Re: Notice of Change of Water Right Ownership for Water Right Nos. 1-7006 and 1-10011

Dear Jennifer:

Our firm has represented Covington Brothers Limited Partnership in various water right matters over the years, including the Snake River Basin Adjudication. In the final recommendations for Water Right Nos. 1-7006 and 1-10011 in the SRBA, IDWR recommended to the SRBA Court that these particular water rights should include a place of use that includes property in the SESW, NESW, and the SENW, T4N., R40E., Section 1. We bring this to your attention because the Covingtons do not own the property in these three quarter-quarter sections, but nevertheless, over the years have irrigated the property with their water rights for many years previous to 1987. IDWR correctly recognized that these acres should be included within the place of use for the above water rights.

We bring this to your attention because the property in the three quarter-quarter sections identified above has recently been sold to the Wilcox family. To the extent a Notice of Change of Water Right Ownership is filed on behalf of the Wilcox family any change in water right ownership to the above mentioned rights would be improper. As recently noted in the case of *Joyce Livestock Co. v. United States of America*, "One who has appropriated water and beneficially used it has a right to use the water independent of his ownership of the land". Further, because any deed from the previous land owner of the above identified property to the Wilcoxs would only include appurtenances they own, no portion of Water Right Nos. 1-7006 and 1-10011 would have been conveyed to the Wilcoxs.

The Covingtons have requested I send you this letter to put you on notice of this issue. If you receive any NCOs relating to Water Right Nos. 1-7006 and 1-10011, please let us know. If you have any questions or concerns, please do not hesitate to contact me.

Sincerely,

two pumps GE 450 hp/peerless pump, GE 500 HP motor.

pod is in the sunnydell canal and not the sunnydell headgate.

WD 01 measurement device is below the pumps so these pumps are treated like a POD.
