IDAHO DEPARTMENT OF WATER RESOURCES
PRELIMINARY RECOMMENDATION OF WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 1-104

NAME AND ADDRESS: LIBERTY PARK IRRIGATION CO INC
C/O ORA LEE BENNETT
5293 S 4300 W
REXBURG ID 83440

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 8.000 CFS

PRIORITY DATE: 06/01/1885

POINT OF DIVERSION:

T04N R40E S6 SWSW Lot 7 Within MADISON County

PURPOSE AND
PERIOD OF USE:

PURPOSE OF USE

PERIOD OF USE

QUANTITY

IRRIGATION

04/01 10/31

8.000 CFS

PLACE OF USE:

4047 ACRES TOTAL

Place of use is within the area served by Liberty Park Irrigation Company.

The boundary encompassing the place of use for this water right is described with a digital boundary as defined by I.C. Section 42-202B(2) and authorized pursuant to I.C. Section 42-1411(2)(h). The data comprising the digital boundary are incorporated herein by reference and are stored on a CD-ROM disk issued in duplicate originals on file with the SRBA District Court and the Idaho Department of Water Resources. A map depicting the place of use is attached hereto to illustrate the place of use described by the digital boundary.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Decreed

Water is delivered through Liberty Park Canal.

T05N R39E S28 NWNE:

The green line is the "fixed" boundary you sent me on Friday and the purple line is the recommended boundary. It looks like the purple line follows the dike that separates BLM and private grounds. It looks like some of the field was cut out. Should it be kept in?

Other than that, which doesn't affect BLM, the "fixed" boundary looks good.

Re: Supporting documentation for Stock Water or Ground Water Recharge

Dear Claimant:

Over the past several months, numerous meetings have taken place with individuals and representatives of water delivery organizations in the upper Snake River Valley and the Idaho Department of Water Resources (IDWR) concerning claims for the non-irrigation season diversion of stock water and ground water recharge. In response to these meetings the following criteria were identified for evaluating and recommending these two uses.

- The claimant will have to provide documentation that verifies a historical practice of diverting water during the non-irrigation season for the purpose of providing stock water and ground water recharge. An example would be copies of the minutes for a water delivery organization referencing the diversion of water for these two uses. This information also will be used to help establish the priority date of the use.
- The claimant needs to provide copies of records showing the quantity of water historically diverted during the non-irrigation season. These records will be used as a basis for recommending the diversion rates for these two uses.
- The claimant will have to provide documents, written statements and/or affidavits from individuals who have witnessed the non-irrigation season diversion of water. These individuals need to provide a historical perspective based on actual observation.

Claimants need to assess their historic diversion requirements for stock water and ground water recharge. The quantity of water claimed for non-irrigation season stock water should be the amount needed to reach the end of the delivery system plus provide drinking water for stock. Claimants should not rely upon ground water recharge as a use to supplement the stock water in order for water to reach the end of the delivery system. *Claimants holding Winter Water Savings contracts may have lost their right to divert water for 150 days between November 1 and April 30 through either abandonment or forfeiture or may have a modified season of use depending on a case-by-case review of the facts.*

For some claimants, amending claims, or filing new claims, to reflect the historic quantity for stock water will result in a substantial filing fee (\$200 per cfs). This fee is not refundable, which emphasizes the importance of providing documentation that supports the claimed uses.

If you or the organization you represent have already amended one or more claims and provided the documentation identified above, you may disregard this letter. Individuals or organizations
