within its right of way. However, in view of the fact that the railway company has already secured its right of way from the homestead entrymen to whom it has paid the value of the lands affected, I deem it proper that in this case the form as submitted by the district counsel should be accepted and the same is hereby approved.

Very truly yours,

(Signed) Bo Sweeney.

352
BSS-FH.

Boise, Idaho, February 21, 1918.

Mr. J. B. Evans,
Tax Agent, Oregon Short Line R.R. Co.,
Salt Lake City, Utah.

Dear Sir:-

Replying to your letter of February 19, 1918, concerning the payment by the Railroad Company of charges in connection with water rights on the North Side branch crossing the Minidoka Irrigation District.

I wish to beg your pardon for my delay in answering your previous letter on this subject.

So far as the construction charges, which have to be paid to the Government on account of this land, are concerned, we have no authority to release the Company from such liability, and so far as I can see there is no legal or equitable reason why the charges should not be paid on this acreage at the same rate as the other lands of the project.

This branch of railroad was built sometime after the irrigation project was constructed and in constructing the irrigation project the Government provided sufficient capacity and sufficient water supply to irrigate the land which has since been occupied by the Railroad Company, as well as all other lands under the irrigation system, and if the Company did not pay on its acreage, the result would either be that the Government would have to lose a part of the construction cost through no fault of its own, or an additional charge would have to be levied on the other landowners. The cost of sufficient irrigation capacity for this land and sufficient water to irrigate it having already been incurred, and the land having been entered subject to this lien, I do not believe that any one, even the Secretary of the Interior, has authority to release the land until the charge has been paid.

As to the annual assessments for operation and maintenance of the canal system, I would say that the Minidoka Irrigation District now has charge of the operation of this canal system, and the settlers themselves, through their district organization, are handling their own operation so the method of distributing the annual operation and maintenance charge will rest to a large extent with the

officers of the District.

It is my understanding that the District has full legal authority to assess the railroad right of way for the operation and maintenance charge, the same as other lands, both as to the Twin Falls branch and the North Side branch. In this connection please refer to the case of Oregon Short Line Railroad Co. vs. Pioneer Irrigation District, 105 Pac. 904. But what policy the District may adopt as to the assessment of the railroad company for operation and maintenance charges, I do not know.

I understand that it is the policy of some districts to levy such assessments against the railroad company annually as in the case of Pioneer Irrigation District, but that other districts, such as the Hanna & Meridian Irrigation District, have not done so.

Very truly yours,

J. E. ANDERSON,

District Counsel.

IN THE DISTRICT COURT OF THE FIFTH JUDICIAL DISTRICT OF
THE STATE OF IDAHO, IN AND FOR THE COUNTY OF MINIDOKA

IN THE MATTER OF THE PETITION
of the BOARD OF DIRECTORS of
the MINIDOKA IRRIGATION DISTRICT,
organized and existing under the
laws of the State of Idaho,

-vs-

All persons having interest in
or claim against the Minidoka
Irrigation District and the
unknown owners, heirs, devisees,
claimants or otherwise of
such persons.

Case No. 7713

JUDGMENT

The petition of the Board of Directors of the Minidoka Irrigation District requesting this Court to determine the validity of the proceedings heretofore conducted by the Minidoka Irrigation District with respect to the special election held on December 11, 1979, for the purpose of determining whether or not the Board of Directors of the Minidoka Irrigation District should be authorized to enter into Sale and Transfer Agreements for the sale of a portion of the primary water rights of said District to the members thereof using supplementary water, all of which more fully appears in the plaintiffs' petition and exhibits filed herein and to which reference is hereby made, came on regularly for hearing on the 19th day of February, 1980. The petitioner appeared by its secretary, Nelda Spevak, and its attorney, Lawrence H. Duffin; the defendants failed to appear, either in person or by counsel.

Thereupon it appeared to the Court that the defendants had been duly and regularly served with summons by publication thereof in the manner directed and required by law, and that the summons, complaint and order, and all other papers upon which such order was made were duly filed in the office of the Clerk of the District Court, in and for the County of Minidoka, State of Idaho, and that the statutory time for pleading to or answering said complaint has expired and that all of the defendants have failed to plead to or answer said complaint, and the default of said defendants has been entered. Witnesses on behalf of the petitioner were sworn and examined and the petitioner rested.

Re: Large POU map for Minidoka Irrigation District

Danielle recently sent me a copy of the maps containing the latest pou revisions submitted by the Minidoka Irrigation District. After comparing the District's shapes with the aerial photos and the USGS quad maps, I found that irrigation was difficult to confirm for a substantial number of acres. One of the biggest problems was that many of the major canals, drains, and roads were included in the District's shape file. I edited their file to remove acres that did not appear to be irrigated in townships 8S 24E, 8S 25E, 9S 24E, and 9S 25E.

Because of the time required to remove the acreage in arcview, I did not edit the remaining townships in the District (9S 22E, 9S 23E, 10S 22E, 10S 23E, and 10S 24E). However, I did review those townships and identified the lands that did not appear to be irrigated with a black marker on paper maps sent to me by Danielle. I did not identify major roads, drains, and canals on those maps, but the District's shape file needed to be edited to remove those features from the acre count as well. Eric Norquest, after receiving the marked up maps completed the editing work on the remaining 5 townships based on the marked up maps. The resulting shape file was named "minidoka acres 6-2-05.shp."

The District then reviewed our revised shape file ("minidoka acres 6-2-05.shp") and submitted another shape file ("added-pou.shp") displaying irrigated acres that they believe should be added to the total acres counted.

The purpose of today's meeting was to review evidence submitted by the District in support of the inclusion of the additional acres shown in "added-pou.shp". Meeting attendees included representatives of MID (Ruth Bailes, Michael Wilkins, Bill Thompson, and their attorney, Kent Fletcher) and Michael Holliday.

After comparing the District's aerial photographs and with "added-pou.shp" I was adequately convinced that the acres shown in that shape file had been irrigated prior to 1987. The acreage along the interstate was counted, even though it became exluded land in 1980, because the owners of the newly annexed replacement lands had until 1990 to complete their projects, and the newly annexed lands were not included in the count.

Mr. Fletcher said that the District is also searching for evidence to substantiate the former irrigation of what is now a 10 mile stretch of railroad right of way. A 100 foot wide right of way would amount to an additional 120 irrigated acres.

Holliday, Michael

To: Minidoka Irrigation District (E-mail)
Subject: boundary & acres shape files

Hi Ruth.

Attached is the latest version of the boundary and irrigated acres shape files for the district. I have removed county roads and major canals from the count. I also removed some ground that appeared never to have been irrigated (based on the 1987 aerial photography and USGS quad maps). Please review these files and respond by June 16, 2005.

If your review confirms that there are no changes required, then a representative of the company needs to sign and date the enclosed acknowledgement letter. The signed acknowledgement letter should then be returned to me at the Eastern Region office.

If it appears to you that these files do not adequately reflect the district's irrigated acreage and boundary, please contact our office to set up an appointment to discuss your areas of concern. Thanks for your efforts on this.
