On August 10, 1909, you submitted a Notice of Claim in the North Idaho Adjudication. The date of priority is listed as August 10, 2009. When a new diversion of surface water is started after May 20, 1971, an appropriation permit had to be obtained first. The date of priority is the date the water was first used regardless of who owned the property. If the priority date of your claim is incorrect then an amended claim can be submitted and we would need some type of documentation supporting the date.

Sincerely,

Dear Mr. Borlase:

Thank you your letter of August 27, 2010, describing your use of water from Hayden Lake.

On April 10, 1969, an adjudication process was started to determine the water rights from Hayden Lake. It appears that your property at that time was owned by John J. Schafhausen. He filed two claims with the court and they were disallowed because they were part of the Honeysuckle Hills domestic system. A copy of the decision is enclosed. Based on this we will recommend a date of priority for your right of April 11, 1969.

If you have any questions, feel free to contact us.

Sincerely,

Kenneth Knoblock
Water Resources Supervisor
