OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

The delivery of water to this right may be subject to the provisions for winter power operation at the Minidoka power plant as recognized in the Burley Irrigation Dist. v. Eagle, Supplemental Decree (Idaho 5th Jud. Dist., July 10, 1968) and Aberdeen-Springfield Canal Co. v. Eagle, Supplemental Decree (Idaho 7th Jud. Dist., March 12, 1969).

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

The Director of the Idaho Department of Water Resources shall determine what part of the water flowing in the Snake River at the Minidoka and Milner Dams is storage waters and what part is natural flow. The amount of natural flow shall be determined as such natural flow would be, if unaffected by the diversions or acts of the parties to Twin Falls Canal Co v Foster, Decree (4th Jud. Dist., Twin Falls Co., June 20, 1913). The natural flow to which the Twin Falls Canal Company and the Northside Canal Company are entitled shall be measured at the Milner Dam.
