Carter,

I had a request from Water Distribution to pursue a correction to a B37 partial decree. 37-2732 POD was claimed correctly in the NWNWNW (no map with PODS), but SRBA review of permit and transfer maps concluded the well should be described as SWNWNW. GIS basically confirms that the old maps were wrong and the POD would be in the NWNWNW. Claimant received preliminary recommendation and layout without response and did not object. That is how it is decreed. Now Tim would like this corrected as clerical error. 10 acre tract is not very significant.

My opinion was that it is too late and a transfer (no need to advertize) is needed. Tim responded that he feels it is not claimant's responsibility.

Should AJ be involved? When does it end? Who is the attorney and paralegal for this area now?

Thanks, Doug

Comment: Transfer was approved in 1986 which added a second well. Only the old one appeared to be claimed, but I added the second one. PoU is per GIS of 1987 aerial photo using the entire tax lot. Even though license showed 97 acres, this claimant only owns about 91 acres, as the Highway runs along the eastern edge.
