RE: Coeur d'Alene-Spokane River Basin Adjudication (CSRBA) claim 95-7740

Dear Mr. De Tar,

The Idaho Department of Water Resources (IDWR) is currently in the process of reviewing CSRBA claims in your area. On May 10, 2013, the Idaho Department of Water Resources received notice of claim to a water right 95-7740. Upon closer review of the claim, I found two issues that need to be resolved before IDWR can move forward making a recommendation.

Issue 1:

Item 9. Place of use was left blank on the claim. In order for the claim to be complete, a **place of use** needs to be included on the claim. Because the claim is based on license 95-7740, I have prepared an amended claim that describes the place of use as it is described on license 95-7740.

Please Note, if the claim is not amended to add the place of use, **IDWR will have no option but to reject the claim.**

Issue 2:

In order to recognize wildlife storage as a purpose of use, additional filing fees are required. Claim 95-7740 was submitted with \$25 in filing fees¹. The \$25 claim filing fee is applicable to deferrable Domestic and Stockwater claims only. The filing fee for 95-7740 is as claimed is:

\$50 claim fee
\$ 1 variable fee
\$51 total

An additional \$26 in filing fees is required for IDWR to consider wildlife storage as a purpose of use when preparing a recommendation.

Please look over the amended claim and initial any changes you wish to make. When satisfied, sign the claim and return it to my attention by **September 8, 2017**.

I know this is coming to you out of the blue, so please feel free to contact me if you have any questions.
