

IDAHO DEPARTMENT OF WATER RESOURCES
RECOMMENDED WATER RIGHTS ACQUIRED UNDER STATE LAW

RIGHT NUMBER: 1-4055

NAME AND ADDRESS: UNITED STATES OF AMERICA ACTING THROUGH
REGIONAL DIRECTOR PN REGION
BUREAU OF RECLAMATION PN-3100
1150 N CURTIS RD STE 100
BOISE ID 83706-1234

SOURCE: SNAKE RIVER

TRIBUTARY: COLUMBIA RIVER

QUANTITY: 299,000.00 AFY

The quantity for this water right must be determined by the state of Wyoming. The listing of this element is for informational purposes only.

PRIORITY DATE: 08/23/1906

The priority date for this water right must be determined by the state of Wyoming. The listing of this element is for informational purposes only.

POINT OF
DIVERSION:

T03S R46E S10 SWNE Within BONNEVILLE County

The point of diversion is the outlet at Jackson Lake Reservoir Dam.

The point of diversion for this water right is in Wyoming, T45N, R114W, S18, SESW, P.M.

The point of diversion shown above is where the Snake River enters Idaho.

PURPOSE AND
PERIOD OF USE:

<u>PURPOSE OF USE</u>	<u>PERIOD OF USE</u>	<u>QUANTITY</u>
IRRIGATION STORAGE	01/01 12/31	299,000.00 AFY
IRRIGATION FROM STORAGE	03/15 11/15	299,000.00 AFY

PLACE OF USE:

Place of use for irrigation from storage is within the following counties: Fremont, Madison, Jefferson, Bonneville, Bingham, Bannock, Power, Minidoka, Cassia, Lincoln, Jerome, Twin Falls, Gooding, and Elmore.

OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

This water right is also recorded as The State of Wyoming Certificate of Construction of Reservoir, Certificate No. R-6, Permit No. 894 Res.

EXPLANATORY MATERIAL: BASIS OF CLAIM - License

THE STATE OF WYOMING
Certificate of Construction of Reservoir
U. S. Department of the Interior
Bureau of Reclamation
WHEREAS, Jackson Lake Reservoir, Permit No. 894, has presented to the State Board of Control of the State of Wyoming, proof of construction of the Reservoir, Permit No. 894, Res. located in Teton County, Wyoming; and SEE ATTACHED TABULATION Section

the Reservoir is obtained from Snake River Reservoir, as constructed on which the reservoir is located, and

Whereas, the proof of construction sets forth that said reservoir has been completed in accordance with the terms of said permit to a capacity sufficient to impound 299,000 acre-feet of water; and that the source of the quantity of water authorized to be stored in the Jackson Lake

Reservoir is obtained from Snake River Reservoir, as constructed on which the reservoir is located, and

NOW KNOW YE, That the State Board of Control, under the provisions of the Statutes of Wyoming, has by an order duly made and entered on the 13th day of August, A. D. 1971, in Order Record No. 19, Page 77, determined the priority and capacity of said reservoir as follows:

Name of Owner U. S. Department of the Interior; Address Box 8008, Boise, Idaho, Wyoming;

Date of Priority August 23, 1905; Total available storage capacity in the Jackson Lake Reservoir, as constructed

under provisions of Permit No. 894 Res. is 299,000 acre-feet.

The right to store water is limited to such an amount as shall be beneficially used, not to exceed one filling annually of said reservoir, for irrigation use.

IN TESTIMONY WHEREOF, I, FLOYD A. BISHOP, President of the State Board of Control, have hereunto set my hand this 13th day of August, A. D. 1971, and caused the seal of said Board to be hereunto affixed.

ATTEST: George A. Christensen, Ex-officio Secretary.

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATIONS FOR	)	
	)	ORDER SETTING
TRANSFER NOS. 3883, 3884, AND 3885	)	PREHEARING CONFERENCE
	)	AND
IN THE NAME OF THE UNITED STATES	)	GRANTING INTERVENTION
	)	
BUREAU OF RECLAMATION	)	

On November 22, 1991, the United States of America, acting through the Regional Director of the Pacific Northwest Region, Bureau of Reclamation (Bureau), filed three separate applications for transfer of water rights with the Idaho Department of Water Resources (Department). The transfer applications will be processed by the Department in accordance with the summary of procedure included in Attachment A to this order. The Bureau transfers and the corresponding Bureau water rights and Snake River Basin Adjudication claims are listed in Attachment B.

The Department has received a total of 555 timely protests to the transfers. The protests are filed against one, two, or all three of the above referenced transfer applications. Of the 555 timely protests 29 are by organizations, six by private individuals, 26 are form-letter protests filed by individuals with Payette River interests, and the remaining 494 were form-letter protests filed by individuals within the Wilder, Boise-Kuna, Nampa-Meridian, New York and Settlers Irrigation Districts on the Boise River. The five irrigation districts are among the 29 organizations which have filed separate protests. The

RE: Analysis of 01-4055, 01-10045 and 01-10044

These three claims filed by the BOR have a basis of beneficial use with the source of Jackson Lake Reservoir and the Snake River with the dam at Palisades Reservoir as the point of diversion. The claims list irrigation storage as the purpose of use with a combined total of 920,000 AF; stating this is the average total yield of the watershed upstream from the Wyoming Idaho state line.

The claims seem to seek rights for all the water in the Snake River at the state line consisting of both storage releases from Jackson Lake Reservoir and natural flow from tributaries to the Snake River below Jackson Lake Reservoir. The narratives in the claims also references bank storage and second fill from Jackson Lake Reservoir. To the extent BOR captures the natural flow on the Snake River system for storage in Palisades and American Falls Reservoirs it has obtained water rights issued by Idaho. If storage in Jackson Lake Reservoir is greater than Wyoming water rights authorize that issue is beyond the jurisdiction of the SRBA.

Claim 01-4055 also lists 1,415,000 AF for power generation, which is the maximum-recorded yield of the Snake River watershed in Wyoming recorded at the state line. For the purpose of power generation the BOR is entitled to a water right with the diversion at Palisades Dam. The use of water for this purpose is being recommended as 01-4054.

Though all the water in the Snake River flowing from Wyoming into Idaho does pass through Palisades Dam, during the irrigation season this natural flow is allocated to fill water rights below the reservoir and is captured for storage. Other than power generation the BOR does not put this water to beneficial use. I fail to see justification for favorably recommending these three claims.

THE STATE OF WYOMING
Certificate of Construction of Reservoir

Proof No. 29875
Certificate Record No. R-6 Page 104

U. S. Department of the Interior
Bureau of Reclamation

has presented to the State Board of Control of the State of Wyoming, proof of construction of

the Jackson Lake Reservoir, Permit No. 894 Res., located in SEE ATTACHED TABULATION Section T. R. Teton County, Wyoming; and Outlet: SEE SEC. 18-4-5-114

Whereas, the proof of construction sets forth that said reservoir has been completed in accordance with the terms of said permit to a capacity sufficient to impound --299,000-- acre-feet of water; and that the source of the quantity of water authorized to be stored in the Jackson Lake

Reservoir is obtained from Snake River on which the reservoir is located, SEE ATTACHED TABULATION

NOW KNOW YE, That the State Board of Control, under the provisions of the Statutes of Wyoming, has by an order duly made and entered on the 13th day of August, A. D. 19 71, in Order Record No. 19, Page 77, determined the priority and capacity of said reservoir as follows:

Name of Owner U. S. Department of the Interior; Address Box 8008, Boise, Idaho, Wyoming;

Date of Priority August 23, 1906; Total available storage capacity in the Jackson Lake Reservoir, as constructed under provisions of Permit No. 894 Res., is --299,000-- acre-feet.

The right to store water is limited to such an amount as shall be beneficially used, not to exceed one filling annually of said reservoir, for irrigation use.

IN TESTIMONY WHEREOF, I, FLOYD A. BISHOP, President of the State Board of Control, have hereunto set my hand this 13th day of August, A. D. 19 71, and caused the seal of said Board to be hereunto affixed.

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

The United States of America acting through the Regional Director

Notice is hereby given that Pacific Northwest Region, Bureau of Reclamation

{Name of Claimant}

Box 043-550 West Fort Street, Boise, Idaho 83724

(Mailing Address)

(Zip Code)

Telephone No. (208) 334-1908

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

- (1) Date of priority: (When was the water first applied to a beneficial use) (See attached)

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

- (2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)

Snake River (Jackson Lake Reservoir, WY) butary to Columbia River

- (3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:

(cfs, af)		(Domestic, Irrigation, Stock, Etc.)	(Both dates inclusive)	
			(Mo., Day)	(Mo., Day)
Quantity	<u>915,000 af</u>	Use <u>Irrigation</u>	Period of Use From <u>April 1</u>	To <u>Oct 31</u>
Quantity	<u>1,415,000 af</u>	Use <u>Power</u>	Period of Use From <u>Jan 1</u>	To <u>Dec 31</u>
Quantity	<u>5,000 af</u>	Use <u>Domestic</u>	Period of Use From <u>Jan 1</u>	To <u>Dec 31</u>
Quantity	_____	Use _____	Period of Use From _____	To _____
Quantity	_____	Use _____	Period of Use From _____	To _____

- (4) 1,415,000 af TOTAL QUANTITY USED.

- (5) A) Point of diversion: (Location of point where water is diverted from its source)

NW ¼ NE ¼, Sec. 17 Twp. 1-S Rge. 45-E B.M., County of Bonneville

Additional points of diversion:

- B) Describe means of diversion of water: (Pump and pipeline, well, diversion dam, reservoir, length of ditch and field, etc.). Give sizes and capacities: be as specific as possible. Describe any changes in the system and give the date of the change. (see attached)

- (6) All Describe location of use by listing number of irrigated acres within each 40-acre tract in appropriate box. If use is not for irrigation, place an "X" in appropriate box to show location.

[illegible]

No. of acres 761,061

- B) If water is used for other than irrigation, fully describe that use, being as specific as possible:
(see attached)

NOTE: Include here the type and number of stock watered:

- (7) If you are claiming water as a member of an organization, list name of organization: The United States of America

The places of use and points of diversion are as identified within the boundaries as described in License No. F-670/01-206 (Palisades Reservoir) and License No. 269/01-2064 (American Falls Reservoir) for those irrigation companies and/or districts shown on Exhibit attached.

1. Date of priority for total yield of 1,415,000 acre-feet of Jackson Lake Reservoir storage flow from the State of Wyoming across the Idaho-Wyoming State line at Snake River Mile Location 980.5 miles into State of Idaho via Palisades Reservoir are as shown:

<u>Date of Priorities</u>	<u>Content (acre-feet)</u>
8/23/1906	298,981
4/1/1907	27,000
8/18/1910	138,829
4/1/1912	12,000
5/24/1913	409,190
4/1/1917	29,000
Jackson Lake Reservoir Total Capacity	
	915,000
4/1/1917	Second fill
	500,000
	Total Yield
	1,415,000 acre feet

Claim for date of priority is based on License issued by Wyoming State Engineer for storage, contracting of allocated Reservoir space, and on Jackson Lake Reservoir enlargements as to when bank storage would have first been used on Minidoka Project (presently Minidoka and Burley Irrigation Districts or Warren Act Lands, presently Twin Falls and North Side Irrigation Companies.)

Date of priorities:

April 1, 1907 Water used on Minidoka Project lands
 April 1, 1912 Water used on Minidoka Project lands
 April 1, 1917 Water used on Warren Act lands

Bank storage quantities are obtained from cooperative Committee of Nine (Advisory Committee District No. 36), U.S. Geological Survey, and Bureau of Reclamation Study Report concerning "Operation, Jackson Lake Reservoir, Transmission Losses Reservoir Water, Water District 36, Idaho," page 28.

<u>Reservoir Content</u>	<u>Elevation (feet)</u>	<u>Bank Storage (acre-feet)</u> <u>Beginning at Elevation 6728.00</u>
299,000	6745.70	27,000
438,000	6752.00	12,000
847,000	6769.00	29,000

Bank Storage Total = 68,000 acre-feet

REPRODUCED

5. (B) A 26-foot outlet tunnel terminating in six outlets controlled by four 7.5 by 9-foot slide gates and two 96-inch hollow-jet valves. Capacity at Reservoir's elevation 5620.0 is 33,000 ft³/s. Also, a 26-foot power tunnel terminating in four 14-foot diameter penstock branches to powerhouse. Two penstock bypass branches to outlet works control house are each controlled by one 7.5 by 9-foot slide gate. Bypass capacity at Reservoir elevation 5620.0 is 14,000 ft³/s.

6. (B) The powerplant located is downstream toe of left abutment of Palisades Dam. Generation is by means of four Francis-type turbines with total of 158,000 horsepower at effective head of 190 feet and total plant discharge of approximately 8,560 ft³/s. Power is distributed by means of power substation located near center of the toe of Palisades Dam.

8. The Jackson Lake Dam and Reservoir served as multiple-purpose storage to the entire Upper Snake River Valley. The head water benefits derived from storage space has been to irrigation needs, re-regulation of low cost hydropower waters, flood protection, and many secondary benefits to both States of Idaho and Wyoming. Documentation of Jackson Reservoir Storage can be found in "Report Snake River Water Problems Concerning Operation, Jackson Lake Reservoir, Transmission Losses Reservoir Water, Water District No. 36, Idaho, by R. I. Meeker, Consulting Engineer, Denver, February 9, 1924.

MEMORANDUM

TO: FILE

FROM: TIM LUKE

RE: Water Right Transfer No.s 3883, 3884 & 3885

DATE: 2-20-92

The Bureau of Reclamation filed water right transfers on all all Bureau reservoirs within Idaho. The transfers were submitted in November, 1991. Numerous protests have been received. This water right is included in one of the above transfers. The transfers have been filed in order to recognize release of storage water for fish enhancement purposes (i.e.; to benefit salmon fish migrations).

Since the transfer applications are lengthy and involve numerous rights, a copy of the appropriate transfers are not included in this file. Please refer to the transfer application file for information concerning the transfers.

MICROFILMED

JUN 24 1992

In Fiche #01-2064

EXCEPTION TO CLAIM WATER RIGHT

AFFIDAVIT

RECEIVED
MAY 2 - 1984
DEPARTMENT OF WATER RESOURCES
Eastern District Office

STATE OF IDAHO)
) ss.
County of Jefferson)

Jack Billings being first duly sworn, deposes and states:

1. I am the Chairman of the Directors of the Protective Union.
2. The Protective Union is an organization representing approximately fifty (50) canal companies in the Upper Snake River Valley, located generally from Blackfoot to Rexburg.
3. The Protective Union in behalf of itself and it's member canal companies, takes exemption to the Notice of Claims to Water Rights filed by the Bureau of Reclamation, which notice was published March 15 and March 22, 1984, in the Idaho Falls Post Register, a copy of which published notice is attached hereto, marked Exhibit "A" and by this reference made a part hereof.
4. Representatives of the Bureau have informed representatives of the Protective Union that the claimed water rights are already in existence and allocated, and the claim does not purport to establish or create any new or additional water rights. It would require considerable investigation and research to either dispute or corroborate that claim. Therefore, in the absence of knowledge to the contrary, that representation is at this time taken as accurate.
5. With the explanation in Paragraph 4 herein, exception is nevertheless raised to the 92,000 acre feet of bank storage for the following reasons:
 - (A) There is no legal right to claim bank storage water.
 - (B) The bank storage is unavailable unless the reservoir is drawn down. The amount of draw-down will proportionately affect the amount of actual bank storage.
 - (C) There are no rules or guidelines for use of the bank storage water.

MICROFILMED

(D) There is insufficient evidence to establish that there is, in fact, 92,000 acre feet of bank storage that will come out of the banks when the reservoir is lowered. Even if that amount of water seeps into the bank, it is believed the majority of it will not come back into the reservoir as it is lowered.

(E) If bank storage is offset against transmission losses of allocated rights, that can have a detrimental effect on natural flow rights.

(F) All of the design capacity for Palisade storage water has been allocated and if there is in fact extra water, it may be subject to additional claims and/or allocations. If those are made and agreements subsequently entered, if that water does not exist, it will create an intolerable situation among holders of Palisade water because there would not be enough water to fill the contractual allotments.

6. This exception is not intended to suggest that if there is in fact storage water, it should not be prorated among existing spaceholders, but is to raise the problems described herein.

7. To the extent the claim alleges a right to more than 1.2 million acre feet for irrigation, through recharge and/or through refilling of the reservoir after it has once been filled each season, exception to such a right of refilling or recharge is made for the reason that such refilling or recharge interferes with flood water rights now diverted and applied to beneficial use by many water users.

Jack Billings

Subscribed and sworn to before me this 22nd day of May, 1984.
