Fwd: FW: Re: Lake
Walcott

Here's some information on Walcott Park that I got from Idaho Parks and Recreation. They have a contract to operate and maintain the park.

lake walcott.pdf

FYI, from IDPR's water rights specialist.

Pam a cursory search from our water rights guy. Please pass along to the appropriate person. Ron said he'd be happy to speak with your water person (Dala) if necessary.

Garth,

I checked for any water rights for the lands located in T09S,R25E,S01 for irrigation.

I came up with:

BOR right 01-219: Prior decreed right (Source is Snake River). This claim includes irrigation 125,200 acres according to IDWR's web page. I believe their land list legal description includes lands located in T09S,R25E,S01. Thus, possibly including all the irrigated lands in the Lake Walcott Park.

Normally Idaho Department of Water Resources will recommend a service area boundary. If the park is in it, I would guess its covered by this right...

BOR right 01-4048: This right is a statutory claim BOR will need to submit evidence of priority for it, however, they may not need to if their service boundary covers the irrigation under prior decreed right 01-219. This right is kind of strange because it was claimed for 2.8 CFS which could cover 140 acres of irrigation and only claimed 15 acres and the point of diversion is the Minidoka dam.

I'm attaching a PDF that shows 38.1 acres of irrigation for your info.

>>> Dala Walton 3/30/2005 3:11:04 PM >>>

Gary Young (our GIS specialist) did a GIS map showing we irrigate 29 acres now. I found where we irrigated 5 acres in 1913. So, if they have any proof on when we got from 5 to 29 that would help. They would know if there has been any expansion since they took over the park. We cannot expand any more without getting a water right first, or IDWR will give us a cease and desist. They should probably be aware of that, too.

We found a few things. I have sent the information on to IDWR, so we will see what they make of it. I think we have proof that in 1940 we were diverting enough to operate the current system. So, even if we have expanded the acres, we were diverting enough to have a beneficial use claim. If doesn't mean much, because the right is so junior we will have to rent storage water or something to irrigate. But it keeps up from subordination of our water right to 1994, so that is good. I never

found any proof of the acreage after the CCC work, however. That would have been nice to have.

>>> Pam B Brown 03/30/05 01:53PM >>>

Dala, I have gone through all my "stuff" and haven't found any additional information.....sorry. Has Bert found anything?

LAKE WALCOTT

Approximate irrigated
acres = 38.1

(7) If you are claiming water as a member of an organization, list name of organization: United States of America

- (8) Remarks Irrigation at Walcott Park. Water was diverted in 1907 to a very small amount of land including a few trees. As usage by the general public became greater more water was used as the park expanded. This park is used extensively by the general public.

Scale: 2 inches equal 1 mile.

Map should show the location of the point of diversion and the place of use of the water by 40-acre subdivisions, section, township and range of the public land survey system.

State of Idaho)
County of Ada) ss.

Be it known that the undersigned, being duly sworn, deposes and says that he, she, they subscribed the foregoing claim to a water right, together with all attached information, and that the matters and facts therein are true to the best of the affiant's knowledge.

John W. Keys, Jr.
Acting Regional Director (Claimant)

☒ Point of Diversion
☐ Place of Use

5B. Originally a small pump of unknown size and capacity was used as means of diversion. As the park expanded larger systems had to be used until about 1940, 4 pumps were used to irrigate the park as follows:

60 gpm - HP =
80 gpm - HP =
200 gpm - HP =
500 gpm - HP = 25 - 8 inch

These 4 pumps pumped into gravity ditches that distributed the water throughout the park. In 1980 the park was enlarged and the irrigation system was upgraded in that now most of the park is sprinkler irrigated by 2 pumps of 25 HP and 400 gpm each. These pumps discharge into the sprinkler system by means of an 8-inch pipe. The 8 inch, 500 gpm, HP = 25 pump shown above will remain in service and gravity irrigate a small portion of the park.

DON SHAFF & LYNN KROGH-HAMPE

SUBJECT: REVIEW OF USBR CLAIMS AROUND MINIDOKA DAM

ON JUNE 7, 1991 I VISITED MINIDOKA DAM AND MET WITH JOHN FENNELLS THE DAM TENDER AND OTHER MEMBERS OF THE STAFF TO LOCATE THE WELLS AND PUMPS AS DESCRIBED ON THE USBR'S CLAIMS. THE ATTACHED MAP SUMMARIZES THE LOCATIONS OF THE IMPORTANT FEATURES WITH THE FOLLOWING REMARKS.

ITEM #1 IS THE WELL REPORTED TO BE DRILLED IN 1970. THIS WELL IS CLAIMED UNDER A36-11118. THE WELL IS PRESENTLY UNUSED AND R36-11118 HAS BEEN CREATED RECOMMENDING DISALLOWAL. NO BENEFICIAL USE HAS BEEN FOUND.

ITEM #2 IS THE WELL REPORTED TO BE DRILLED IN 1972. THIS WELL WAS REPORTED TO BE DEVELOPED FOR USE IN 1990 WHEN THE PUMP HOUSE WITH THE PUMP AND THE 6920 GALLON STORAGE TANK WERE INSTALLED. THIS PUMP (20 H.P. U.S. MOTOR ID# F429/S08S348R065F-3) PRESENTLY SERVES ALL DOMESTIC WATER FOR THE DAM AND PARK AREA. THIS INCLUDES WATER TO DRINKING FOUNTAINS AND SPIGOTS (8) IN THE PARK, WATER FOR THE FISH AND WILDLIFE OFFICE & BUILDINGS, AS WELL AS POTABLE WATER USED AT THE DAM AND SURROUNDING FACILITIES. THE USE OF THIS WELL REPLACES THE USE OF THE SPRING IDENTIFIED IN ITEM #7. THIS WELL IS CLAIMED UNDER A36-11115 AND BEING RECOMMENDED UNDER R36-11115 WITH THE INTENT THAT THE RECOMMENDED USE BE DOMESTIC UNDER THE PART (B) DEFINITION WHERE IT IS LIMITED TO 2500 GAL/DAY. ANY USE BEYOND THIS LIMIT SHOULD BE PERFECTED BY FILING FOR A WATER PERMIT SINCE THE USE WAS ESTABLISHED AFTER 1963.

ITEMS #3, #4, #5 & #6 ARE THE DIVERSIONS OF WATER FOR IRRIGATION WITHIN THE PARK. THIS USE IS COVERED UNDER A01-04048. ITEM #3 IS A LARGE PUMP ON THE BANK OF THE RESERVIOR. THIS PUMP IRRIGATES APPROX. 1/4 OF THE PARK. ITEM #4 IS A SMALL PUMP IN THE BOAT HOUSE OF THE FISH & WILDLIFE SERVICE FOR THE SMALL LAWN AROUND THE OFFICE. ITEM #5 IS TWO PUMPS NEAR THE CONTROL GATES OF THE DIVERSION CANAL. THESE PUMPS IRRIGATE APPROX. 3/4 OF THE PARK. ITEM #6 IS A PUMP IN THE CANAL WHICH WATERS A BELT OF TREES ON THE WEST SIDE OF THE PARK.

ITEM #7 & #8 THESE ARE THE SPRINGS WHICH ORIGINALLY SERVED THE POTABLE WATER SUPPLY TO THE DAM & FACILITIES AND WATER IN THE PARK UNTIL REPLACED BY THE WELL DESCRIBED IN ITEM #2. ITEM #8 IS A SPRING WITHIN THE POWER HOUSE WHICH WAS THE FIRST SPRING DEVELOPED WHEN THE DAM WAS BUILT IN 1909. IT WAS REPORTED THAT THIS SPRING WAS OBLITERATED IN THE 1940'S WHEN UNIT #7 WAS BUILT; SPRING AT ITEM #7 WAS DEVELOPED WHICH REPLACED THE SPRING AT ITEM #8. THE USE OF THE SPRING WATER IS CLAIMED UNDER A36-11114 AND HAS BEEN RECOMMENDED UNDER R36-11114 ALTHOUGH THE USE OF THIS SPRING HAS BEEN DISCONTINUED IN 1990 BY DEVELOPMENT OF THE WELL.
