Re: Large POU map for Lenroot Canal and Reid Canal

Met with Lynn Nelson and Glen Munns today to discuss their map. This was in direct response to questions raised yesterday in my discussion with Rod Robison of the Reid Canal. Glen Munns has Reid shares on a portion of his land and Lenroot shares on the rest of his land. Glen identified the acreage irrigated by the Reid Canal and I created a shape in my place of use theme corresponding to the Reid shares. The Reid shares are located in a portion (28 acres) of the west half of the NW quarter of section 30.

According to Lynn Nelson, the SWNE and the east half of the NW quarter of section 35 (the Dee Bowen place) is irrigated with Reid and Lenroot shares and the shares from both canals can be used anywhere on the place. Yesterday, Rod Robison said that the Reid has 40 acres on this land. Lynn Nelson said that he would let me know the number of acres the Lenroot has on the place.

Rod Robison said that the land where the freeway crosses the Reid Canal service area was all irrigated prior to its construction. He said Rainbow Lake and vicinity was also irrigated up through 1978.

Subject: Lenroot Canal

Danielle, In the next couple of days you should receive a map for the Lenroot Canal. Company representatives have marked the service area boundary plus land they want added as irrigated acres. There is a shape file (PouID 698890) in the Recommendation POU theme reflecting the updated boundary, it is linked to the recommendation for 1-97. Please add this boundary to the irrigation companies shape file. Also prepare a new map with the updated boundary and irrigated acres.

Mail it to:

Lynn Nelson
617 W 7800 S
Rexburg ID 83440

Phone No.: 356-8281

Send Michael Holliday here at Eastern a shapefile of the irrigated acres. He will need it to complete the recommendation for the canal.

Thanks for your help. Feel free to call me if you have questions
