CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

The United States of America acting through the Regional Director
Pacific Northwest Region, Bureau of Reclamation

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) 1948

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
Snake River tributary to Columbia River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

HISTORIES PREVIOUSLY SUBMITTED

Volume VII is the seventh Annual Project History of the construction and development of Palisades Project. The project year 1957 was the sixth year of major construction since the project was authorized. This season's activities included the completion of construction of the dam, powerplant, spillway tunnel, and switchyard; continuation of concrete placement for control house and manifold installation for outlet works; installation of equipment and machinery in outlet-works control house; installation of equipment and machinery for the powerplant; and completion of three generators for production of power.

Past Histories:

Volume VI Calendar Year 1956 - The fifth year of major construction continued construction of the dam, powerplant, spillway tunnel, and installation of equipment and machinery for the powerplant and switchyard.

Volume V Calendar Year 1955 - The fourth year of major construction continued construction of the dam, powerplant, roads, reservoir, and transmission lines.

Volume IV Calendar Year 1954 - The third year of major construction continued construction of the dam, powerplant, roads, reservoir, and Government townsite. Diversion of the river was accomplished.

Volume III Calendar Year 1953 - The second year of major construction was primarily devoted to construction activities on the dam, reservoir, roads, and Government townsite.

Volume II Calendar Year 1952 - Contains activities of the first year of major construction. Work was begun on construction of tunnels, dam embankment, road relocation, townsite, and other minor features.

Volume I Before Calendar Year 1952 (not completed) -
This volume will contain the following:

Early investigations and determination of dam site, initial authorization of the project, preconstruction activities, construction of a portion of the temporary camp facilities, construction of the Palisades-Goshen Transmission Line No. 1, first section of relocated highway, and reauthorization of the project.
