To Whom It May Concern:

The Board of Directors of the Riverside Canal Co. has deemed that the service area boundary of the Riverside Canal Co. is illustrated accurately, without modifications, and in its entirety on the map(s) created by Danielle Favreau on November 28, 2005. Additionally, the previously identified map(s) accurately illustrate the location of land serviced by the company as of 1987. We understand that in the process of finalizing the SRBA recommendations, these maps may be adjusted.

Re: Large POU map for Riverside Canal Co.

I met with Ted Cook and another representative of the Riverside Canal today. They were concerned that not enough acres had been identified on their map. They said that they talked with Todd Lambert regarding the acreage that he irrigated on his property located in the northwest quarter of 2S 35E 13. Attached is a hand drawn map showing the irrigated land and the methods used to irrigate it in 1970. Todd said that 90 acres of his property were irrigated prior to 1987.

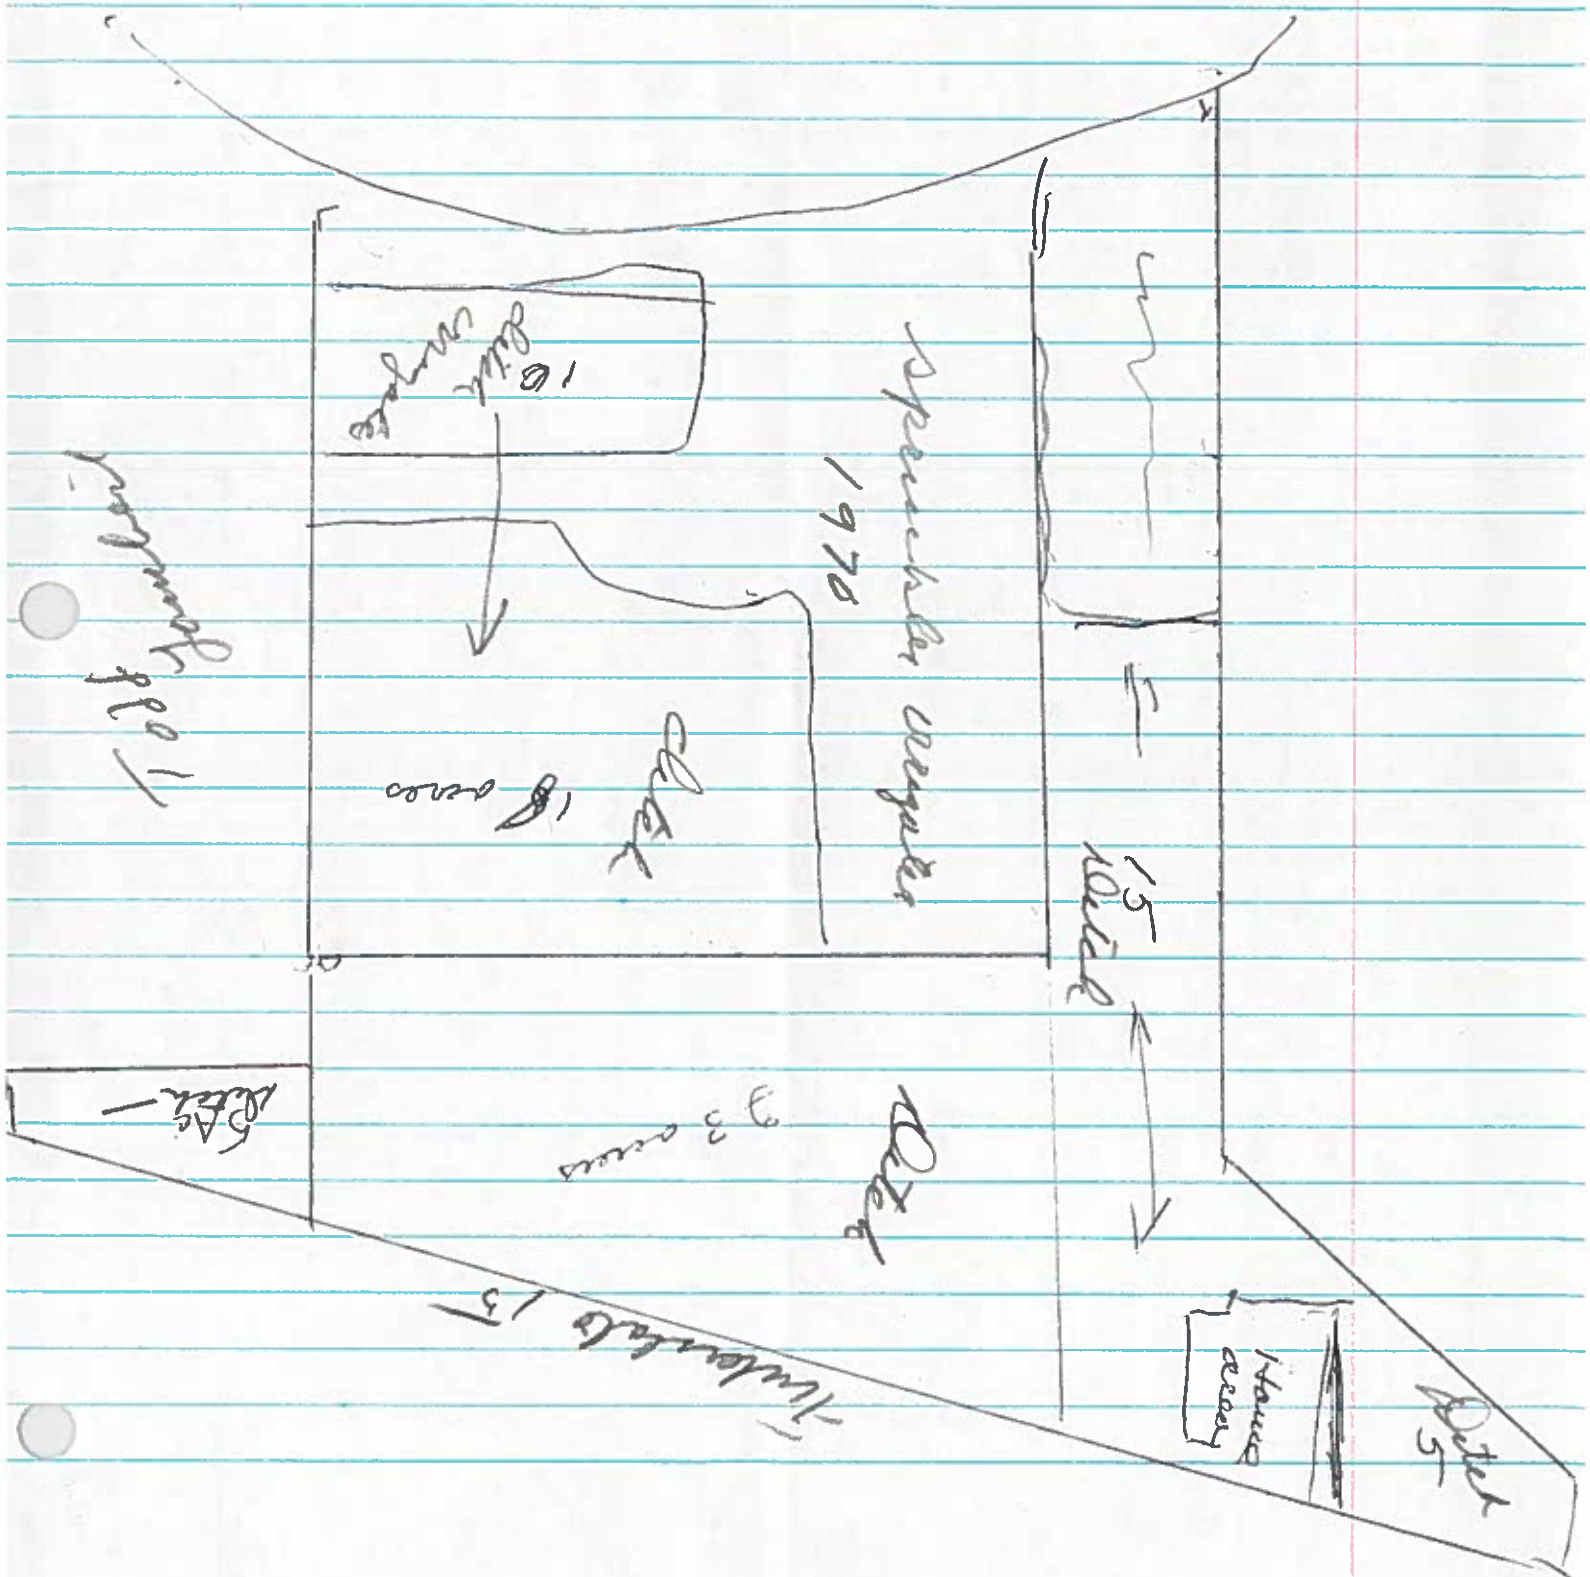

Just south of the Lambert property described above is a gravel pit. Ted said that at least some of that land was irrigated prior to the existence of the gravel pit. He will contact me once he finds additional evidence showing how much of that area was irrigated.

Ted also identified a field in the northwest quarter of 2S 35E 23 that he believed should be added to the canal's acreage. He will contact me regarding that field after further research.

Ted also identified other land that had been omitted from their map. Ted said that the land he marked in the southwest quarter of 2S 35E 33 was farmland irrigated by Riverside shares prior to urbanization. He said the shares have not been moved elsewhere.

Ted said that the south half of 2S 34E 24 can physically be irrigated by either the Riverside or the Danskin. However, the Riverside has issued shares for two thirds of the acreage and the Danskin has issued shares for one third of the acreage. Therefore, I adjusted the Riverside shape to show two thirds of that acreage as Riverside acres. The Danskin shape file needs adjustment as well. There are several acreage overlaps between the two companies.
