REPLY

Please type or print clearly, fill out this form completely and mail.

Return this reply form to IDWR by the deadline date printed below if you want IDWR to change your recommendation or you want to let IDWR know that you agree with its recommendation.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

NSCC disagrees with the number of irrigated acres identified in the proposed recommendation. NSCC also disagrees with the identified limitation of acres that may be irrigated within a single irrigation season.

2. Describe the changes you wish to make in the proposed recommendation:

The number of irrigated acres should be recommended as claimed 161,369.61. NSCC is currently in the process of modifying IDWR's initial ArcView shapefile to accurately reflect the total number of irrigated acres within the project. The updated information will be provided to IDWR in an electronic format as soon as possible.

The following remark should be removed:

This right is limited to the irrigation of 31,843 acres within the place of use described above in a single irrigation season.

In addition, the following remark should be added to accurately describe NSCC's water delivery system:

Water diverted pursuant to this right and water right nos. 1-5, 1-16, 1-210, 1-213, 1-215, and 1-220 is conveyed through and stored in the Main Canal, the Milner-Gooding Canal, the P A Lateral, Wilson Lake, numerous canals, laterals, coulees, and regulating ponds located throughout the project.

3. Give a brief explanation as to why you disagree with these portions:

The preliminary recommendation incorrectly identifies 155,787 total acres within the place of use. The water right is appurtenant to and used within NSCC's entire project, not just the acres in the "First Segregation."

I AGREE with this proposed recommendation: no changes need to be made.

Re: Snake River Basin Adjudication (SRBA)
A01-00212 et al

NOV 29 1991

Dear Ted,

RECEIVED

The map and computer reports enclosed with this letter are supplied to assist you or your assistants identify possible discrepancies in the claims that have been filed to date. These claims may be filed either by the Company or claimants within the Company for separate sources of water. These are reports of the computer records, and the problem in description may result from a data entry error rather than a possible oversight at the time of filing. Both circumstances can be corrected by your review.

The report ADJUDICATION-POU-INDEX (Place of Use) is a listing by sorted legal description of the lands claimed by the Company. This list was used to prepare the enclosed maps. Initially you will see the claimant identified as the Company, the water uses as 01 (irrigation) and the source as Snake River with a claim number suffix that is unfamiliar to you. Much of the report has the water use as 39 and claimant and source as Large Claim. Don't be alarmed. Although the actual claim is numbered A01-00212, the suffix Z0, Z1, Z2 and large claim have been utilized for computer processing purposes. The reports for the court will have this extraneous data stripped, and the water right will appear as a single record.

The map of the lands claimed by the Company are intended to provide a quick overview. The exact acreage within any given 40-acre tract would be nearly impossible to identify and illustrate. To speed your review, any solid pink blocks within the lands claimed by the Company are areas not claimed.

One problem I saw from the POU-INDEX is more than one record had the same description and number of acres, effectively inflating the total number of acres in all claim records. Now or later, these data entry overlaps must be identified and resolved.

The second set of reports, NORTHSIDE-00n-POU-COMParison, utilized the legal description from the Company's claims and searched for other claims filed in the same section. The acreage described in each tract is shown with the total for a claim within a section shown to the right. At the bottom of each section is the mapping acreage by legal subdivision. The mapping data is produced by a technique that integrates interpreted satellite data for each county with the public land survey system. As such, the mapping data is not absolutely correct always, but it does give information about the relative extent of irrigated lands. Two mapping figures given for a section indicate the data is from two different counties.

When the map is used in conjunction with the computer reports POU-COM, a picture of what the Company claimed for a given tract can be compared with the possible claim(s) filed by individuals and the irrigated acres identified by the interpreted satellite imagery data.

If you have questions about these reports, I would be happy to respond as they arise. The staff in the Twin Falls office is also familiar with these reports and may of better assistance than I am. Please feel free to contact either office.

Sincerely,

Donald V. Shaff

RE: Snake River Basin Adjudication (SRBA)
Jerome County - A01-000005, et al

Department of Water Resources
Eastern District Office

Dear Ted,

The computer printout with this letter contains the list of owners with an apparent record interest in properties in an area identified as Basin 36. These owners were determined from the research in the county records and may have unclaimed water rights.

By and large, the list of names is in alphabetical order. The order is not exact because data entry of government tracts (e.g., A, B, C) appeared at the first of the last name. Associated with each name is an address, if known, and the legal description of the property to the 40-acre tract, government lot or government tract.

Good progress is being made here to provide you with a map of the place of use described in the current claims. Also, computer reports are being prepared that will show irrigated acres by survey subdivision compared to the claims filed and associated lands that may not be claimed. This effort is for the purpose of assisting you to determine whether lands receiving water from the North Side are properly covered by water right claims. You should have these products in the near future.

Thanks for your help with the adjudication.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section

Dear Lori:

As we discussed this morning, I would like to have you do a computer run of the North Side Canal Company lands legal description as you/the Department did previously for the Twin Falls Canal Company. I understand that this will happen sometime in the near future, but not immediately.

I called Crystal at North Side Canal Company and let her know that the review would be forthcoming, but not immediately so that she can advise staff there who receive inquiries from claimants regarding refunds.

As always thank you for your help and your continuing interest in getting these sometimes complicated claims squared away.

Best wishes.

Very truly yours,

Dear Lori:

Thanks for reviewing the Northside Canal Co./North Side Pumping Co. SRBA adjudication claims with me this morning. As we discussed, the following typographical errors need to be corrected:

1. Domestic claims--A36-14906, A36-14907, A36-14908, and A36-14909 need to have the claimant named as entered changed from Northside Canal Co. Ltd. to North Side Pumping Co.

2. Claim A01-10043C needs to be changed to A01-10043A. This is the storage claim for Palisades dam which apparently is identified with a typographical error. Additionally, the carbons of the original claim forms may have been reversed between this claim and A01-10045B for Jackson Lake Dam. Would you check to see that the correct carbons are with the correct original copies and see that the identifying capital letter is switched to be in accordance with the water right number?

Thanks again for your help in seeing this rather complicated set of paper work through to the end. Please send me copies of the corrections when you enter them into the database and the SRBA file for Northside Canal Co. and North Side Pumping Co.

Very truly yours,

ATTACHMENT FOR NO. 14 "REMARKS"
(North Side Canal Company)

Wilson Lake is the re-regulating reservoir for the 2nd and 3rd segregations of the North Side Canal Company (NSCC) system, while it is generally filled in the spring with October 7, 1905 priority water if flood waters are not available. (Right No. 4 in the Foster Decree).

The reservoir is emptied each fall at the end of the irrigation season and is the last Snake River water delivered for irrigation and stock watering.
