Re: 95-14520

Dear Mr. Gibson:

We are returning your Notice of Claim. It appears that you filed an application and received a water right license (95-8685). If this is your license then you should make the information on the Notice of Claim match the license and return the claim to our office.

If the water from the seasonal spring was developed after May 20, 1971, an application needed to be filed. We see no indication that an application was made for the spring.

Sincerely,

A handwritten signature in black ink, appearing to read 'Knoblock', is written over a horizontal line.
