OTHER PROVISIONS NECESSARY FOR DEFINITION OR ADMINISTRATION OF THIS WATER RIGHT:

This right is conditioned upon completion of the appropriation in accordance with the statutory procedure for appropriation of water rights. This right remains subject to all conditions set forth in the permit upon which this right is based, and will be subject to all conditions set forth in the license issued by IDWR upon completion of the statutory appropriation process.

Water shall not be diverted under this permit until a written agreement with the Milner Irrigation District is obtained by the applicant and filed with the Department of Water Resources and with the watermaster of Water District 01. Such agreement shall substantially describe how the water shall be diverted and delivered to the applicants pumping station located in Section 14, Twp. 11S, Rge. 20E, B.M.

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the Court at a point in time no later than the entry of a final unified decree. Section 42-1412(6), Idaho Code.

EXPLANATORY MATERIAL: BASIS OF CLAIM - Permit

This right does not grant any right-of-way or easement across the land of another.

Use of water under this right is subject to control by the watermaster of State Water District No. 1.

Prior to diversion of water under this right, the right holder shall install and maintain a measuring device and lockable controlling works of a type acceptable to the Department as part of the diverting works and at the redirection pumping station.

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF APPLICATION FOR)
PERMIT NO. 01-7072 IN THE NAME OF)
GLEN DALE FARMS, INC.)

MEMORANDUM DECISION
AND ORDER

Application 01-7072 (Old number 45-7352) was filed by Glen Dale Farms, Inc. on August 2, 1978, seeking a permit to appropriate 1.54 cfs of water from the waste discharge of the City of Burley, which is tributary to the Snake River in the NE1/4SE1/4, Section 17, Twp. 10S, Rge. 32E., B.M., Cassia County.

The waste water discharged by the City's water treatment and sewage disposal plant will continue to be discharged by the City into the Snake River. The application then proposes to claim credit for this water by diverting the same quantity of water from the Snake River at Milner Dam and via the Milner Low-Lift Irrigation District's pumping plant located in the SE1/4SE1/4, Section 29, Twp. 10S, Rge. 21E, B.M., Twin Falls County. The water would then be conveyed through the Milner Low-Lift Irrigation District's canals to a pumping station located in the SE1/4 of Section 14, Twp. 11S, Rge. 20E, B.M., Twin Falls County, where it would then be distributed on the applicant's farm lands for irrigation.

The applicant has no control over the amount of water discharged from the City's treatment plant and would only have possession and control of the water at Milner Dam. The applicant proposes no significant change in the past deliveries and use of this water but only has applied to claim credit for the waste discharge from the City of Burley's treatment plants. An analysis of this matter indicates that the waste discharge has flowed into the Snake River since 1962 and therefore must be considered Snake River water.

IT IS, THEREFORE ORDERED and Application for Permit No. 01-7072 is hereby approved with the following conditions:

1. The source of the water shall be the Snake River and the point of diversion shall be at Milner Dam described as within the SE1/4SE1/4, Section 29, Twp. 10S, Rge. 21E, B.M., Twin Falls County.
2. The diversion and use of water under this permit shall be subject to all prior water rights on the Snake River and tributaries.

MICROFILMED

✓ 3. The use of water under this permit is subject to control by the watermaster of State Water District No. 01, Upper Snake River.

X 4. Prior to diversion of water under this permit the permit holder must obtain adequate supplemental water for the portion of the irrigation season that natural flow is not available.

✓ 5. The issuance of this permit in no way grants any right-of-way or easement across the land of another.

✓ 6. Water shall not be diverted under this permit until a written agreement with the Milner Low-Lift Irrigation District is obtained by the applicant and filed with the Department and with the watermaster of Water District 01. Such agreement shall substantially describe how the water shall be diverted and delivered to the applicants pumping station located in Section 14, Twp. 11S, Rge. 20E, B.M.

015 ✓ 7. A measuring device and lockable controlling works of a type acceptable to the Department and the watermaster shall be permanently installed as part of the diverting works and at the redirection pumping station.

X 8. Permit holder shall commence the excavation or construction of the diverting works within one year of the date this permit is issued and shall proceed diligently until the project is complete.

X 9. Proof of construction of works and application of water to beneficial use be submitted on or before May 1, 1987.

Dated this 17 day of May, 1982.

APPROVED

To appropriate the public waters of the State of Idaho Department of Water Resources
Southern District Office

1. Name of applicant Glen Dale Farms, Inc. Phone 336-2110
Post office address P.O. Box 27, Boise, Idaho 83707
~~waste discharge -~~ Snake River* Columbia River*
2. Source of water supply City of Burley which is a tributary of
*Per attached memorandum decision.
3. Location of point of diversion is no % of 68 % of Section 17 Township 106 *
~~point of diversion & injection into Snake River~~
Range 23E B.M. Cassia County, additional points of diversion if any:

SE 1/4 SE 1/4 Section 29 T10S R21E B.M. Twin Falls County
point of ~~rediversion~~ from Snake River

4. Water will be used for the following purposes:

Amount 1.54 cfs for Irrigation purposes from 4-1 to 10-31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purposes from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)

5. Total quantity to be appropriated:

a. 1.54 cubic feet per second and/or b. _____ acre-feet per annum.

6. Proposed diverting works:

a. Description of ditches, flumes, pumps, headgates, etc. See Exhibit "A", Attached

b. Height of storage dam _____ feet, active reservoir capacity _____ acre-feet; total reservoir
capacity _____ acre-feet, materials used in storage dam: _____

Period of year when water will be diverted to storage _____ to _____ inclusive.
(Month/Day) (Month/Day)

c. Proposed well diameter is _____ inches; proposed depth of well is _____ feet.

7. Time required for the completion of the works and application of the water to the proposed beneficial
use is 5 years (minimum 1 year - maximum 5 years).

8. Description of proposed uses:

a. If water is not for irrigation:

(1) Give the place of use of water: _____ % of _____ % of Section _____ Township _____
Range _____ B.M.

(2) Amount of power to be generated: _____ horsepower under _____ feet of head.

(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____.

(5) If water is to be used for other purposes describe: _____

RECEIVED

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 01-7072, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 87.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: See attached memorandum decision.

Witness my hand this 17 day of May, 19 82.
