Re: Notice of Change of Water Right Ownership for Water Right Nos. 1-7006 and 1-10011

Dear Jennifer:

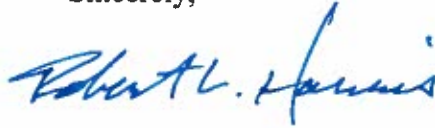

Our firm has represented Covington Brothers Limited Partnership in various water right matters over the years, including the Snake River Basin Adjudication. In the final recommendations for Water Right Nos. 1-7006 and 1-10011 in the SRBA, IDWR recommended to the SRBA Court that these particular water rights should include a place of use that includes property in the SESW, NESW, and the SENW, T4N., R40E., Section 1. We bring this to your attention because the Covingtons do not own the property in these three quarter-quarter sections, but nevertheless, over the years have irrigated the property with their water rights for many years previous to 1987. IDWR correctly recognized that these acres should be included within the place of use for the above water rights.

We bring this to your attention because the property in the three quarter-quarter sections identified above has recently been sold to the Wilcox family. To the extent a Notice of Change of Water Right Ownership is filed on behalf of the Wilcox family any change in water right ownership to the above mentioned rights would be improper. As recently noted in the case of *Joyce Livestock Co. v. United States of America*, "One who has appropriated water and beneficially used it has a right to use the water independent of his ownership of the land". Further, because any deed from the previous land owner of the above identified property to the Wilcoxs would only include appurtenances they own, no portion of Water Right Nos. 1-7006 and 1-10011 would have been conveyed to the Wilcoxs.

Sincerely,

Re: Amended Notice of Claim for Water Right No. 1-10011

Dear Dave:

Enclosed are documents relating to our Amended Notice of Claim for Water Right No. 1-10011. The enclosed map includes those areas which we believe need to be included within the authorized place of use for these water rights. The GIS data was obtained through IDWR's website, including the place of use recommendation information. The place of use depiction is consistent with the maps the Covingtons received from the Department. Using GIS, we drew shapes for those areas in each quarter-quarter section that need to be included within the place of use. The numbers depicted on the map are the calculated acres of each of those sections. Collectively, there is approximately 14.00 acres that need to be added to the place of use. Enclosed is a letter sent to me from Jay Covington explaining why the place of use needs to be changed. As indicated in the letter, if you have any questions, please contact Jay Covington or Lee Sutton, the individual who has been operating the Covington's farm since 1979.

We have enclosed a check in the amount of \$292.00 as we discussed.

If you have any questions or concerns, please do not hesitate to contact me. In addition, Jay Covington's cell phone number is listed on the enclosed letter. If you have any questions for him, he would be happy to visit with you.

Sincerely,

Robert L. Harris

Re: IDWR Preliminary Recommendation of Water Rights for 1-7006 and 1-10011

Dear Rob,

Thanks for making time for me last Friday before I caught an airplane back to Washington. After our conversation, I had a chance to talk to Lee Sutton, who has been operating the farm since 1979. We didn't put pivots on the area in question until 1983. Prior to that, we watered the area with hand lines exclusively (I have firsthand knowledge of that, since I personally moved pipe over that ground in the late 1960's and early 1970s!) Subsequent to installing irrigation pivots, we have continued to use hand lines to water the corners of our fields, including the "triangle" you and I looked at on the map Friday.

Obviously, from the photo attached to the documents, we planted the areas in question in grain (wheat or barley, depending on the year), but they were watered that year.

If it would be helpful to have Lee Sutton talk directly to you to add any points of clarification you need, he will make himself available. Just let me know and I'll put him in contact with you.

Bottom line for us is that we have been watering all of that acreage for over forty years (including corners and the areas between the circles, and we want to continue to do so.

Please contact me if you have any questions. Either email or cell phone is the quickest way to reach me. My cell phone number is 206 999 6008.

Rob, thanks for your help.

Sincerely,
